

1991 USAC SPEEDROME MIDGET SEASON

Hines Repeats as Speedrome Titlist

On September 6, the USAC Speedrome Midget Series was wrapped up at the Indianapolis Speedrome. Actually, Ted Hines already wrapped up the title much as he had in 1990 – decisively.

With seven feature wins (including two on the final night), plus three seconds and two thirds, Hines was able to clinch title number two by finishing sixth a week earlier and topped Michael Lang by a 10,587 to 4,792 margin.

As former USAC Midget Champion and current ESPN commentator Larry Rice observed, “Out at the Speedrome, Ted has it wired. He uses a lot of patience to get out of trouble.”

Last year, Hines won three races and scored five seconds and four thirds. Although it’s not a national title, the Speedrome championship carries its own prestige, having been won by the likes of the late Rich Vogler, John Andretti, Tom Bigelow and Mack McClellan, the only three-time series titlist to date.

This year was a little more difficult for Hines, a 29-year old native of New Castle, Indiana and son of USAC veteran Jim Hines.

“We’ve really had an up-and-down year,” said Hines, whose employer, Dan Young Honda, sponsors his Speedrome car. “In May, we had two wins, a second and a third, but June was a bad month. Then in July, we had a second and back-to-back wins.”

“Last year, we finished almost every race (17 of 18). This year, we’ve had seven wins, but when we’ve finished, we’ve finished high.”

What makes Hines’ accomplishment so impressive is that he often starts in the back of the pack in the inverted starts. Patience has paid off for him.

“The key has been learning to stay calm and work your way through the traffic, starting as far back as we have,” Hines explained. “A lot of it is luck.”

Patience also paid dividends in January at the Hoosier Dome Invitational where Hines staged a late-race charge and passed the likes of reigning USAC Midget Champ Jeff Gordon and NASCAR standout Ken Schrader in the closing laps to win the 100-lapper.

Rollie Helmling, who provided Gordon his car for the 1990 championship drive, can’t believe how Hines does it, based on the equipment he’s got.

“It’s amazing what he’s been able to do,” said Helmling, who gave Hines a couple of rides this summer. “He goes out to IRP with a VW and he’s always competitive. He’s down 50 horsepower and he usually runs older tires but he’s always running with the fast guys. He’s one of the classic ‘have nots.’”

There is something he does have, however. I think he’s got a lot of potential,” Rice pointed out.

Ted would like to run more national events. Money, of course, is the biggest drawback, and as Hines pointed out, “What I want to do and can do are two different things”

Of course, what he can do and has done is essential in auto racing. He can win.
