

2025 Sporting Regulations KartPlex Cup Club Series

V1.2 Last Updated: 08/01/2025

1. Event Entry

1. The entrant into an event is considered to be the driver.
2. The driver is solely responsible for the entirety of their actions, conformity of their kart, respective equipment, and all persons concerned with them, throughout the entire duration of an event.
3. T4 KartPlex reserves the right to refuse entry due to karts not conforming to regulations.
4. Competitors may register for a class up until that class has qualified.

2. Tech inspection

1. It is the competitor's responsibility to present a kart that conforms to the specific regulations of his/her kart. T4 KartPlex reserves the right to restrict track access to a kart that it deems non-compliant with regulations.
2. All karts must have a current band or pass through Pre-Tech before entering the course.
3. T4 KartPlex reserves the right to tech any entered kart at any time throughout the race day.

3. Numbers

1. Numbers must be correctly displayed on all four sides of the kart. Numbers must be legible at speed. T4 KartPlex reserves the right to remove a kart from the track if numbers are not displayed properly or nonexistent. Numbers are required starting with first session on track.
2. If two drivers register for an event with the same, unreserved number, the number will be given to the driver who registers first.

4. Driver's Meeting

1. The driver's meeting is organized by the Race Director for all drivers entered in the event. Location of Driver's Meeting will be announced on race day and on the schedule.
2. All drivers are required to attend briefing. Penalties can be enforced by the race director for drivers that do not attend.

5. Fuel

1. Per regulations as outlined in the class rules
2. Fuel must be at ambient temperature before entering the track.

6. Tires

1. Per regulations as outlined in the class rules
2. Drivers MUST use same set of tires from qualifying onwards. If a tire is damaged and unusable, it must be brought to the tech official and can only be replaced with a tire of equal or less tread wear. (You cannot replace a damaged tire with a brand- new tire.)
3. In the event a rain race has been declared the competitor will have the option of running either slicks or rains. Slicks must be the correct manufacturer and compound for the class. Rain tires must be an MG rain tire unless specified otherwise in the class rules.
4. Tires must be at ambient temperature before entering the track. If a tire is found to be tampered with we reserve the right to disqualify that competitor at any time.

7. Scoring

1. Results for all official track sessions will be considered pending until approved by the proper race officials and posted as "Official". The posting of results does not automatically deem results to be final.
2. Transponders
 - i. Transponders are mandatory for practice.
 - ii. Transponders can be rented from T4 KartPlex, must be returned immediately following competitor's final on-track session of the event. If rented transponder is not returned, competitor will be charged the full retail price.
 - iii. Hand scoring will only be offered by race officials in race sessions, and it will only be scored as such if the driver's transponder is properly mounted and present on the kart at the scale line.

8. Race Format

1. Qualifying will be scored by best time achieved on/before the checkered flag on final lap. Drivers must be within 107% of the pole time or can show proof they are in a previous session. It is at the Race Director's discretion if they allow a driver outside of 107% to participate or not.
2. Starting order for the Pre-Final will be determined by order of best time achieved during qualifying
3. Starting Order for the Main Event will be based on finishing order of Pre-Final
4. Finishing order of the Final will be the final result of the day.

9. Grid

1. No fuel on the grid. Work is allowed on the grid except for anything that requires the use of heavy equipment or rolling toolboxes.
2. Quiet Grid Area: T4 KartPlex has a quiet grid rule. You may warm up your engine in the designated area behind the grid.
3. No personal vehicles (motorized and non-motorized) are allowed on the grid. The Driver is responsible for mounting the transponder on the back of the seat.

10. Starting procedure

1. All single-speed classes will not receive a full warm-up lap and will attempt to take the green the first time by the start/finish line. The leader should slow to pace speed approximately halfway through the track on the out lap to begin grouping the field together.
2. All Gearbox classes will receive one full warm-up lap. After completing the initial warm-up lap, the leader in these classes should also slow to pace speed approximately halfway through the track in order to attempt a start the next time at the starting area.
3. If the head flagger does not see the majority of the field together prepped for a clean start, he/she will wave off the attempt and the field will make a full circuit around the track to attempt a clean start the next time by the start/finish line.
4. Clean Start Requirements:
 - i. Slow, consistent pace speed until Acceleration cone/line
 - ii. All drivers within the tram lines or single file in their individual row
 - iii. Less than 1/2 a kart length gap in between each driver in line (front-to-rear)
5. At the drop of the green flag, all drivers are allowed to leave the tram lines, or break single file
6. If the start is given but a driver does not meet the clean start requirements, they are subject to a 3 second penalty per failed requirement (example: if a driver is both further back than 1/2 a kart length AND out of the tram lines at the drop of the green, a 6 second penalty will be awarded)

11.Scale Procedure

1. The post-race scale readings will be deemed official and final.
2. Competitors MUST be weighed after both heats and the final in order to avoid a DQ from the session.
3. Only Officials may penetrate in the Weighing Area. No intervention whatsoever is allowed in that Area unless it has been authorized by these Officials. This includes the introduction of tire pressure gauges.
4. Violations to these rules may cause drivers to be penalized.
Most offenses will be considered as a "failed scale requirements" penalty. Other penalties may be imposed as officials deem appropriate.
5. If the weight of a Driver and of his kart is under that specified in the Technical Regulations, kart and its driver will be excluded from the session concerned (Disqualification).
 1. Each driver will be given two chances to meet or exceed the minimum weight when scaling, and the scale will be reset in between each attempt.
 2. Drivers may be allowed to drink a 20 oz. plastic bottle of water while in the scaling line. This is only allowed from a clear plastic bottle and with permission from race /scale officials. Any driver dumping water on their person or suit is not permitted.

12.Penalties:

The Penalties that follow apply to driver conduct as well as personal conduct for any person attending the event

1. Number of positions gained/loss as a result of contact.
2. Number of positions gained/loss as a result of contact plus penalty positions.
3. Place or Time Penalty (up to a 10 second penalty or 3 position penalties, etc.)
4. 1 Lap Penalty
5. Exclusion from TQ/Pre-Final/Final
6. Exclusion from the Event
7. Suspension for One Race Day + No points for that Event.
8. Suspension for One or More Race Days + No points for that event.
9. Suspension for the present season or next season. Must leave the premises*

13. Championship Structure:

1. The Championship structure will consist of 10 race weekends. The points championship will consist of your 8 highest point Races out of the 10 races scheduled. It is required that each competitor enters in at least 6 race days to be eligible for Championship awards.
2. Drivers who receive a DQ in any Final session will receive no points for that session. A DQ in any final will also cause that sessions points to be ineligible for consideration as a points drop.
3. The points breakdown is as follows :

Final –

1st 200 pts 2nd 175 pts 3rd 150 pts 4th 140 pts 5th 130 pts
6th 120 pts 7th 110 pts 8th 100 pts 9th 90 pts 10th 80 pts
11th 70 pts 12th 60 pts 13th 50 pts 14th 40 pts 15th 30 pts
16th 20 pts
17th or lower 10 pts

14. Pit area:

1. Your pit area must be left in the same shape that it was when you arrived.
2. Leaving tarps, tires, tent stakes, and/or heaps of trash will result in a \$200 fine. This fine must be paid before you can enter the next race or practice at T4 KartPlex.

15. Awards:

1. Trophies will be awarded to the top 3 drivers in each class that has 2 or more drivers.
2. End of Season Trophies will be awarded to the top 3 in points at the conclusion of the season. For a class to be eligible for End of Season Trophies, their class must have a minimum of 3 drivers in 3 or more events that season.

16. Substitute Drivers:

1. A relief or substitute driver may be used once per season and only in SR or Shifter Divisions
2. Substitute drivers are not allowed once the first timed competition session has begun, I.E qualifying onwards
3. Substitute drivers must conform to all restrictions of said category
4. Substitute drivers must be used for a reason deemed valid by the series manager
5. All substitute drivers must be approved by series, and series manager has final say over the acceptance of usage of substitute drivers
6. Substitute drivers must use the equipment (chassis and engine) of the original driver for whom they are substituting. The only alterations acceptable to accommodate substitute drivers will be pedal and steering ergonomic adjustment.
