Whale tail in the Eyjafjörður Fjord, near Akureyri in Iceland

Led by our experienced and popular tour leading team, Kevin and Trish Esplin, this Fred Olsen cruise takes you from Newcastle to the stunning landscapes of Iceland.

Iceland is a magical island humming with energy and natural phenomena. Its beauty comes from a vast volcanic landscape where mighty forces shape the earth: geysers, mudflats, rumbling volcanoes swathed in ice and glaciers grinding their way through mountains. Travel in May, when the North Atlantic is teeming with wildlife.

Visit Europe's renowned 'whale capital', where humpback and minke whales gather off the

coast of Akureyri during the summer months, alongside thriving colonies of puffins and guillemots.

Its rich cultural life encompasses a literary legacy that stretches from medieval sagas to contemporary thrillers by way of Nobel Prize winners, as well as life, music and Nordic style. Explore vibrant Reykjavík and glimpse traditional life in the remote Westfjords.

This cruise will include a number of fascinating clinical and historical talks by Kevin Esplin. You will be well looked after by the crew, with plenty of time at leisure to enjoy the ship's facilities.

'Kevin and Trisha were very kind, very helpful and excellent tour leaders.'
