Insight Security Console

Transparent Console

The InSight Security Console provides typical hospital devices in a secure area. Featuring transparent clarity and impact resistant lockable security doors, all electrical and medical gas devices can be secured while providing functionality and visibility.

*Ligature resistance is not absolute.
Always ensure patients are monitored.

Features/Specifications:

- Standard clear polycarbonate doors designed to resist impact
- Console depth and corner cutouts allow equipment to function while closed
- Formed steel construction
- Flush mounted
- Full length hinges
- Ligature resistant*

Options:

- Built to order in any size or configuration
- 2 or more locks for secure fastening
- Lock options including flat keys and tubular keys to meet your security needs
- Stainless or powder coated steel body
- Door options include clear polycarbonate, stainless steel, powder coated steel, and compact laminate
