CONSERVATORY ROOF SOLUTIONS

Rated Excellent
on Trustpilot

Big Enough to Cope, Small Enough to Care

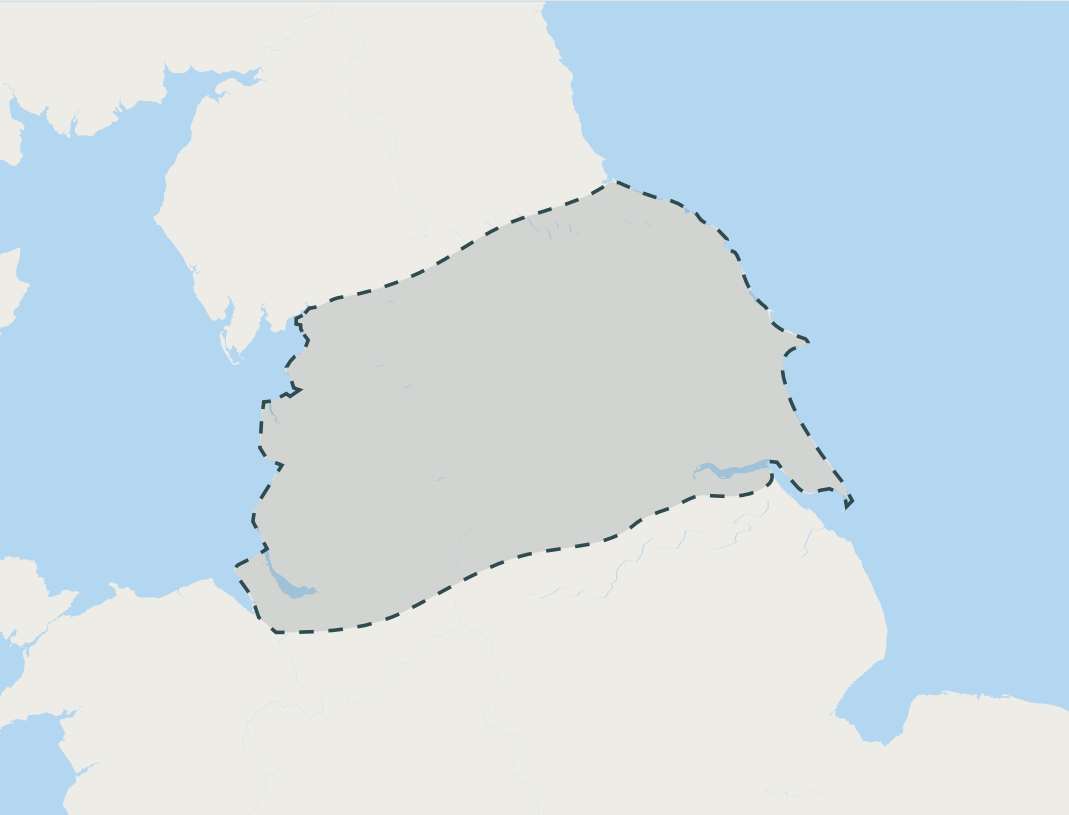

At Sagars365, we are a proud family-run business based in Yorkshire with over 12 years of experience transforming conservatories into comfortable and energy-efficient spaces across the North of England.

We do not just install insulation systems, we specialise in all aspects of conservatory roof problem solving. It is what we do every single day. Unlike others, we are not middlemen. We design and supply our own trusted materials developed through years of hands-on experience and direct customer feedback. This gives us full control over quality and performance at every stage.

We NEVER use subcontract tradesmen. Every installation is carried out by our own skilled in-house professionals who are fully trained and committed to doing the job right the first time.

With Sagars365, there is no stress, no risk and no unexpected costs. We do not take deposits, we do not charge hidden fees and we only send an invoice when the work is complete and you are completely satisfied.

Our reputation is built on honesty, craftsmanship and outstanding customer care. It is what sets us apart and it is why our customers recommend us time and again.

GET THE
PERFORMANCE AND
FINISH OF A NEW
ROOF – WITHOUT THE
NECESSITY OF A FULL
REBUILD

THE PERFECT BALANCE OF INSULATION, APPEARANCE AND VALUE

EcoTile365 - Lightweight Option

If your conservatory roof is tired, noisy, or inefficient, but you don't want the cost or disruption of a full structural replacement, EcoTile365 is the smart alternative.

Our lightweight insulated roof system is designed to overlay or replace the visible part of your conservatory roof without the necessity of rebuilding the full structure underneath. This means you get a fresh external appearance, improved insulation, and an interior ceiling finish, all in one streamlined installation.

0.25 U-value gives
excellent thermal
performance

Lower cost than
a full rebuild

Ideal for most existing
conservatories without
requiring reinforcement

New fascias and guttering
included as standard

Lightweight design means
faster installation with less
structural work

Minimal disruption
compared to full structural
replacement

25 year manufacturer
guarantee

SMARTER UPGRADES, LESS DISRUPTION

When a Complete New Roof Structure is Unnecessary

If your existing conservatory frame or base is in poor condition, or you want the absolute best in performance and flexibility (such as vaulted ceilings, larger rooflights or full roof shape redesign), then a full Sagars roof replacement may be the right choice.

But if your structure is sound and you want a great-looking, energy-efficient upgrade with faster turnaround and better value, EcoTile365 is the perfect fit.

TRANSFORM YOUR CONSERVATORY INTO A REAL ROOM – FROM THE INSIDE OUT

The Sagars Multifoil 365 Insulated Ceiling

The smart way to your 365 days a year conservatory

Sagars' conservatory ceiling insulation system is perfect for homeowners who want to make their conservatory usable all year round without replacing the entire roof. It's a fast, cost-effective upgrade that delivers comfort, style and energy savings, from the inside.

With high-grade insulation installed directly beneath your existing roof, and finished with a smooth plaster or PVC ceiling, you get the look and feel of a proper room, warm in winter, cool in summer, quiet and glare-free.

Whether you use your conservatory as a dining space, playroom, office or lounge, this upgrade helps you enjoy it every day.

Reasons to Choose Sagars' Ceiling-Only Insulation

Cost-effective – significantly cheaper than a full roof replacement

Fast turnaround – installed in as little as 24 hours

Premium appearance – choose from a plaster finish or white PVC/timber-look

Superb insulation – reduces heat loss, glare and noise

Lighting upgrades – add LED spotlights for a polished finish

Low disruption – no need to remove the existing roof structure

Flexible options – wall plastering available if you want a complete interior finish

IF YOU DON'T WANT THE COST OR DISRUPTION OF A FULL ROOF REPLACEMENT, THIS IS THE IDEAL SOLUTION

Internal Finishing

Our insulation system is custom-fitted to work with every standard conservatory layout – and even bespoke designs. Whether you have a simple lean-to or a more complex configuration, we'll ensure a seamless, high-performance transformation. No matter your conservatory shape or size, our expert team will design a solution that fits perfectly and performs brilliantly all year round.

Warmer in Winter

Retain heat and stay cosy throughout the colder months

Cooler in Summer

Reflects heat to keep your conservatory comfortable in the warmer weather

Up to 90% Less Rain Noise

Enjoy a quieter, more peaceful environment

Lower Energy Bills

Better insulation means improved efficiency and long-term savings

10-Year Guarantee

Quality and durability you can trust

Maintenance Free

No upkeep required, just long-lasting results

Premium Plaster Finish

- ✓ Clean Modern Finish
- ✓ We Can Fit Lighting & LED Lighting
- ✓ Cheaper Than a New Roof
- ✓ No Planning Needed
- ✓ Feels like a True Extension

PVC Finish

- ✓ Most Affordable
- ✓ Completed in One Day
- ✓ Traditional White PVC
- ✓ No Planning Needed
- ✓ Contemporary Tongue & Groove Style

PLASTER FINISH

Premium Look, Improved Comfort – All in as little as 24 Hours

Our conservatory roof insulation system is a fast and effective way to upgrade your existing space. By fitting high-performance insulation and a smooth plastered ceiling beneath your current roof, we help you turn a seasonal room into a warm and stylish extension of your home.

The result is a more comfortable environment, reduced energy loss, and a finish that looks and feels like the rest of your property. Choose from various lighting upgrades, including integrated LED spotlights, pendants, or custom layouts to suit your design style.

This is the ideal option if you're looking for a cost-effective transformation without replacing the full roof, but still want a finish that feels high-quality, practical, and lasting.

“

Conservatory looks brand new.

They arrived on time and did a wonderful job. I found them to be very polite and informative about the product. **It only took them 3 hours from start to finish and left my conservatory clean and tidy.** I can now sit comfortably in the conservatory without getting too hot. After searching the internet, it was a good choice to use a family run firm that gives you that personal touch.

”

“

You'll be going to the right place at Sagars...

The Sagars Team of Specialists took their time to get all the details right, both on and off our home project. **They were polite, professional and tidy throughout,** working with precision in carefully removing and replacing our roof with a modern system design which looks great, inside and out.

”

Create a Welcoming Feel Without the Cost

PVC CEILING

Smart, Simple, Stylish – and Budget Friendly

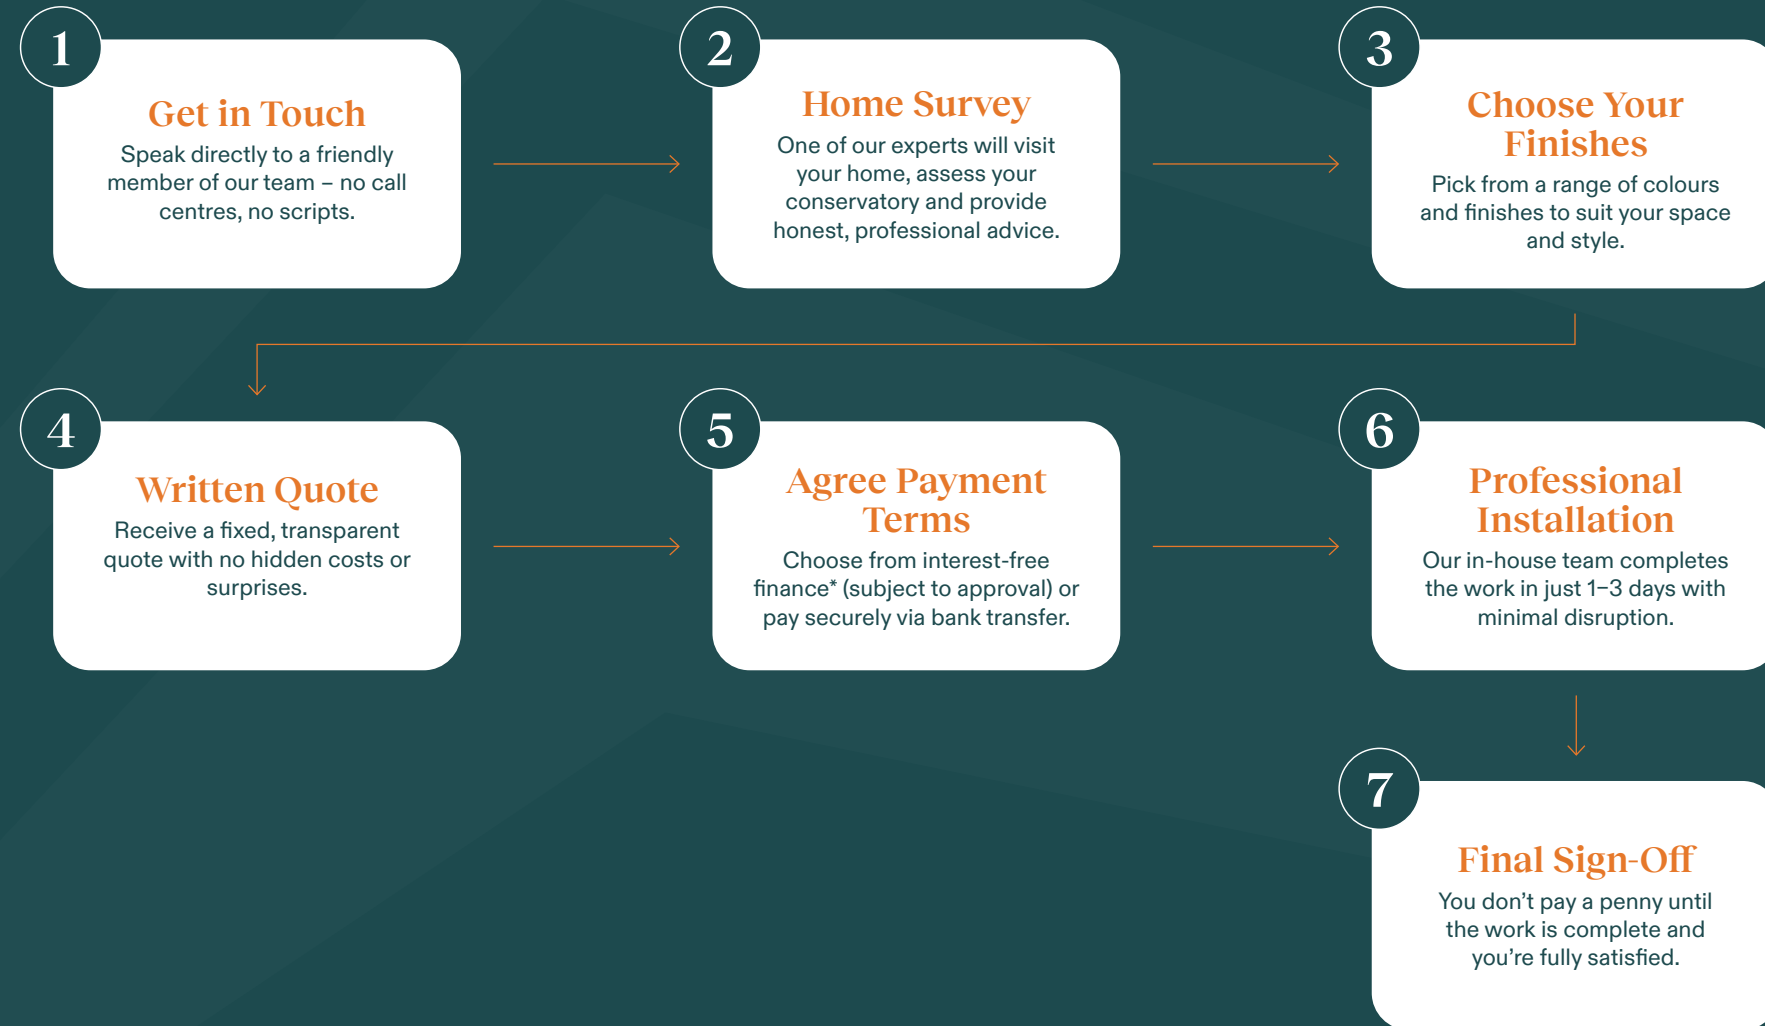

Our PVC ceiling and trim finishes offer a clean, low-maintenance upgrade that transforms your conservatory interior without the expense of plastering. It's the ideal choice if you want a fresh modern look with minimal disruption and a tighter budget.

Available in a traditional white timber-look panel, this solution provides instant brightness and simplicity. For added comfort and ambience, you can integrate LED spotlights or subtle strip lighting, giving you the premium look and feel without stretching your budget.

Durable, easy to clean, and completely moisture-resistant, our PVC ceilings are perfect for busy homes, homeowners or anyone looking for a fast and reliable finish that lasts.

“

It has made such a difference in our conservatory

we can use it as an extra room this winter. The two men who came to install it were very quick and it was done in a matter of hours. They left the area clean and tidy and took all of the rubbish with them. Would highly recommend Sagars 365.

”

“

Really good company to deal with

Really happy with our new roof insulation. Workmen tidy and efficient. The room is now comfortable to use without heating. From start to finish this company was excellent. Would recommend giving them a call.

”

“

Efficient friendly and good service

Left conservatory clean and tidy. The three young men were very polite and did a splendid smart job, the ceiling looks immaculate.

”

“

Professional, cost effective solution to retain heat

From start to finish the guys were professional without any forced sales pitches. The process was fast, efficient and done to the highest of standards.

The install guys and plasterer were all very polite, tidied up leaving no trace and knew the job inside out.

”

“

Installed for 2 weeks so far and is just great

Has been installed for 2 weeks with a mixture of weather - very cold, heavy rain etc. and am amazed at how I can now use the conservatory so much more - really works well. Work was carried out in half a day by a friendly helpful team and the outcome looks just great.

”

“

Excellent Installation & Results

Kept informed re installation - had to be moved back due to weather. Team came & installed on date agreed. Team worked effectively together and were very efficient, cleaned up throughout the job, polite. I was impressed.

A Message from Our Founder

Thank you for considering Sagars365 for your conservatory insulation project.

I'm incredibly proud of the reputation we've built since starting this family business in 2012. Every week, we receive heartfelt messages from happy customers and it means the world to our team. Their dedication and care are the reason we've earned the trust of so many across the North.

If you've already booked your free survey, our local specialist will be on hand to answer any questions. If not, call me directly on 0800 015 3004 and I'll make sure everything is arranged for you without delay.

Thank you again for your interest, we'd be honoured to help you transform your conservatory.
