

# Adopt-An-Org

**Support local agencies fighting human trafficking through 30 days of prayer, learning, and intercession.**

Support agencies serving on the front lines of human trafficking issues locally by joining those across the nation who are taking this 30 day journey to learn about, adopt, and pray for an organization doing work to address issues of human trafficking in their own home towns.

## **Here are the 5 steps:**

**1. Search online for anti-trafficking agencies doing work in your metro-city.**

**2. Scroll websites to learn about what they do and who they are.**

As you do, invite God to guide you in picking just one organization whose work resonates with you the most.

**3. Once you've picked the agency you want to adopt, dive in deeper.**

Read through their website to get clarity on these seven things:

What do they do?

Who do they serve?

What do they hope to accomplish?

Who is the leader?

Who is on staff?

Are there other teams?

What are the agency's needs?

This gathered info will guide your focus over the next 30 days as you pray for that organization's aims, needs, the demographic it serves, for the staff, and teams who steward its work.

**4. Pick your adoption start date, put it on your calendar, and get started.**

Use our 30-Day Prayer Guide as needed.

**5. At the end of the 30 days of prayer, reflect.**

Invite God to use you to become an answer to some of the prayers you prayed, then reach out to make contact with the org and explore possible ways you can help out in practical ways.
