Island women on Lake Titicaca

Peru: land of gold and the sun-worshipping Incas, builders of the largest empire in pre-Columbian America. From the colonial grandeur of Lima to the Sacred Valley, Machu Picchu and Lake Titicaca, it is an extraordinary destination.

This tour is a study of women's health in a country where it has a long and complicated history. Lima's Casa de Maternidad opened in 1826 with the first midwifery school in the Americas. In the 1990s a national sterilisation programme left a legacy of injustice that the courts are still working through. Peru has since reshaped women's health around Andean and Amazonian birthing traditions, and it is rebuilding after a pandemic-era rise in maternal deaths. Cervical screening, adolescent pregnancy, access to therapeutic abortion and the regulation of fertility treatment remain live questions.

CPD visits include the Instituto Nacional Materno Perinatal, a leading Lima fertility clinic, Kausay Wasi Hospital in the Sacred Valley and the APAINE rehabilitation project, alongside meetings with Andean herbalists and healers. Travel with your peers, take in Machu Picchu and Lake Titicaca, and enjoy Peru's celebrated cuisine.

THIS TOUR IS CLASSED AS:

Level 4 | Active

Longer and fuller days. Significant levels of walking, covering longer distances, requiring very good fitness and mobility.

Tour Leader

Jeremy Meates is a generalist obstetrician and gynaecologist from New Zealand with an interest in endometriosis and pelvic pain, who has been in public and private practice for the last 25 years.

Jeremy completed his obstetrics and gynecology training in New Zealand and the south-west of England and lives on New Zealand's North Island's Hawkes Bay, renowned for great weather and fine wine.

He is a senior lecturer with the University of Otago as an intern supervisor and has been a performance assessor for the New Zealand Medical Council. Jeremy is a Fellow of the Australian, New Zealand and Royal Colleges of Obstetrics and Gynaecology and has an interest in remote medicine. For 15 years he provided O&G clinics on the Chatham Islands, a remote location 800 km east of NZ with a population of 700. There he was able to provide a thorough assessment in a single visit with ultrasound scans, colposcopy, endometrial biopsy and IUCD insertion. With an interest in minimally invasive surgery, he organised an annual meeting featuring live surgery performed by visiting specialists from Australia. He has been on the organising committee for several conferences at home and abroad, including 'Cold Cases in Medicine' in Japan and Greenland.
