3.6V/35Ah Solid-state Battery Pouch Cell
Model: SM_BC_3.6V35Ah

This 3.6V/35Ah solid state battery pouch cell offers up to 7C discharge rate, perfect for providing power to compact, high-powered devices. Its advanced solid-state design ensures superior safety compared to standard lithium-ion batteries, while its high energy density allows for optimal performance, light weight and space-saving capabilities.

Battery Type	Solid State Lithium-ion
Battery Case	Aluminum Polymer Pouch
Nominal Voltage	3.6V
Capacity	35Ah
Energy Stored	~126Wh
Energy Density	~330Wh/kg
Weight	0.84lbs. (380g ± 5g)
Dimensions (L x W x H)	7.3" x 3.5" x 0.4" (185mm x 88mm x 11.4 mm)
Discharge / Charge Connector	Tab
Operating Voltage	2.6V - 4.2V
Standard Discharge	1C
Max Constant Discharge	5C
Peak Discharge	7C (30 seconds)
Standard Charging	0.5C @ 17.5A
Rapid/Max Charging	1.0C @ 35A
Cycle Life	~150 @ 7C discharge ~500 @ 3C discharge ~1000 @ 0.5C discharge
Operating Temperatures	-20°C to 55°C (minimum -40°C
Storage Humidity	60±25%R.H
