

1994 USAC MODIFIED SEASON

3rd Racing Season The "Charm" For Frye

"I've nearly lost my voice," said Robby Frye after winning the 1994 USAC Modified Series Championship. Apparently the condition wasn't so much from celebrating as it was from being doused with champagne in the Indianapolis Speedrome pit area and ending up with a cold!

In only his third year of professional racing, Robby claimed his first series title on the strength of two victories, two seconds, five thirds, seven fourths and two fifths in 22 starts. He failed to start only two races all season in his Country Auto Parts/United Auto Parts/Troy Motors Special.

"I quit figure-8 racing the middle of last year," he added. "We ran good enough the last half of 1993 to finish as the series runner-up so we targeted for the championship this season. I never really felt comfortable with the lead, though, until the last month or so."

Frye won the first race he ever drove in, a figure-8 heat race at the Speedrome in 1991. He came back the same night to win the main event!

"I owe a lot to Wayne Arnold, my father-in-law, who built my figure-8 car," he admitted. "My dad, Bill, raced for a dozen years or so and drove in a few USAC races last year too and he's been very helpful. Their support and my wife Suzanne's have made all of this possible."

Robby locked up the title before the end of the campaign and Rodney Cropper, who finished as the series runner-up, never really challenged him in the standings, relying on victories in the last two races to claim the number two slot.

"I want to thank my mechanics, Tommy Gregory, Tom Gregory Sr. and Jerry Cassity and engine builder Fred Embree for keeping my Ellis-built Chevy Cavalier in top shape. Ed Bishop of Troy Motors was also an important part of this championship."
