

Press release

## **RAPP Kunststofftechnik certified according to ISO/TS 16949**

**Straubenhardt (Germany), May 10, 2016 – The RAPP Kunststofftechnik GmbH, a company of the POLYRACK TECH-GROUP, has successfully passed the certification according to ISO/TS 16949. The ISO/TS 16949 is the globally valid certification standard for the quality management of the automobile industry.**

„With this certification we are able to officially verify our very high manufacturing level. This gives our customers the security of getting the quality and reliability they need from POLYRACK - with regard to the products as well as regarding all processes“, says Maximilian Schober, VP of Sales & Marketing at the RAPP Kunststofftechnik.

The automobile industry is among the growth markets of the POLYRACK TECH-GROUP. The company has been recording outstanding growth for some years within this segment with a particularly high demand for customer-specific enclosure and systems solutions in the field of plastics technology as well as their processing.

Besides the ISO TS 16949, the RAPP Kunststofftechnik GmbH and the POLYRACK Electronic-Aufbausysteme GmbH, both members of the POLYRACK TECH-GROUP, are also certified according to ISO 9001:2008 (quality) und ISO 14001:2009 (environment). The energy management according to ISO 50001 is currently undergoing the regular re-certification. The certification according to ISO 9100 (quality management system for suppliers of the aerospace industry) is currently in preparation.
