

1992 USAC TQ MIDGET SEASON

6 Wins & Consistency Carry Hendrix to 1992 USAC TQ Midget Title

"The old guys did pretty well this year," said Rick Hendrix, USAC's brand new Copenhagen/Skoal TQ Midget champion for 1992.

Rick is 39 and runner-up Walt Johnson is 37, a stark contrast to the contingent of young lions using the TQs as a springboard to the midgets.

Increasing his point ranking every year since the series' inception, Hendrix was one of only four drivers to start all 24 mains (Johnson, Cory Kruseman and Kenny White were the others), and his final point margin was 67.

"We definitely had the title in mind from the outset," Hendrix added. "We got behind Walt in the early races but my fast qualifying times helped me catch him and take the lead."

Hendrix had six fast qualifying times in the first half of the season and finished out of the top-five only twice in the first 15 races.

"George Ito asked me to drive his TQ for a few races in 1984," he continued. "I didn't even know what a TQ was but liked it and I've been driving them ever since. I feel fortunate to win the title because the competition out here is so equal. Money doesn't play as big a part in this series as some, so it's fun."

Rick finished second in the CMA TQ points in 1976 but is glad the TQs are under USAC's wing.

"They've put us on the map," Hendrix said. "They offer a great training ground for the midgets and there is some good, young talent coming up now like Jay Drake and Cory Kruseman."

Jim Sharp provided the Honda-powered car Hendrix drove this year, and Rick's father, John, was also a big help.

"Jerry Crowell's mechanical expertise made it possible, and I also have to thank fabricator Ray Porter who beefed up our car for us, plus Dwight Kelley and our motor man, Jerry Clerc. My wife, Laura, supported me all season, and BSE T-Shirts and Bob Nichols provided much needed financial assistance."

Four victories at Ventura, one at Saugus and one at Victorville were among Hendrix's high points of 1992.

Hendrix, whose career started in go-karts, then progressed to sprint cars in the early 1980s, admits to having a strange racing career.

"I guess you could say I'm in reverse," he said, referring to the transition from sprints to TQs. "I'm happy doing this, though, and I'll probably stay here for a while yet."
