Aurora

Overbed Light Specifications

The Aurora Overbed LED Light Fixture provides high quality three-way lighting with convenience and elegance. It is designed for both acute care and patient rooms. Four LED lamps, with separate circuits for the down and up lights enable varied lighting modes. The Aurora is made for hospital use, with smooth flush fitting surfaces to reduce housekeeping chores.

c UL us LISTED

Lighting and Electrical specifications:

- 3000K, 3500K, 4100K, and 5000K color temperature options at 82 CRI and 14 R9
