

Meet Atlas—Kathairos' advanced digital platform delivering unparalleled emissions and operational insights

- Real-Time, Empirical Data & Custom Site Notifications
- Optimized Asset Management
- Tailored Stakeholder Reporting

Enhance Operational Visibility & Control

Atlas provides filterable dashboards, asset map views, and exportable, verifiable live and historical data.

Customizable alerts, unit settings, and fuel gas saving calculator indexed to Henry Hub will empower more informed, efficient operations.

Smart Reporting & Alerts

Atlas streamlines emissions tracking with advanced reports, filterable notifications, and customizable email alerts—supporting timely decisions and regulatory compliance.

Site-Level Insights & Usability

Atlas delivers clear site-level visibility with sortable tank-level lists data exports, contact access, and a user-friendly interface—driving smarter, connected operations.
