Wildflowers, Wine and History in Crete

18 – 24 April 2026

‘Outstanding. Really enjoyed all trips – especially botanical gardens, winery and river walk. Hugely appreciate the care that went into planning the itinerary – it was brilliant.’

A street in Chania

Visiting Crete is a sensory adventure filled with the scents of rosemary, thyme, sage, lavender, and chamomile. An island brimming with beautiful flowers and stunning landscapes, there are around 2,000 species of plants, of which about 10% are endemic to Crete. The peak explosion of wildflowers occurs from March to May, when wild orchids and tulips are joined by chamomile, poppies, anemones, iris, field gladiolus, and much more, in bloom.

Crete's natural beauty is equalled only by the richness of its history. The island is the birthplace of the ancient Minoans, who ruled some 4,000 years ago. At the crossroads of three continents, Crete has been occupied by consecutive invaders. Evidence of this long history can be seen in Chania, where mighty fortresses preside over labyrinthine lanes and beautifully restored Renaissance mansions rub rafters with mosques and Turkish bathhouses.

In Crete, 'locavore' is not a trend but a way of life. Rural tavernas often produce their own meat, cheese, olive oil, raki and wine, and catch their own seafood. Explore Crete's rich botany, its ancient and modern history, its beautiful landscapes and delicious food and wine, and learn how all of these intertwine.

'A wonderful trip with an amazing range and mixture of visits.'

Paul Roberts, *Wildflowers, Wine & History in Crete*, April '25

Tour Leaders

Gillian Winter (British) and **Doug Langmead** (Australian) met while working in the Middle East, Gillian in teaching English as a foreign language and Doug in architecture and landscaping on large projects. Music brought them together, as Doug gave lifts to members of a choir Gillian sang with. They both enjoy choral music and are currently rehearsing Handel's Messiah for a performance in the Royal Albert Hall, London.

Gillian has lived in or visited Crete on and off since 2002, settling permanently once she retired. Doug has been living and working in the Middle East since 1979: he has a management consultancy in Dubai and is currently working with Emaar in Egypt, from where he visits Crete frequently. They both enjoy exploring Crete, spending their time hiking, reading, learning about Crete and its history, and dining out. They are members of the Mediterranean Garden Society, headquartered in Athens, learning about regional gardening techniques

and participating in visits to various private and public gardens as well as monthly zoom talks. They are enthusiastic about sharing their love of Crete with visitors.

'Gillian and Doug were fabulous leaders who made you feel comfortable, explained things and kept you informed.'
