We are proud to present our updated **Kapatal Brands Consumables Catalogue**, featuring a wide range of high-quality products carefully sourced from **Germany, Green, China and various other European countries**.

Please note the following:

- This catalog contains only the **items we currently stock**.
- There is no associated website for additional reference.
- For pricing, please refer to our latest price list.

All products listed here have been tested and proven in the field to meet the high standards expected by our customers across Sub-Saharan Africa.

If you're looking for a bulk order, we'll gladly assist. These will require **a lead time of approximately 3 to 4 months**, depending on shipping schedules and product availability.

For urgent requests, if we are out of stock:

- We will offer **an alternative equivalent**, or
- We can **airfreight the item at your cost**, typically delivered within one week.

Our goal is to ensure you have consistent access to trusted consumables that support your operations without delays.

Thank you for your continued support.

Please consult the price list for product codes and current availability.

WELCOME

TO KAPATAL

Kapatal Brands was founded over 12 years ago with a clear mission to supply distributors across Sub-Saharan Africa with access to premium, globally respected automotive, commercial, and industrial brands.

We do not sell directly to bodyshops or end users- our focus is on supporting distribution partners with trusted, proven products, technical knowledge, and reliable service that helps them grow confidently.

We proudly import and represent a carefully selected range of international brands:

- MIPA Paints- High-performance coating from Germany.
- Smirdex Abrasives- Top-tier abrasives from Greece.
- Tube Spray Guns- Dependable spray equipment from China.
- Various Consumables- Sourced from trusted European suppliers.

What sets Kapatal apart is not only the quality of our products but also the knowledge behind them. Our technicians are trained in both Germany and Greece, and have also undergone structured training in our own in-house training centre, ensuring they understand application, performance, and support from the ground up. Every product we offer has been personally tested by our team over the past decade, and the results are clear- our customers remain loyal because the quality speaks for itself. With customers spread across Sub-Saharan Africa, and as the official agency for our brands in the region, we are committed to providing reliable supply, technical support, and long-term partnership to every distributor we serve. At Kapatal Brands, we stand behind every product, every order, and every relationship- with a foundation built on quality, trust, and performance.

Empowering Surfaces, Embracing Africa

IMPORTED CONSUMABLES

CRAFTING EXCELLENCE, EMBRACING HERITAGE

Kapatal offers a wide range of consumables, including MIPA's MP Products and premium imported Chinese consumables, designed to meet the highest standards of quality and performance. Our selection includes protective gear, sand blocks, backing pads, mops, spray booth consumables, and much more. These products are engineered for durability and efficiency, ensuring optimal results in automotive, industrial, and commercial applications. Whether you're preparing surfaces, protecting workers, or maintaining your spray booths, our consumables provide the tools and support needed to achieve superior finishes every time.

MP PRODUCTS

CRAFTING EXCELLENCE, EMBRACING HERITAGE

Under its brand MP Non-Paints, MIPA offers a comprehensive range of accessories for all work steps in painting and varnishing. In addition to abrasives and polishes as well as products for bonding, sealing or masking, MP also supplies appropriate tools as well as cleaning products and personal protection equipment. The focus is always on quality, efficiency and usability.

MP Mixing Stick Universal

Ratio mixing chart measuring sticks.

Ratio use:

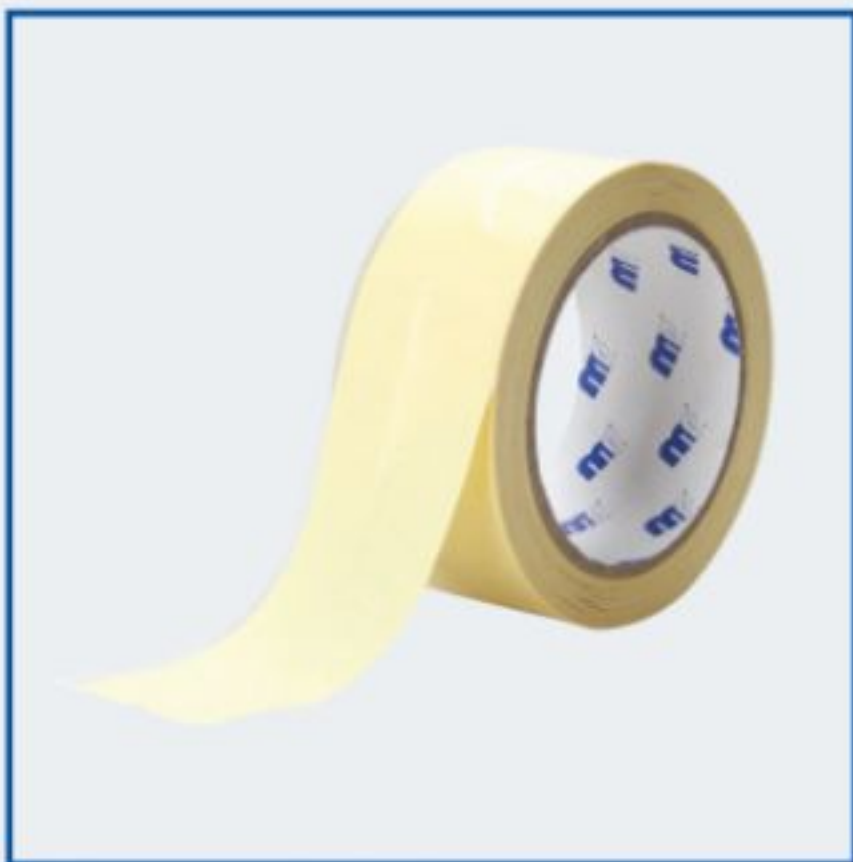

Product Code: 253070000 (2:1/4:1 Size 200MM)
Product Code: 253050000 (3:1/6:1 Size 300MM)
Product Code: 253050001 (2:1/4:1 Size 300MM)
Product Code: 253040000 (Mixing Stick Size 250MM)
Product Code: 253020000 (4:1/5:1 Size 400MM)

MP Paint Strainers

Paint strainers are cone-shaped filled with line mesh (Two sizes) designed to eliminate dirt, clumps & contamination from paint also ensuring a clean smooth spray application and protecting spray equipment.

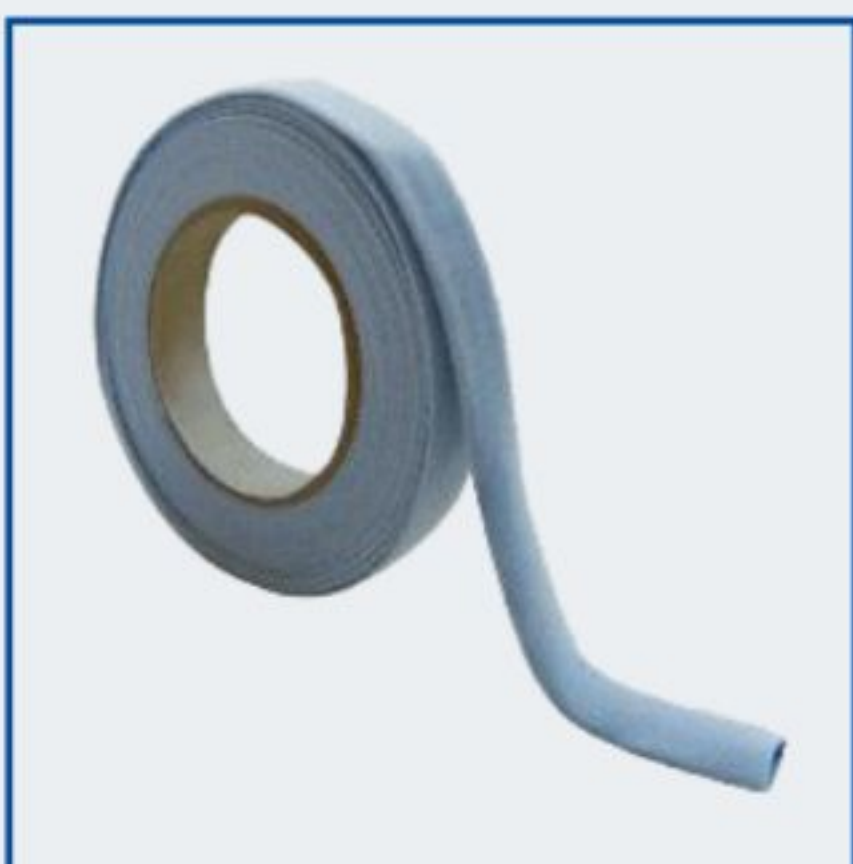

Product Code: 581011006 - (190 Micron Basecoats/Primers/Paint)
Product Code: 581011017 - (125 Micron Basecoats/Clearcoats/Paint)

MP Lifting Tape

Lifting tape is designed to raise **rubber trims** and **edges** without removal. Allowing clean paint lines & preventing **over spray** during spray application.

Product Code: 593870050 (10MM x 50M)

MP Blending Tape

This tape has specially designed foam tape that creates a smooth, leathered edge when blending new paint and exciting finishers. Ideal for achieving invisible transitions and reducing polish time.

Product Code: 593980020 -(5MM-20MM)
Product Code: 593980021 -(25MM-20MM)

MP Control Black Powder

Control black powder is a day coat that helps identify:

- scratches
- pinholes
- uneven areas

during sanding -ensuring a flawless finish before painting, no masking required.

Product Code: 581017182 - (Includes Pad)
Product Code: 581017186 - (Powder Only)

MP Dart Tape

Foam dart masking tape is for masking panel edges, door jambs and gaps. Creates a **soft paint edge** and prevents over spraying from entering the hidden areas. Prefect for achieving seamless transition in blend and repair jobs.

Product Code: 593990020 (13MM x 50M)

MP Nasswisch (Wet & Clean)

High Quality, pre-moistened cleaning cloth designed to remove

- **Dust**
- **Grease**

From surface before paint and also prevents contamination. Ideal for use in paint prepared areas to ensure a clean static-free finish.

Product Code: 5960111165 (38CM x 32CM x 500 Pieces)

MP Half Mask (Double)

Comfortable, reusable half mask respirator designed for protection against flammable solvents and air borne dust particles.

Compatible with most replaceable filter cartridges.

Product Code: 595040000

MP Clean Set

Protective kit is to keep car internally clean during repairs or painting. Includes disposable covers.

- **Seats**
- **Steering wheel**
- **Foot pedal cover**

Product Code: 5150200099

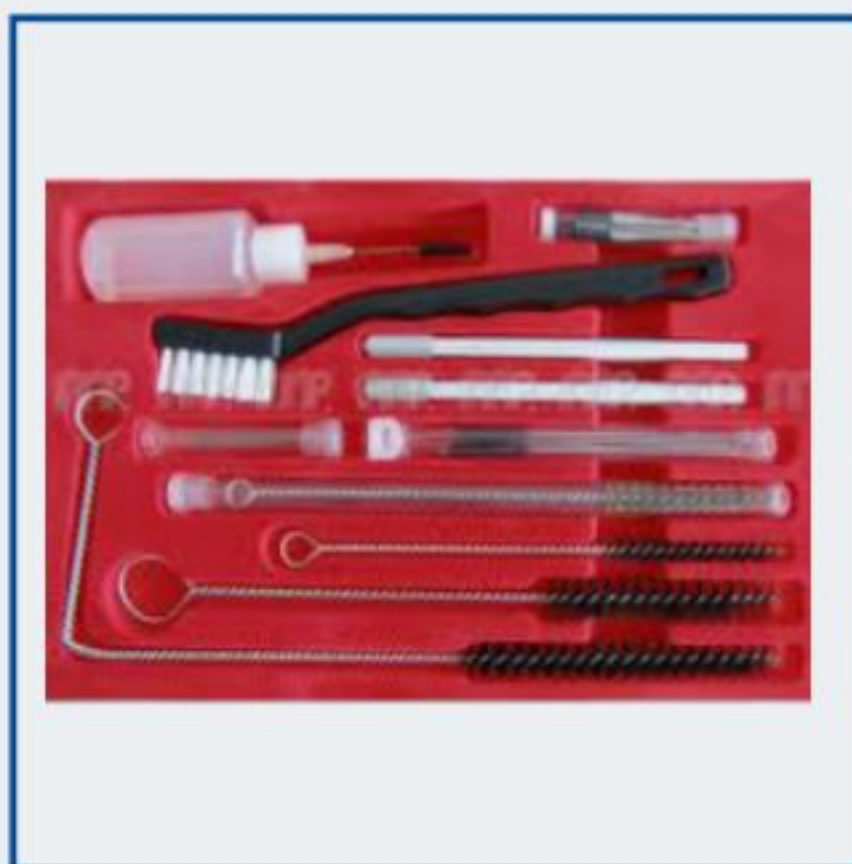

MP Masking Plastic

High density masking plastic (**9 micron**) sheeting is designed for fast & effect of masking a car.

Clings to surfaces with minimal static and resists paint bleed through. Ideal for protection while spraying or refinishing work.

Product Code: 516190010 (150M x 4MM)

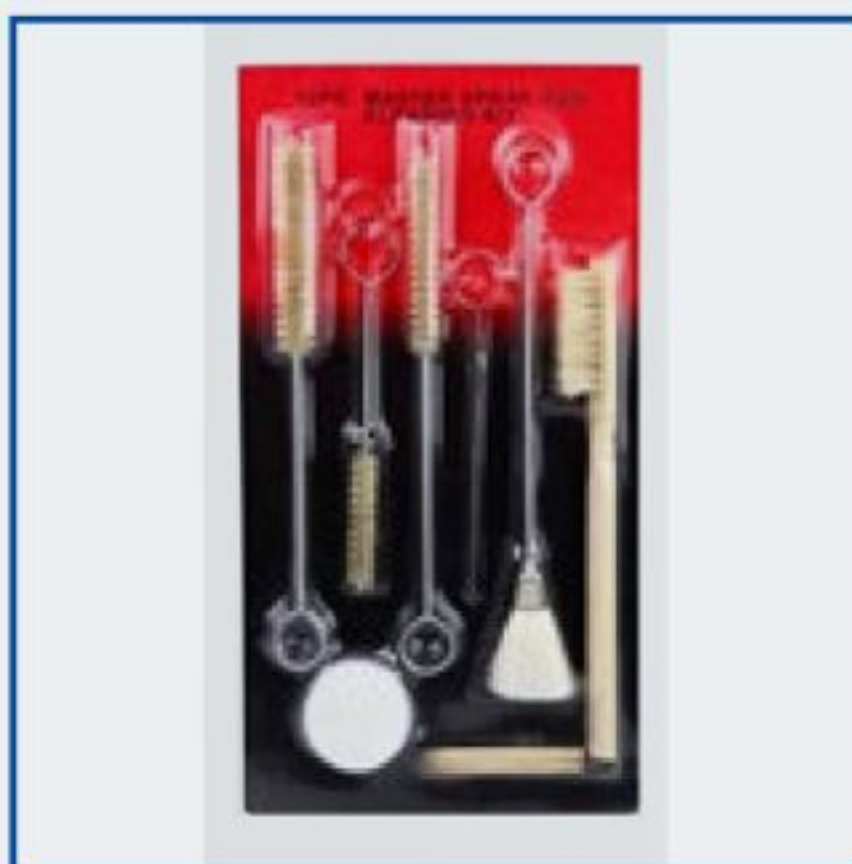

MP Spraygun Cleaning case

Complete spraygun cleaning kit which includes all the tools to thoroughly clean.

- **Nozzles**
- **Needles**
- **Internal parts**

It also helps extend the life of your spray-gun.

Product Code: 583100001

MP Spraygun Cleaning Set

Kit for cleaning sprayguns which includes:

- **Brushes**
- **Designed brushers**
- **Nozzles sets**

Product Code: 583100000

MP Run Cutter

Runcutters specially designed blades used to shave off.

- **Paint runs**
- **Sags after drying**

Allowing for smooth refinishing without damaging surrounding areas or paint.

Product Code: 579300258

MP Needle Dust Kit

Dust needle kit includes precision needles designed to carefully lift out.

- **Dust particles**
- **Minor imperfections**

From paint finishing before polishing or painting.

Product Code: 581017034

MP Anti-Dust Coating

Anti dust coating is a transparent antistatic solution can be applied on:

- **Spray booth wall**
- **Prep areas**

Reduce dust attraction and keep workplace cleaner for longer.

Product Code: 581020000 (5L)

MP Metal Spraying Cards

Durable and reusable metal spray cards ideal for spray out test:

- **Colour matching**
- **Coverage of paint**

Product Code: 594970000

MP Carbon Fine Sanding Blocks

Durable sanding blocks are designed to even surface preparation, allowing flat, controlled sanding on various surfaces.

Options: P800 (Red), P1000 (Yellow), P1500 (Blue), P3000 (Green)

Product Code: 594730800 (Red)
Product Code: 594731000 (Yellow)
Product Code: 594731500 (Blue)
Product Code: 594733000 (Green)

MP Stripe Removing

Is a round rubber wheel that easily removes.

- **Vinyl stripes**
- **Decals**
- **Glue**
- **Stickers**

From painted surfaces without scratching or harming the finish. Ideal for use with a drill.

Product Code: 569026669

MP Spray Booth WBS Skin

Protective wall coating film for spray booth.
 Interiors, designed to trap **over spray** and **dust**.
 The WBS skin caps the booth clean and improves lighting conditions.

Easy to apply and peel of for quick booth maintenance (**Water based**).

Product Code: 58150000 (5L)

MP Touch Up Bottle

Small refills touch up bottles for colour sample

- **Passenger vehicle**
- **Commercial vehicle**
- **Industrial Market**

Designed for small touch ups and is ideal for chips, scratches & detail repairs.

Product Code: 594500360 (20ml)

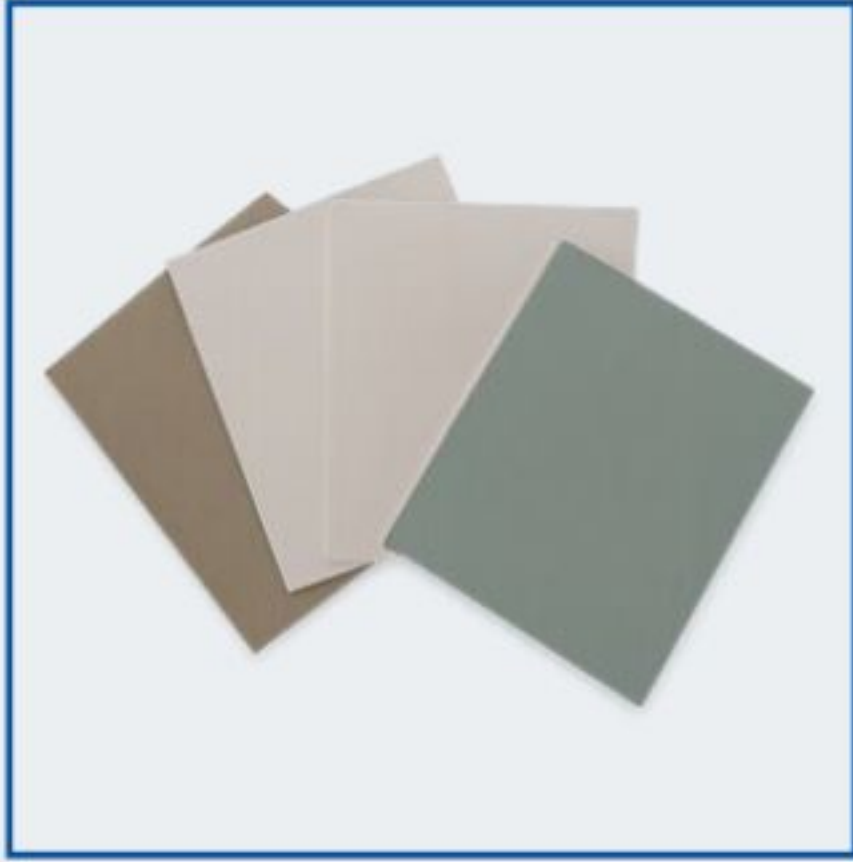

MP Fineline Tape

High precision masking tape ideal for crafting sharp **paint edges, curves** and **customs designs**. Heat resistant and flexible, it adheres smoothly without lifting or leaving residue. Prefect for spray work and multi-tape finishes.

Product Code: 581022041 - (55Mx3MM)

Product Code: 581022042 - (55Mx6MM)

Product Code: 581022043 - (55Mx9MM)

MP Soft Sanding Pad

Reusable sanding sponges designed for smoothing surfaces. Ideal for hard to reach areas and curved profiles suitable for

Wet or Dry.

Product Code: 594600001 - (Medium)

Product Code: 594600002 - (Fine)

Product Code: 594600003 - (Super Fine)

Product Code: 594600004 - (Ultra Fine)

MP Mixing Cups

Clear, durable mixing cups with printed ratios guides for accurate mixing of **paints, primers** and **clearcoats** comes with secure- fitting lids to prevent contamination & spills.

Product Code: 581050385 - (385ml)

Product Code: 581050750 - (750ml)

Product Code: 581051400 - (1400ml)

Product Code: 581052300 - (2300ml)

MP Mixing Cup Lid

Lids are designed to tight fit onto the mixing cup to prevent the paint from going hard **(NB should the paint already be mixed with hardener, paint should be thrown away)**

Product Code: 581060385 - (385ml)

Product Code: 581060750 - (750ml)

Product Code: 581061400 - (1400ml)

Product Code: 581062300 - (2300ml)

MP Plastic Cleaner (Anti-Static)

Mipa plastic cleaner (anti-static) is a specialized cleaning agent formulated for **plastic surfaces**. It is designed to eliminate electrostatic charges and prevent their reappearance which helps reduce the dust attraction especially beofre painting plastic parts.

Product Code: 265250000 (5L)

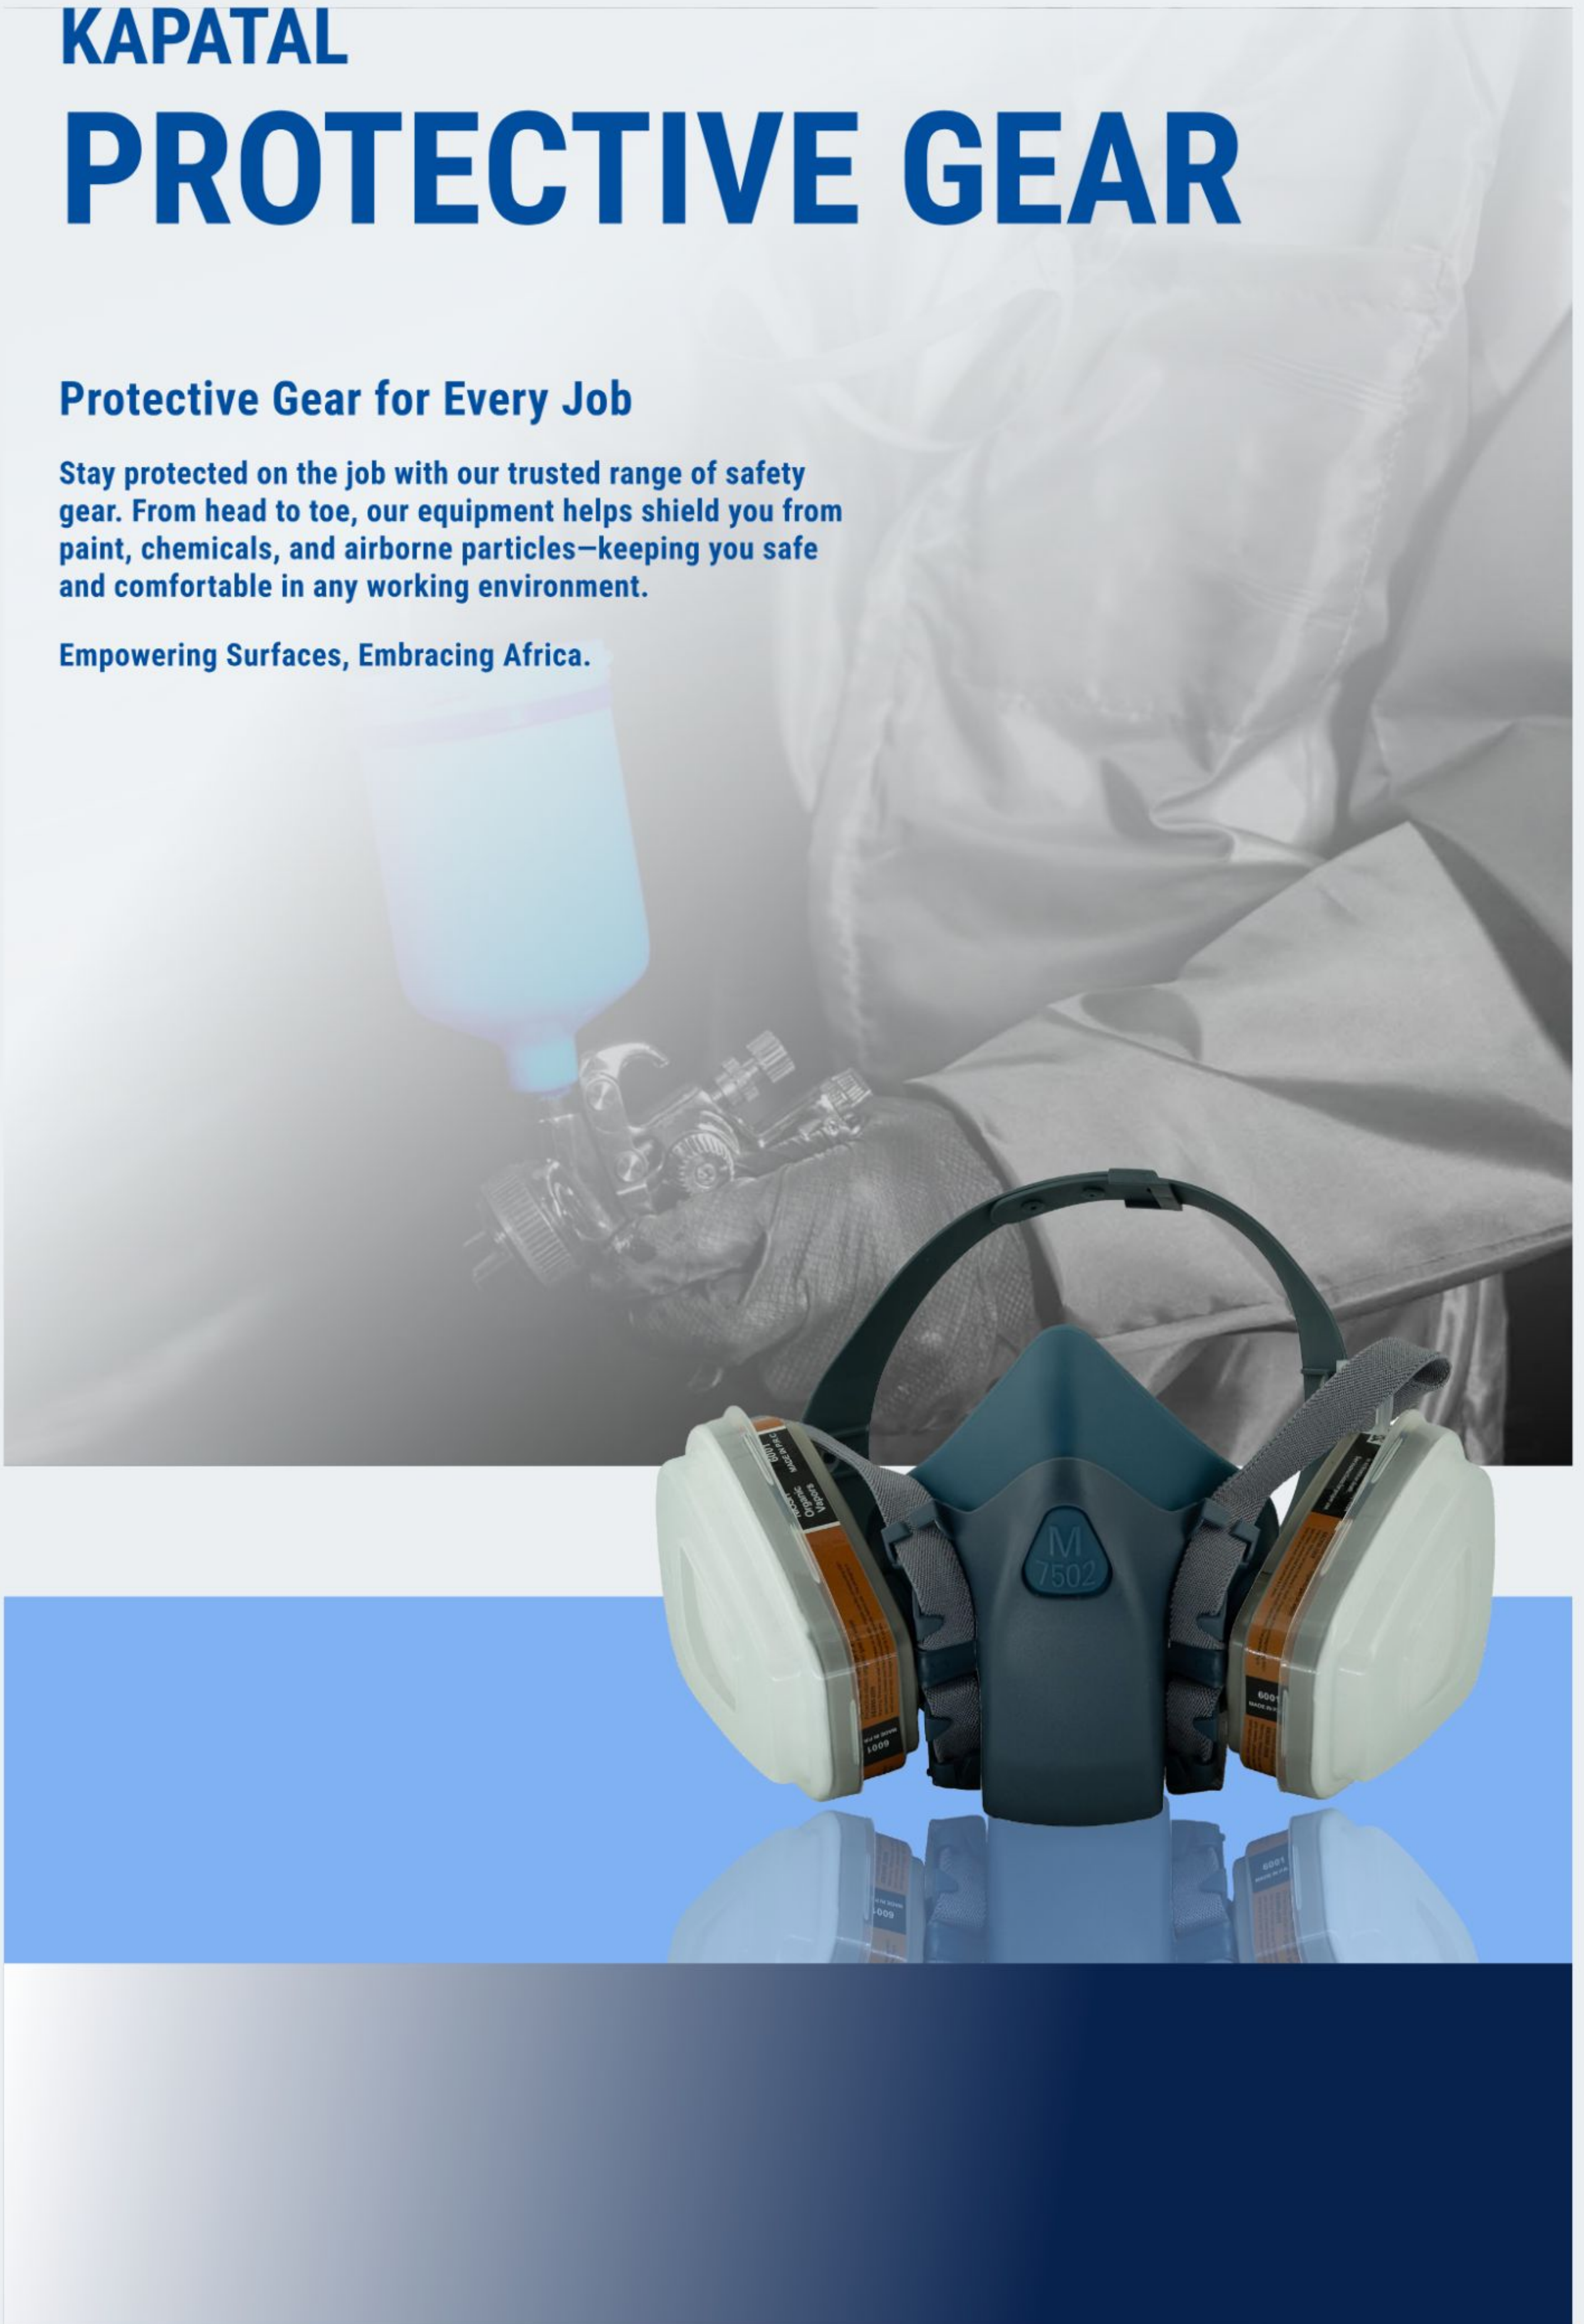

KAPATAL

PROTECTIVE GEAR

Protective Gear for Every Job

Stay protected on the job with our trusted range of safety gear. From head to toe, our equipment helps shield you from paint, chemicals, and airborne particles—keeping you safe and comfortable in any working environment.

Empowering Surfaces, Embracing Africa.

Double Mask Respirator

The durable mask is a high-quality reusable half mask respirator designed to protect against paint fumes and other dust and air-bourne particles used in these industries

- Automotive
- Commercial
- Industrial

Product code: MS-7502M

Mask Replacement Cartridge

Cartridge is designed to be used with the double mask respirator, providing effective protection against

- Fumes
- Organic vapours

Product code: FL-1 (Set)

Filter Cover

Filter cover is a protective pre-filter to extend the life of the mask

- Prevents dust and fumes
- Extends the life of the cartridge

Product code: FL-2

MP Latex Gloves Blue

Durable, solvent- resistant latex gloves designed to protect hands during paint mixing, spraying and cleaning.
Latex Gloves have excellent grip flexibility and chemical resistance for professional workshop use.

Product Code: 5540160003 – (New Codes) – (Medium)
Product Code: 5540160004 – (New Codes) – (Large)
Product Code: 5540160005 – (New Codes) – (Extra Large)

Anti - Static Overalls

Blue or white overalls are light weight, breathable and reusable protective granules designed for spray painter and is anti-static material, while using in spray booth.

Product code: 999100019 - White overalls (S)	Product code: 999100018 Blue overalls (S)
Product code: 999100008 - White overalls (M)	Product code: 999100011 Blue overalls (M)
Product code: 999100004 - White overalls (L)	Product code: 999100012 Blue overalls (L)
Product code: 999100006 - White overalls (XL)	Product code: 999100013 Blue overalls (XL)
Product code: 999100015 - White overalls (XXL)	Product code: 999100014 Blue overalls (XXL)
Product code: 999100017 - White overalls (XXXL)	Product code: 999100016 Blue overalls (XXXL)

SANDING BLOCKS

Vacuum

Dust-Free Sanding, Done Right

Achieve a cleaner finish with vacuum sanding blocks from Smirdex. Designed for dust-free performance and smooth results, they help keep your workspace cleaner while delivering premium sanding power.

Empowering Surfaces, Embracing Africa.

Dust Free Hand Sanding Block

This is designed to achieve cleaner and smoother sanding with an extraction systems improving quality and dust free environment.

Can be used with a non extraction system but will not create dust free environment.

Product Code: 73005-21 - (70MM x 125MM)

Dust Free Hand Sanding Block

This is designed to achieve cleaner and smoother sanding with an extraction systems improving quality and dust free environment.

Can be used with a non extraction system but will not create dust free environment.

Product Code: 73008-21 - (70MMx 198MM)

Dust Free Hand Sanding Block

This is designed to achieve cleaner and smoother sanding with an extraction systems improving quality and dust free environment.

Can be used with a non extraction system but will not create dust free environment.

Product Code: 73016-21 - (70MM x 400MM)

Dust Free Hand Sanding Block

Versatile and efficient, this sanding blocks features interchangeable sand surfaces for various application. The ergonomic design ensures comfort during extended use while the quick-change system allows fast surface swaps to suit your sanding needs.

Can be used with a non extraction system but will not create dust free environment.

- Flat
- Concave
- Convex

Product Code: GAN-S304-A (Set)

Hand Sanding File (Adjustable)

Durable light weight hand sanding file designed for comfort and versatility, features an adjustable handle with a velcro base.

Ideal for flat panels contoured surfaces, shaping and detailed work.

This cannot be used with a dust extraction system.

Product Code: 71612-00 (70MM x 400MM)

Hand Sanding File

Dural-use metal hand file (**Velcro & clips** on) a versatile sanding solution and is designed for use of both Velcro backed abrasives & standard sandpaper. Ideal for flat surfaces, bodyfiller shaping and general sand work.

Cannot be used with a dust extraction system.

Product Code: 71501-22 (70MM X 400MM)

Product Code: 71501-21 (70MM X 400MM)

Pur Molded Hand Sanding Block

The two piece Pur-Mold sanding block with a comfortable grip is ideal for sanding flat surfaces and shaping molds. Perfect for abrasive sheets.

Super Light-weight, Comfortable Holding, PUR molded.

Product Code: 71204 (70MM x 140MM)

Product Code: 71205 (70MM x 140MM)

Product Code: 70125 (70MM x 140MM)

Rubber Hand Sanding Block

Rubber sanding is ideal for both flat and contoured surfaces.

Made from high quality rubber.

Hold sandpaper or production paper firmly in place while in use.

Product Code: PRBSB1 (70MM x 140MM)

Red Hand Sanding Block

A classic and reliable hand sanding tool. Red sanding block features **strong metal clips** on both ends to securely hold standard abrasive sheets in place and offers a comfortable sanding on flat surfaces.

Product Code: GAN-SB-165 - (165MM x 85MM)

Red Hand Sanding Block

A classic and reliable hand sanding tool. Red sanding block features **strong metal clips** on both ends to securely hold standard abrasive sheets in place and offers a comfortable sanding on flat surface.

Product Code: GAN-SB-210 - (210MM x 100MM)

Hand Sanding File (Hard, Velcro)

Durable and easy to use, the velcro sanding block designed for fast abrasive changes using hook and loop. Ideal for hand sanding flat or contoured surfaces.

Product Code: 71612-22 – (67MM x 400MM)

Hand Sanding Pad (Hard, Velcro)

Compact and efficient, the hand Velcro pads is ideal for sanding

- **Small**
- **Hard**

To reach areas designed for flat, rigid base and Velcro surface for quick abrasive changes.

Product Code: 71545-2 - (70MM x 198MM)

Hand Sanding Pad (Soft, Velcro)

Compact and efficient, the hand Velcro pads is ideal for sanding

- **Small**
- **Hard**

To reach areas designed for flat, rigid base and Velcro surface for quick abrasive changes.

Product Code: 71235 (66MM x 140MM)

Hand Sanding Pad (Medium, Velcro)

Compact and efficient, the hand Velcro pads is ideal for sanding

- **Small**
- **Hard**

To reach areas designed for flat, rigid base and Velcro surface for quick abrasive changes.

Product Code: 71335-2 (66MM x 122MM)

Hand Sanding Pad (Soft Velcro)

Compact and efficient, the hand Velcro pads is ideal for sanding

- **Small**
- **Hard**

To reach areas designed for flat, rigid base and Velcro surface for quick abrasive changes.

Product Code: 71335S-2 (66MM x 122MM)

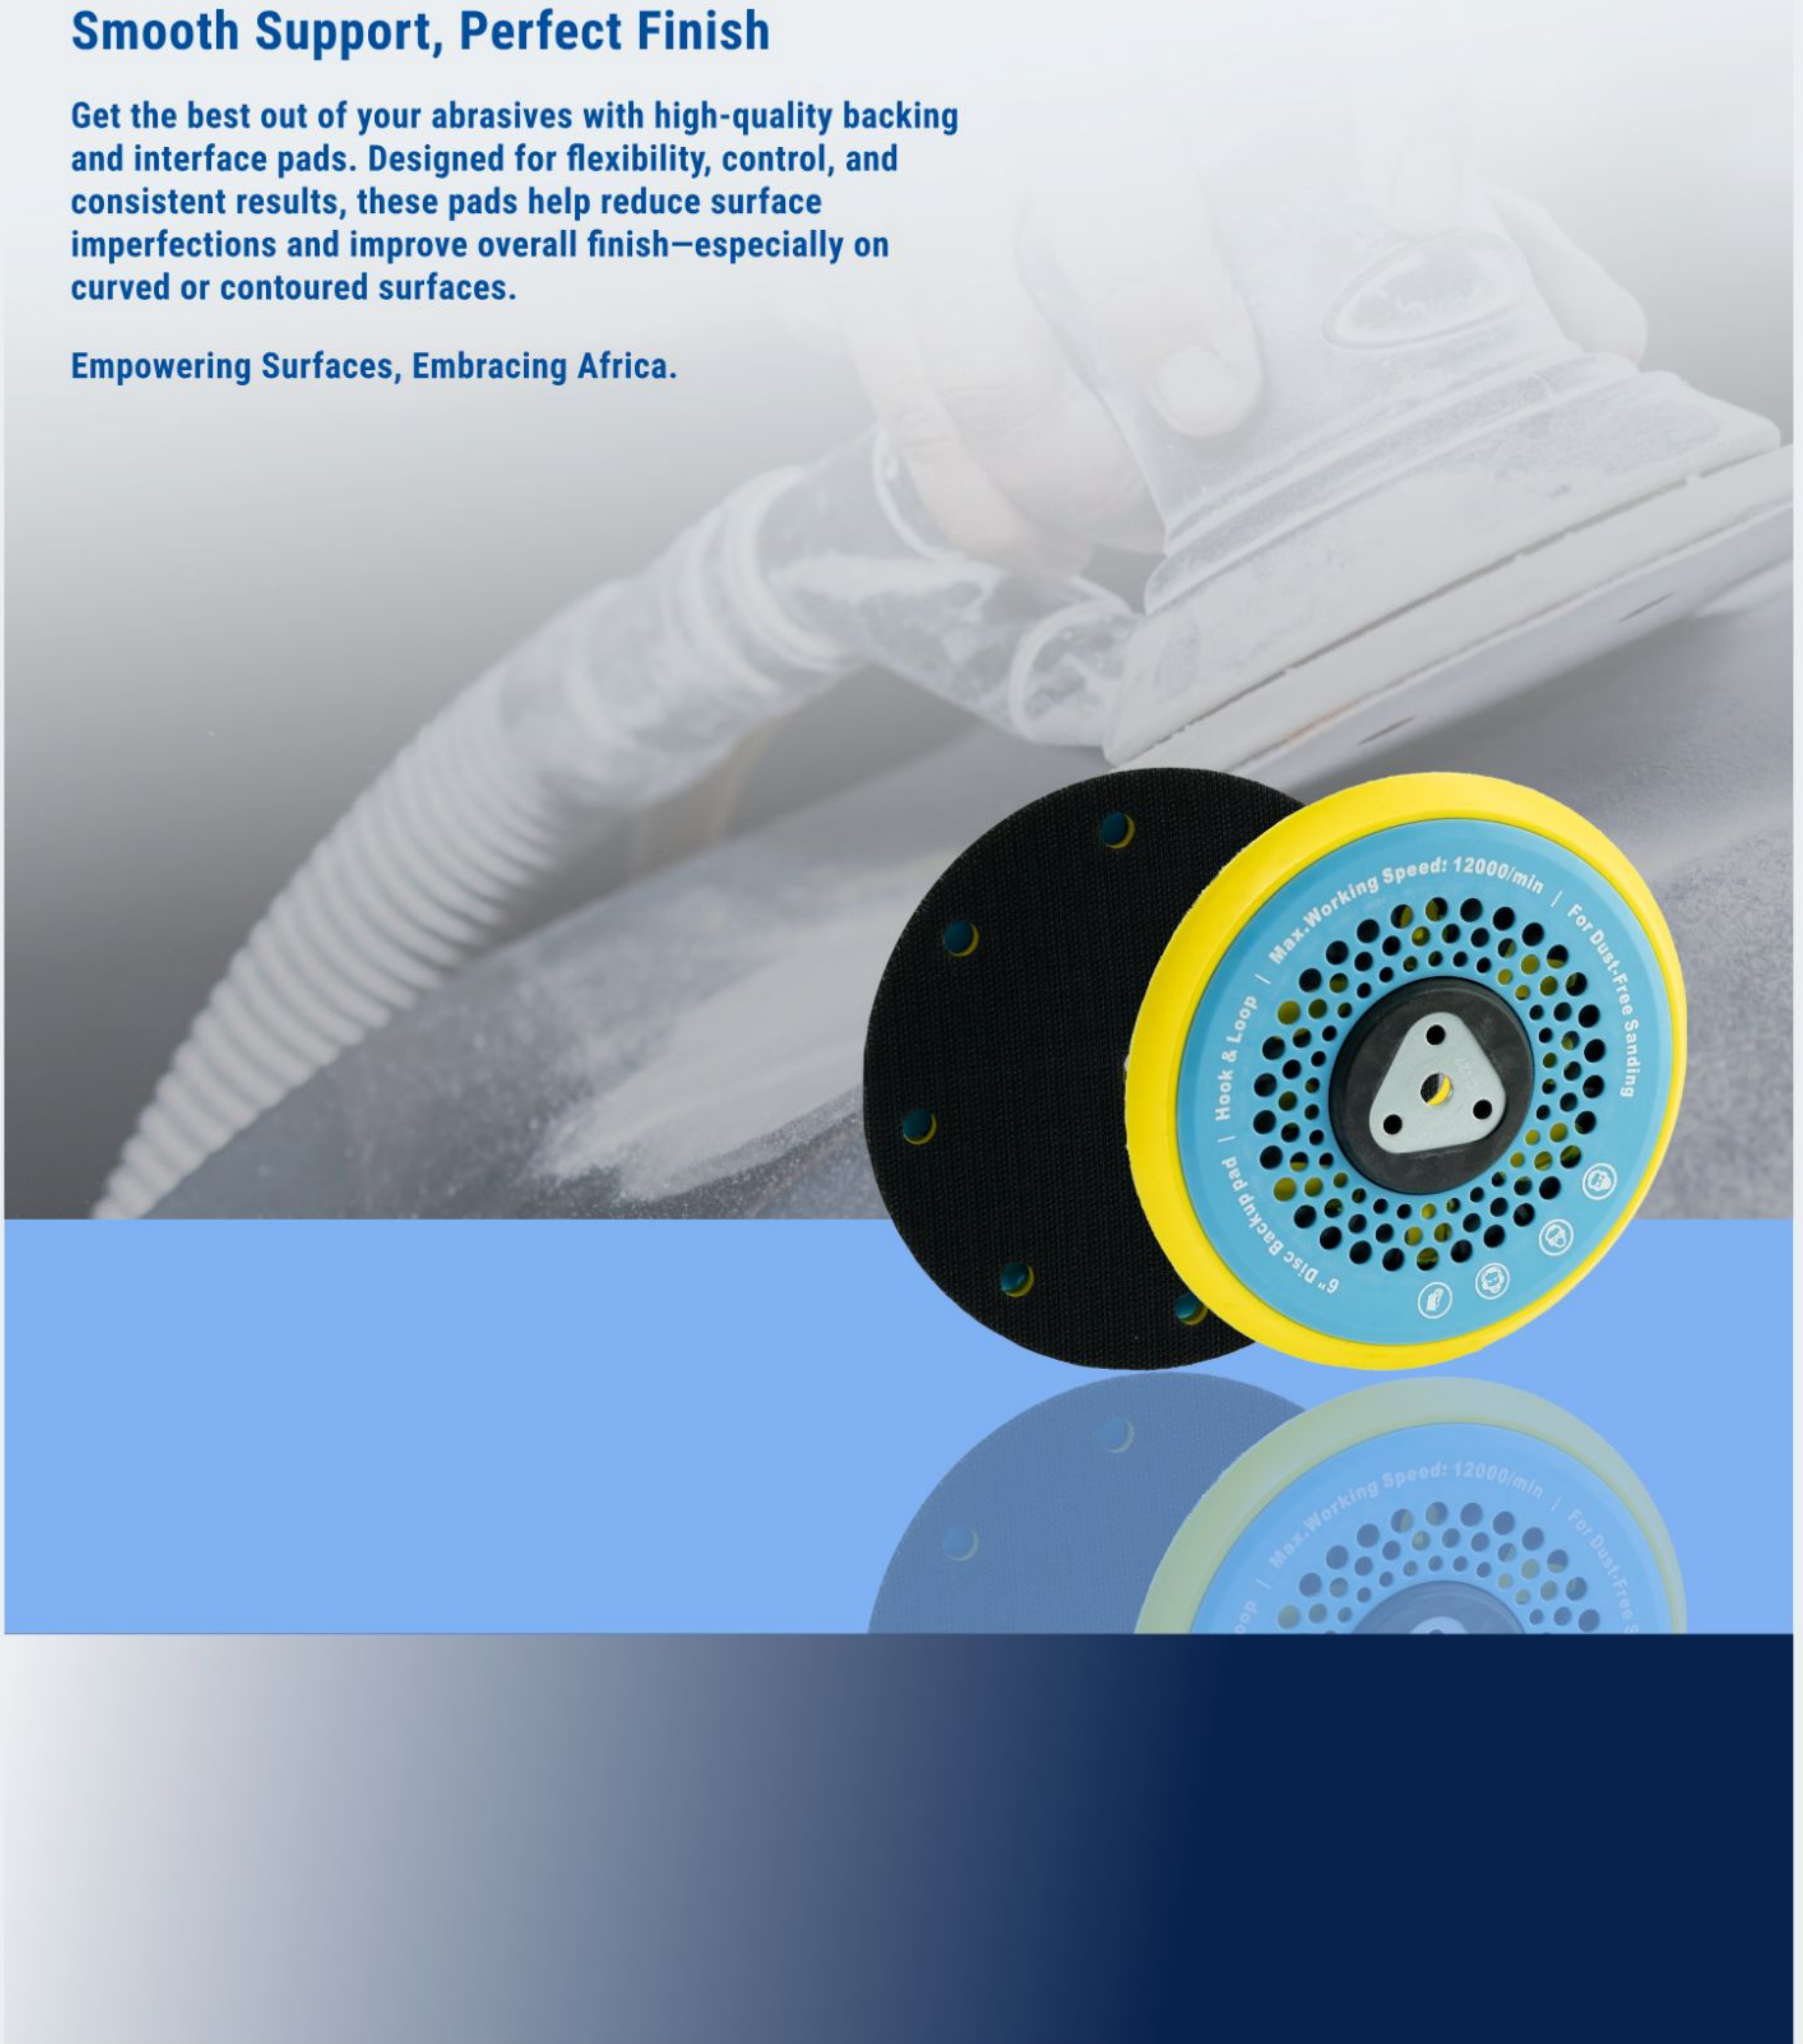

KAPATAL

BACKING PADS AND INTERFACE PADS

Smooth Support, Perfect Finish

Get the best out of your abrasives with high-quality backing and interface pads. Designed for flexibility, control, and consistent results, these pads help reduce surface imperfections and improve overall finish—especially on curved or contoured surfaces.

Empowering Surfaces, Embracing Africa.

BACKING PLATES

6 Inch 6 Holes Backing Plate (Velcro)

Dual Actional Sander Backing Pads:

- **Low Profile**
- **PUR Molded**
- **Medium density**

Good balance between performance and cost pad with fixed 5/16"-24 bolt.

Product code: 21160-2

6 Inch 53 Holes Backing Plate Velcro

A professional Gray Backing Pad designed for 150mm (6 Inch) disc with 53 holes dust extraction.

Multi-hole ensures **maximum** dust removal.

Hook and loop system allows quick and secure attachment.

Product code: 21660-2

6 Inch Backing Pad M1 (Velcro)

Middle profile Backing Pads For General Polishing Job- PUR Molded, high flexibility and durability.

Available Densities:

- **Soft (White PUR) (No holes)**
- **Hard (Yellow PUR) (No holes)**

Product code: 16360-22

6 Inch 8+1 Holes Backing Plate (Velcro)

Innovative Universal Sanding Pad- Creative dust cover design, Universal hole pattern, Available with medium and soft density, Pad is well balanced for smooth sanding, Fixed-bolt or changeable-bolt version fits most sanders.

- **Festool**
- **Rupes**
- **Smirdex**

Product codes: 23862-021

6 Inch 6 Holes Backing Plate (Velcro)

The Backing pad is the key component for building a non-vibration air sander. This range of backing pads with guaranteed

- **Vibration-free**
- **Precise weight**
- **High durability**

Product code: 23160-2

6 Inch 8+1 Holes Backing Plate (Velcro)

The flat face is the most popular version for experienced operators. It is highly efficient for

- Cutting
- Polishing

Product code: 23862-121

6 Inch 53 Holes Backing Plate (Velcro)

Innovative Universal Sanding Pad- Creative dust cover design, Universal hole pattern, Available with medium and soft density, Pad is well balanced for smooth sanding, Fixed-bolt or changeable-bolt version fits sanders.

- Festool
- Rupes
- Smirdex

Product code: 23868-021

6 Inch Backing Plate (Velcro)

Middle profile Backing Pads For General Polishing Job- PUR Molded, high flexibility and durability. Available Densities:

- Soft (White PUR)
- Medium (Yellow PUR)

Product code: 14260-22

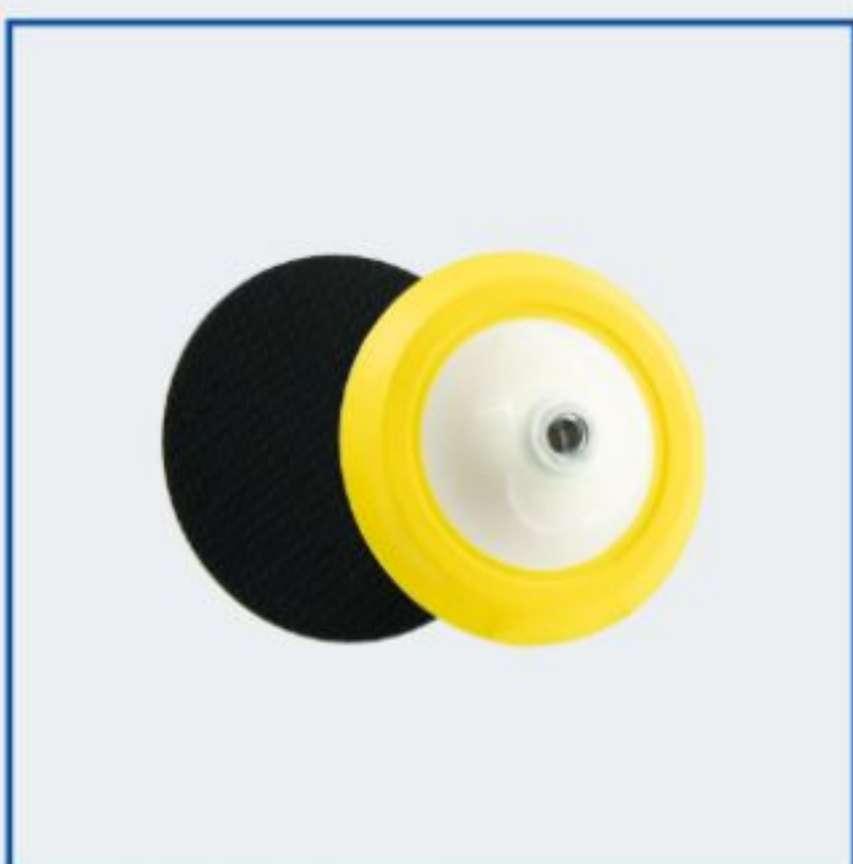

6 Inch 6 Holes Backing Plate (Velcro)

Dual Action Sander Backing Pads:

- Middle Profile
- Bevel Edge
- PUR Molded
- Soft density

Ideal for colour sanding pad with fixed 5/16"-24 bplt

Product code: 22060-2

6 Inch Backing Plate M1 (Velcro)

Middle profile Backing Pads For General Polishing Job- PUR Molded, high flexibility and durability. Available Densities:

- Soft (White PUR)
- Medium (Yellow PUR)

Product code: 16060-22

5 Inch Backing Plate

Plastic injected Backing Plate - Work with high-speed right angle grinders. Plate built with spiral cooling ribs, built of high impact- resistant material & customized flexibility

(used mainly for resin fibre discs)

Product code: 61050-222

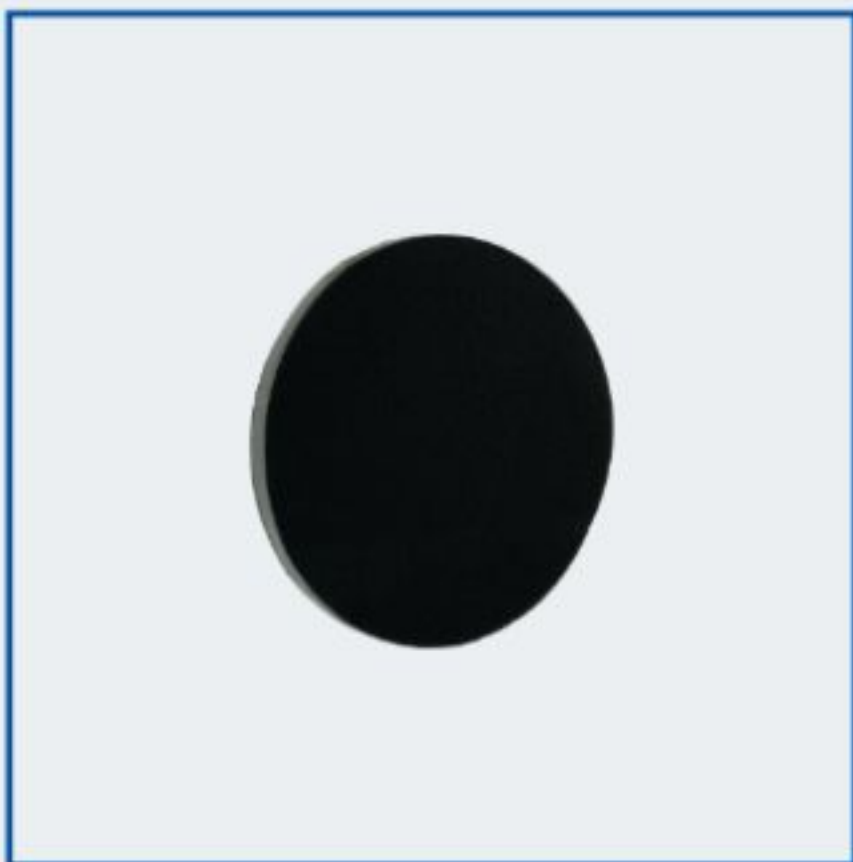

7 Inch Backing Plate

Plastic injected Backing Plate - Work with high-speed right angle grinders. Plate built with spiral cooling ribs, built of high impact- resistant material & customized flexibility

(used mainly for resin fibre discs)

Product code: 61070-222

INTERFACE PADS

6 Inch Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- **No Holes**
- **10mm thick**

Product code: 72200

6 Inch Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- **6 Hole**
- **10mm thick**

Product code: 72205

6 Inch Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- **11 Hole**
- **Centre Hole**
- **10mm thick**

Product code: 72201

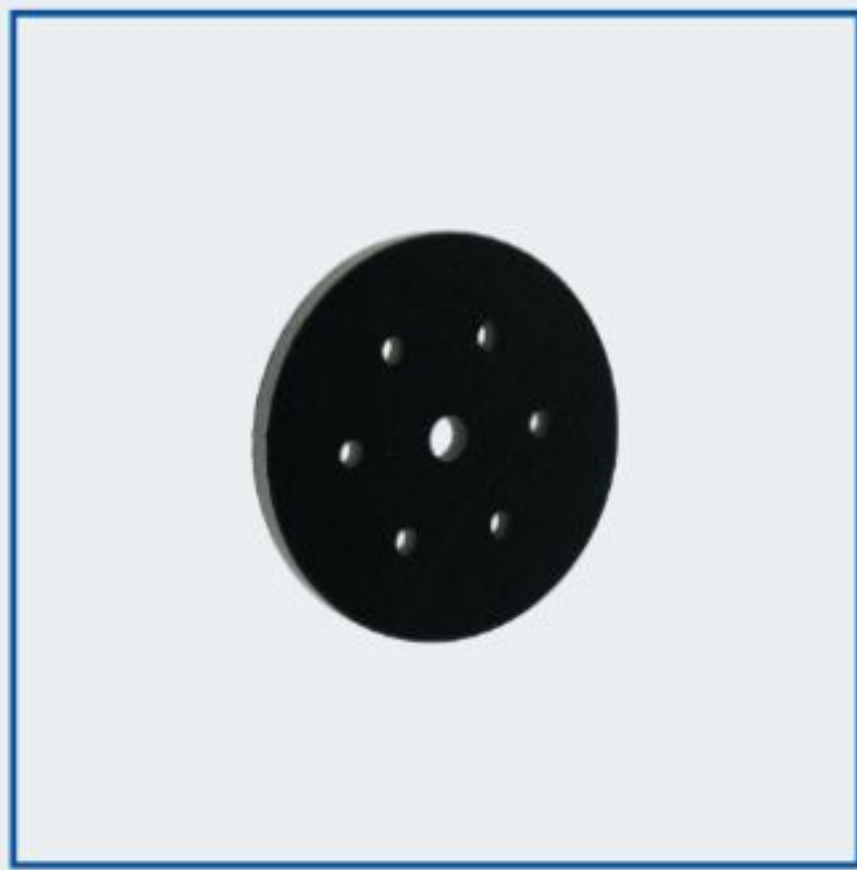

6 Inch Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- 13 Holes
- Centre Hole
- 10mm thick

Product code: 72202

6 Inch Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- 6 Holes
- Centre Hole
- 10mm thick

Product code: 72204

6 Inch Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- 8 Hole
- Centre Hole
- 10mm thick

Product code: 72207

6 Inch Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- 8 Holes with 6 dust extraction slots
- Centre Hole
- 10mm thick

Product code: 72208

6" Interface Pad

Flexible interface pad is designed to fit between the sanding disc and backing pad. Helps to contour the curves and irregular surfaces reducing sanding matrix and improves finishing quality. Ideal for fine sanding and blending

- 16 Holes
- Centre Hole
- 10mm thick

Product code: 72209

MOPS AND PADS

Cobra Professional Mops

The Cobra Professional Mops for Industrial paint are high-quality, durable mops designed specifically for efficient and effective application of paint in industrial settings.

Empowering Surfaces, Embracing Africa.

6 Inch Double Side Wool Mop

Each Strand of high grade wool fibre is tightly twisted, allowing the mop to stay at consistent level of aggression for longer periods of operation.

- **Single side**
- **Heavy Cut**

Product code: 45060-42

7 Inch Double Side Wool Mop

Each Strand of high grade wool fibre is tightly twisted, allowing the mop to stay at consistent level of aggression for longer periods of operation.

- **Double side**
- **Heavy Cut**

Product code: 46070-42

7 Inch Single Side Wool Mop

Each Strand of high grade wool fibre is tightly twisted, allowing the mop to stay at consistent level of aggression for longer periods of operation.

- **Single side**
- **Medium Cut**

Product code: 45080-13

8 Inch Double Side Wool Mop

A fiber combination for light compounding, comprised of single ply untwisted wool & acrylic blend. Allows the operator to accomplish a range of light compounding to heavier polishing tasks.

- **Double side**
- **Medium Cut**

Product code: 46080-13

5 Inch Single Side Wool Mop

Each Strand of high grade wool fibre is tightly twisted, allowing the mop to stay at consistent level of aggression for longer periods of operation.

- **Single side**
- **Heavy Cut**

Product code: 45050-42

7 Inch Single Side Wool Mop

A fiber combination for light compounding, comprised of single ply untwisted wool & acrylic blend. Allows the operator to accomplish a range of light compounding to heavier polishing tasks.

- **Single side**
- **Medium Cut**

Product code: 45080-11

7 Inch Single Side Wool Mop

Each Strand of high grade wool fibre is tightly twisted, allowing the mop to stay at consistent level of aggression for longer periods of operation.

- **Single side**
- **Medium Cut**

Product code: 45080-42

8 Inch Double Side Wool Mop

A fiber combination for light compounding, comprised of single ply untwisted wool & acrylic blend. Allows the operator to accomplish a range of light compounding to heavier polishing tasks.

- **Double side**
- **Heavy Cut**

Product code: 46080-11

8 Inch Double Side Wool Mop

Each Strand of high grade wool fibre is tightly twisted, allowing the mop to stay at consistent level of aggression for longer periods of operation.

- **Double side**
- **Heavy Cut**

Product code: 46080-42

7 Inch Single Side Wool Mop White

A fiber combination for light compounding, comprised of single ply untwisted wool & acrylic blend. Allows the operator to accomplish a range of light compounding to heavier polishing tasks.

- **Single side**
- **Medium Cut**

Product code: 46070-11

6 Inch Wool Mop

This wool pad is used for polishing but provides stronger cutting power than a normal foam pad.

Wool pad can quickly be removed and is suitable for dealing with **deep scratches** and **severe paint surface defects**.

- **Single side**
- **Heavy Cut**

Product code: W0735

9 Inch Diamond Foam Pad Yellow

Foam polishing pad with a diamond cut surface pattern is designed to reduce heat build up, whole polishing evenly and improve cutting and finishing performance.

The diamond pattern channel compound crosses the surfaces for faster and more consistent results on all paint surfaces.

- **High Performance**

Product code: 34079-1

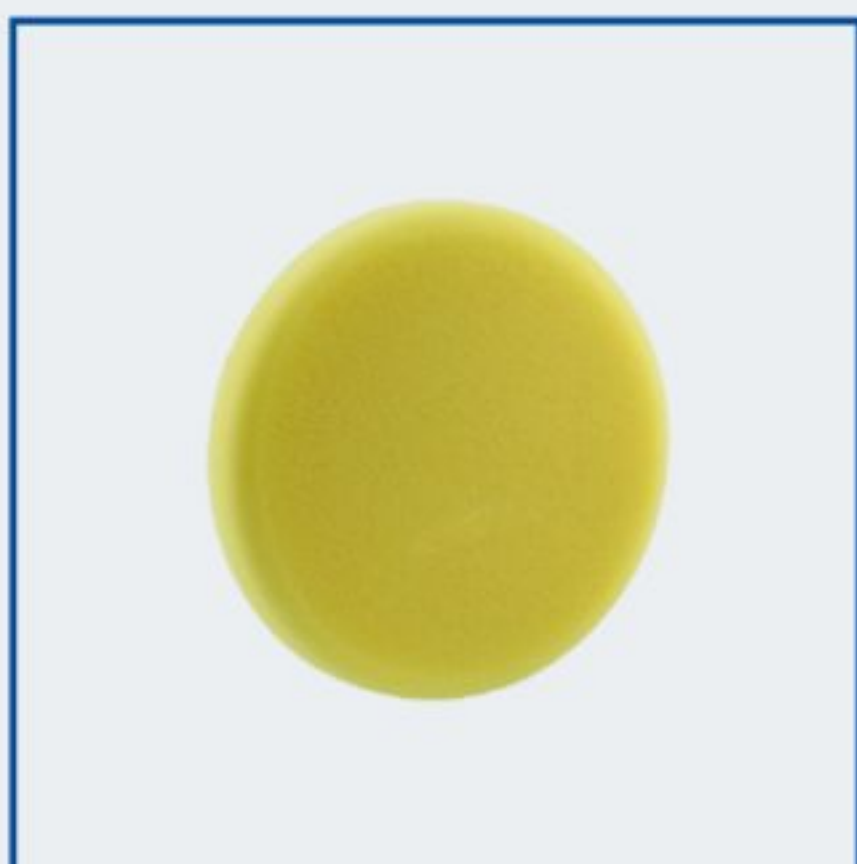

9 Inch Flat Foam Pad Yellow

Smooth flat foam polishing pad designed for even contact with the surface delivering consistent cut and finish, ideal for compound polishes and wax on all types of paint.

- **High Cut**

Product code: 34059-1

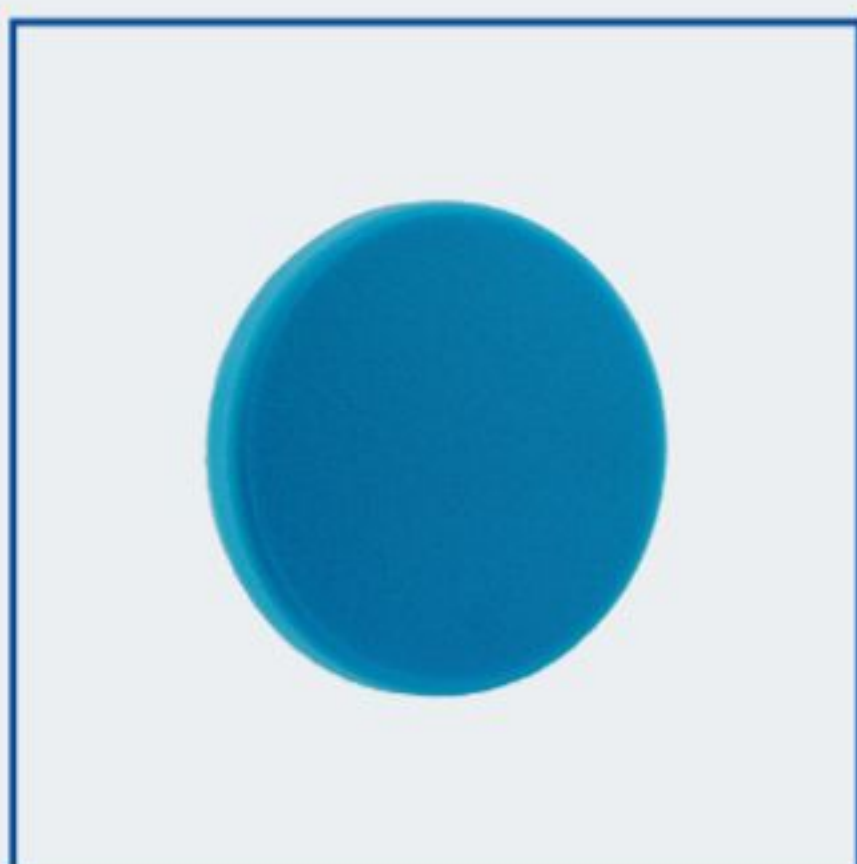

7 Inch Flat Foam Pad Yellow

Smooth flat foam polishing pad designed for even contact with the surface delivering consistent cut and finish, ideal for compound polishes and wax on all types of paint.

- **High Cut**

Product code: 3402710

7 Inch Foam Flat Pad Blue

Smooth flat foam pad design for maximum surface contact and fast cutting action.

Ideal for quickly removing oxidization ,scratches and heavy swirl marks while delivering a consistent, even finish on all paint types.

- **Fast cut**

Product code: 3402760

7 Inch Foam Flat Pad Grey

Smooth flat foam polishing pad designed for maximum contact offering, both fast cutting and fine finishing, quickly removes oxidization, scratches and swirl marks when delivering a smooth, high gloss on all types of paint.

- **Finishing**

Product code: 3402730

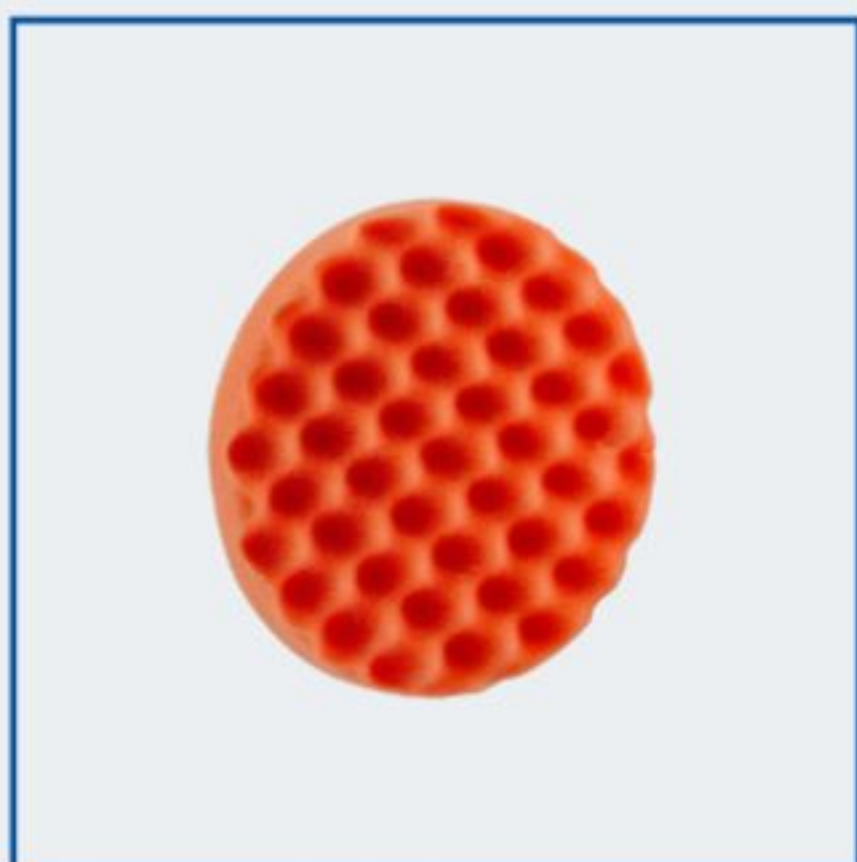

7 Inch Foam Flat Pad Orange

Smooth flat foam polishing pad designed for maximum contact offering, both fast cutting and fine finishing, quickly removes oxidization, scratches and swirl marks when delivering a smooth, medium cut and polishing on all types of paint.

- **Medium cut**

Product code: 34059-4

6 Inch Foam Waffle Pad Orange

Foam polishing pad with a waffle surface is designed to improve air flow and reduce heat build-up. Formula removes light to moderate defects and swirl marks leaving a smooth finish on all types of pain.

- **Medium cut**

Product code: 3407740

9 Inch Diamond Foam Pad Blue

Foam polishing pad with a diamond cut surface pattern is designed to reduce heat build up, whole polishing evenly and improve cutting and finishing performance. The diamond pattern channel compound crosses the surfaces for faster and more consistent results on all paint surfaces.

- **Fast cut**

Product code: 34079-6

7 Inch Diamond Foam Pad Grey

The foam pad face is divided into many independent pieces by the diamond pattern, it speeds up the air flow between the foam pad & the painted surface & has high cutting efficiency like a flat face pad. Designed for final stages work and to enhance the gloss.

- **Finishing**

Product code: 3408730

9 Inch Diamond Foam Pad Grey

A high-quality polishing mop designed with a unique diamond-cut shape for superior control and even pressure distribution. Ideal for final finishing stages, this mop delivers a smooth, swirl-free surface with excellent clarity and shine. Suitable for use with fine polishing compounds, it ensures consistent results on automotive paints, clear coats and other high-gloss surfaces.

- **Finishing**

Product code: 34079-3

9 Inch Flat Foam Pad Grey

Specially designed for recessed cutting and finishing, this grey diamond-shaped mop reaches difficult areas while delivering a smooth, high-quality finish. Ideal for use with fine compounds to achieve consistent results on automotive paints and clear coats.

- **Finishing**

Product code: 34059-3

9 Inch Diamond Foam Pad Orange

Durable diamond-shaped mop in orange, designed for recessed polishing and finishing work. Provides excellent control in hard-to-reach areas while ensuring a smooth, consistent surface finish.

- **Medium cut**

Product code: 34079-4

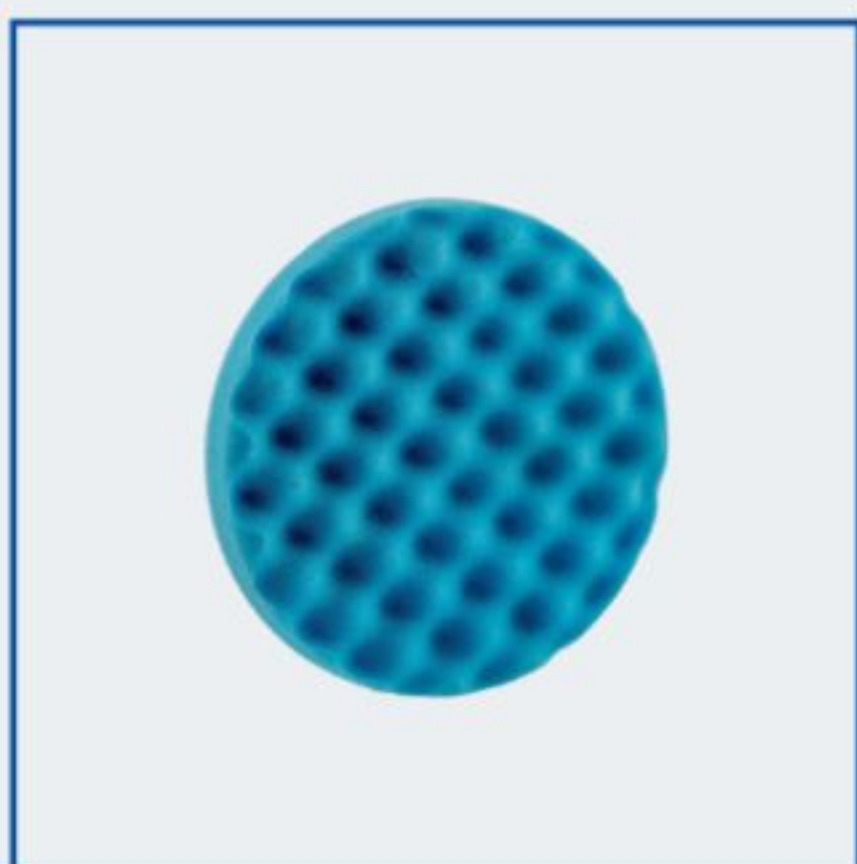

7 Inch Flat Foam Pad Orange

High-performance orange foam pad designed for medium cutting and polishing applications. Ideal for removing light scratches, oxidation, and swirl marks while refining the surface to a smooth, glossy finish. Suitable for use with medium-cut compounds on automotive paints and clear coats.

- **Medium cut**

Product code: 3402740

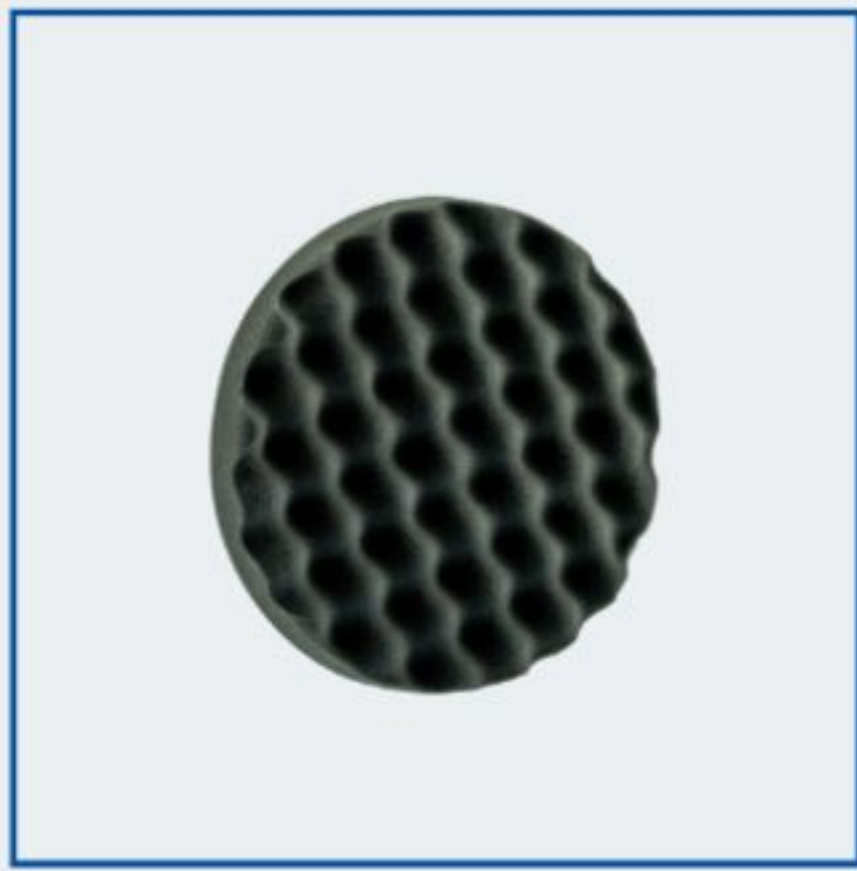

7 Inch Waffle Foam Pad Blue

A heavy duty waffle foam mop designed for fast cutting action. The waffle surface reduces heat build-up, allowing aggressive removal of sanding marks, oxidation, and deeper scratches while maintaining control and surface safety. Perfect for use with fast-cutting compounds on automotive paints and clear coats.

- **Fast cut**

Product code: 3407760

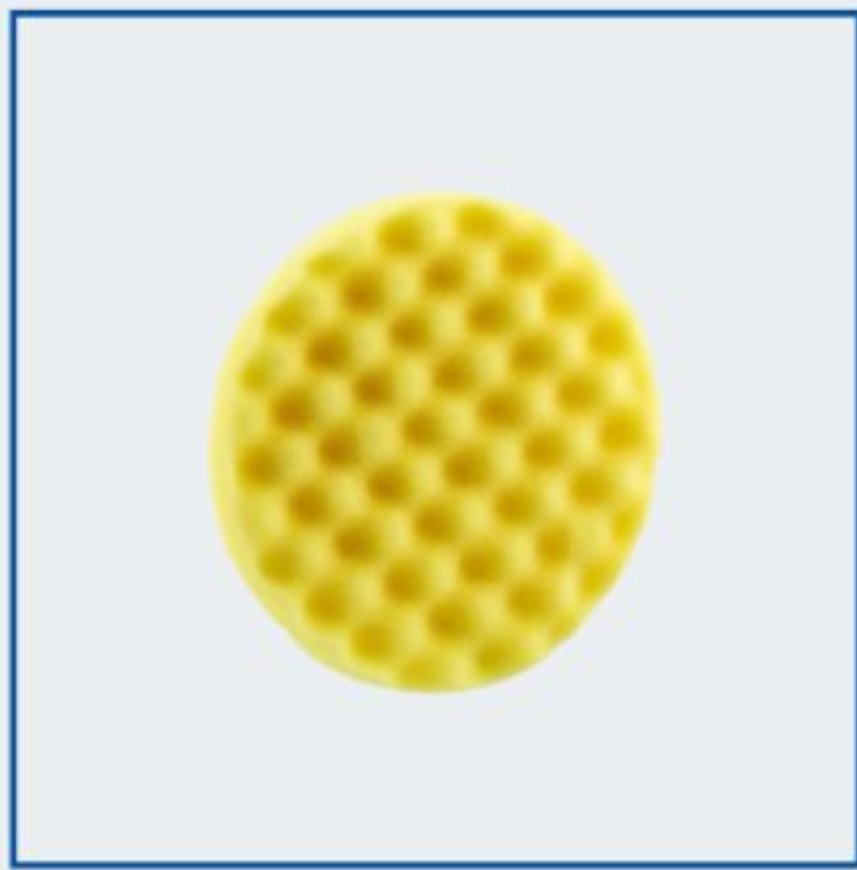

7 Inch Waffle Foam Pad Grey

A soft waffle foam mop designed for the final finishing stage. The waffle pattern minimizes heat build-up and ensures smooth handling, delivering a flawless, high gloss finish while effectively removing the haze and polishing marks on automotive paints and clear coats.

- **Finishing**

Product code: 3407730

7 Inch Waffle Foam Pad Yellow

A firm yellow waffle foam mop designed for high cutting performance. The waffle pattern reduces heat and provides smooth handling while aggressively removing heavy scratches, sanding marks, and oxidation. Ideal for use with high-cut compounds to restore surfaces quickly and prepare them for polishing.

- **High cut**

Product code: 3407710

9 Inch Flat Foam Pad Blue

A firm blue flat foam mop engineered for fast cutting applications. Its flat surface ensures maximum contact with the panel, allowing efficient removal of heavy scratches, sanding marks, and oxidation. Ideal for use with fast-cut compounds to achieve a smooth, even surface in preparation for polishing.

- **Fast cut**

Product code: 34059-6

6 Inch Cobra Mop Orange

High quality polishing mop designed for paint, metal or composite surfaces to achieve a high gloss, ideal for use with polishing compounds to remove fine scratches and oxidation. Leaving a smooth mirror like finish.

- **Medium cut**

Product code: M0P001

6 Inch Cobra Honey Cone Mop Yellow

High quality polishing mop designed for paint, metal or composite surfaces to achieve a high gloss, ideal for use with polishing compounds to remove fine scratches and oxidation. Leaving a smooth mirror like finish.

- **Medium cut**

Product code: MOPY01

6 Inch Cobra Mop Blue

High quality polishing mop designed for paint, metal or composite surfaces to achieve a high gloss, ideal for use with polishing compounds to remove fine scratches and oxidation. Leaving a smooth mirror like finish.

- **Fast cut**

Product code: 3414662

6 Inch Cobra Mop Grey

High quality polishing mop designed for paint, metal or composite surfaces to achieve a high gloss, ideal for use with polishing compounds to remove fine scratches and oxidation. Leaving a smooth mirror like finish.

- **Finishing**

Product code: MOPB01

6 Inch Cobra Mop Grey

High quality polishing mop designed for paint, metal or composite surfaces to achieve a high gloss, ideal for use with polishing compounds to remove fine scratches and oxidation. Leaving a smooth mirror like finish.

- **Finishing**

Product code: 3414632

6 Inch Cobra Mop Orange

High quality polishing mop designed for paint, metal or composite surfaces to achieve a high gloss, ideal for use with polishing compounds to remove fine scratches and oxidation. Leaving a smooth mirror like finish.

- **Medium cut**

Product code: 3414642

6 Inch Cobra Mop Yellow

High quality polishing mop designed for paint, metal or composite surfaces to achieve a high gloss, ideal for use with polishing compounds to remove fine scratches and oxidation. Leaving a smooth mirror like finish.

- **High cut**

Product code: 3414612

KAPATAL IMPORTED EQUIPMENT

Smirdex 960 Backing Pads

The 960 Professional Backing Pads, with an efficiently designed airflow channel for improved dust extraction and decreased dust accumulation on the disc, offer a wide range of compatibility with versions of 150mm multi-hole discs.

Empowering Surfaces, Embracing Africa.

PREMIUM RANGE

Smirdex 965 Series Pneumatic Orbital Sander

This air tool is designed by Smirdex to offer supreme ergonomic and comfort to professionals combining outstanding performance and supporting the sanding perfection.

Product code: 965750025 (2.5MM)
Product code: 965750050 (5MM)

MP Electric Orbital Sander

3-1 electric sander designed for central vacuum and non vacuum. New muffing system reduces tool sound level, this includes a hose and dust collection bag.

Product code: 572061025 (2.5MM)
Product code: 572061050 (5MM)

MP Pneumatic Orbital Sander

3-1 sander designed for central vacuum and non vacuum. New muffing system reduces tool sound level, this includes a hose and dust collection bag.

Product code: 572021025 (2.5MM)
Product code: 572021050 (5MM)

MP Industrie-Staubsauger Basic Set-L

The MP Industrie-Staubsauger Basic Set-L is a heavy-duty industrial vacuum cleaner engineered for demanding cleaning tasks in

- workshops/body shops/construction sites/industrial environments.

With powerful suction performance and robust construction, this vacuum is ideal for safely and efficiently removing dust, dirt, sanding residue, and other debris.

Product code: 572062300

MP Anti-Static Dust Gun

The Ionisierungspistole is a specialized ionising air gun designed to neutralize static charges and **remove dust particles from surfaces prior to painting or coating.**

It is an essential tool in professional body shops and industrial environments, ensuring flawless paint finishes by preventing **static-related contamination.**

Product code: 58307 0001

MISCELLANEOUS

The Extras That Make the Job Easier

From masking plastic to paint strainers and tack rags, these essential extras help keep your workflow smooth and your results professional. It's the small things that make a big difference.

Empowering Surfaces, Embracing Africa.

Brush Cleaning Set

A simple practical set of brushes designed to clean spray guns. There components are quality and work effectively. Keeping **nozzles** and **needles** clean to have consistent spraying.

Product code: PM-57621

Cobra Tack Rags White

Sticky cloths designed to remove dust and fine particles from surfaces before spraying and also to insure a clean, smooth finish.

Product code: TACKRAG01

Hose & Adaptor Kit

Complete kit with flexible hose and adaptors to connect sanders to dust extraction systems to keep area dust free.

- **Dust Bags (Optional)**

Product code: 73003K

Measuring Sticks

Durable mixing sticks used to accurately measure and mix paint with hardener and thinners, to ensure correct ratio for consistent results.

- **(2-1 Two parts of paint/clear with one part of hardener)**
- **(4-1 Four parts of primer with one part of hardener)**

Product code: MSP35

Swivel Connection

Rotating for fitting spray guns to allow free movement of the air hose reducing twisting and improving spray comfort.

- **10mm**

Product code: SWC001

Washing & Waxing Sponges

Soft durable sponges designed for washing and waxing vehicles, providing gentle cleaning without scratching the surfaces.

- Size 135mm x 80mm Orange
- Size 135mm x 80mm Black
- Size 120mm x 60mm Yellow

Product code: 71335K3

Air Blower Nozzle

Hand held nozzle for directing compressed air to clean **dust, dirt** and **debris** from surfaces and hard areas to reach. Excellent for water based paint.

Can also be used to clean other areas.

Product code: SARAJ02

Cobra Masking Plastic

Protective masking plastic sheeting is used to cover surfaces during painting preventing over-spray and keeping areas clean. Suitable for:

- Automotive
- Commercial
- Industrial

Product code: MASKINGPLASTIC01 (Size 150Mx4M)

Masking Plastic Stand

Metal stand for holding and dispensing masking plastic sheets allowing easy, tangle free application during paint preparation.

Can be used:

- 150M x 4M rolls
- 300M x 4M rolls

Product code: SAR13

Polishing Cloth (Yellow)

Soft , lint free cloth for polishing and buffing surfaces to a smooth, streak free shine.

Suitable for:

- New paint work
- Glass
- Chrome

Product code: GAN-PC (40CM x 40CM)

Metal Spray Cards

Durable metal cards for testing and displaying spray out colours insuring accurate colour matching before application.

- White background with black line
- Gray background with a black line

Product code: SAEMS

Mixing Stick Plastic

Light weight, economical plastic stick for mixing. Designed for single use or limited use.

- Paint
- Hardener
- Clear
- Solvent

Product code: MSW17 (25CM)

Paint Strainers 125

High quality disposable paint strainers that remove dust, dirt and other impurities from paint, primers and clearcoats before spraying ensuring a smooth and professional finish.

Suitable for solvent and water based paint (125 micron filter mesh for fine filtration)

- Basecoats
- Clearcoats
- Paints

Product code: PS125

Paint Strainers 190

High quality disposable paint strainers that remove dust, dirt and other impurities from paint, primers and clearcoats before spraying ensuring a smooth and professional finish.

Suitable for solvent and water based paint (190 micron filter mesh for fine filtration)

- Basecoats
- Primers
- Paints

Product code: PS190

Plastic Applicator

Flexible, reusable applicators made from soft plastic rubber, for smooth and even application of body fillers, putties and sealants. Designed to reduce drag marks and minimize waste. Easy to clean, long lasting for repeated use (different sizes)

Product code: SARPD6 (11CM x 6CM)

Plastic Car Cover

Durable light weight plastic car covers , designed to protect vehicles from

- **Dust**
- **Over spray**
- **Workshop debris**

Fitted with an elastic hem for secure, snug fit around the base of the car.

Product code: SARCC

Plastic Paint Strainer

Reusable plastic paint strainer, designed to remove dust, debris from paints, primers and clearcoats, before application. Durable mesh inserted provides consistent filtration, ensuring a smooth clean finish. Easy to clean and suitable for

- **Water based**
- **Solvent paint**

Product code: GFC

Plastic Pump Bottle

Refillable pump bottle for dispensing clean solutions degreases and other workshop liquids provides controlled and easy application and reduces waste, ideal for everyday use:

- **Automotive**
- **Commercial**
- **Industrial**

Product code: GAN-1.8 LT

Single Filter Regulator

Compact air filter regulator designed to remove moisture, oil and debris from compressed air lines while allowing **precise pressure control**. Ensures a clean consistent air flow for optimal spray gun performance and professional finish.

Product code: SAR100

Spraygun Filters

Fine mesh spray gun filter, designed to fit inside suction feed cups, prevents dirt, dried paint and other contaminants from entering the gun. Ensuring a smooth clog free spray gun pattern.

Easy to fit and replace for consistent paint quality.

Product code: GF8 (Suction Feed Single)

Product code: ITA10TPS (Gravity Feed Pack of 10)
