

Solving healthcare problems One happy baby at a time

Eve is a digital maternity platform designed to support any part of a child's journey from conception to the age of 5.

Why Eve ?

-  A Clinical Portal for the hospital and an App for the Mums
-  Enabler for the first 2,000 days strategy
-  Reduce loneliness by creating a community of pregnant women around your maternity service
-  Automate your Child Birth Education program using a library of text, image and video based content
-  Communicate with your mums to reduce complications
-  Empower your mums with health tracking tools for the antenatal and postnatal period
-  Manage, schedule and deliver online and live Educational Classes
-  Support for perinatal loss
-  Two way integration to other hospital systems like EMR, Appointments, Active Directory and others
-  Support for other cultures and languages
