

Press Release

POLYRACK Aerospace certified according to EN 9100:2018

Straubenhardt (Germany), June 16th 2021 - POLYRACK Aerospace GmbH, a POLYRACK TECH-GROUP company, has been successfully certified by DEKRA according to EN 9100 for quality management systems for the aerospace industry.

Safety, reliability and quality are top priorities in the aerospace industry, whether in development, production or maintenance. Therefore, a comprehensive and seamless quality management system along the entire supply chain is crucial. After its foundation in 2020 the POLYRACK Aerospace GmbH quality management system has now been approved according to EN 9100, which marks another milestone for the company in this market segment.

"We still see the aerospace industry as a future market, but one that comes with very high requirements in terms of quality and risks. Now we can prove to our customers that our aerospace quality management system meets their requirements with an official certificate," says CEO Andreas Rapp.

POLYRACK Aerospace focuses on the realization of customer-specific solutions for the aerospace industry. These include the development and manufacturing of electromechanical components made of metal and plastic, including individual robust system platforms in various enclosure solutions, whilst meeting the relevant design and environmental standards.

In addition to aerospace certification, the POLYRACK TECH-GROUP companies are also certified in other areas of quality management:

- DIN EN ISO 9001: POLYRACK Electronic-Aufbausysteme GmbH, RAPP Kunststofftechnik GmbH, Metalle in Form Geräteteile GmbH
- IATF 16949: RAPP Kunststofftechnik GmbH
- DIN EN ISO 3834: POLYRACK Electronic-Aufbausysteme GmbH (Re-Certification will be done until end of June 2021)
