Straubenhardt, June 25, 2014 – The POLYRACK TECH-GROUP publishes its new main catalogue. For developers, it provides an overview of the complete range of products and services of the company.

The newly printed catalogue details the overall capabilities of Polyrack. The competencies which are presented in the main catalogue are: development and design, mechanics, systems technology / electronics, plastics technology, surface treatment, customized solutions, standard products as well as design services. "The bundling of all our products and services into one catalogue impressively displays the manufacturing capabilities available to our customers for their enclosure development", explains Andreas Rapp, CEO of the POLYRACK TECH-GROUP. "Thanks to our breadth of capabilities, Polyrack can offer the entire range of Electronic-Packaging solutions from a single source." The POLYRACK group of companies includes: RAPP Kunststofftechnik GmbH, RAPP Oberflächenbearbeitung GmbH, POLYRACK Electronic-Aufbausysteme GmbH and econ solutions GmbH.

The focus of the POLYRACK catalogue is on the extensive offering of standard products – starting with 19" subracks to cases and systems technology to front panels and plug-in modules. This strong portfolio represents the ideal starting point for customized enclosure solutions. "In most cases, our customers first choose a standard product from the catalogue. Then, additional features are incorporated together to develop step by step the individual requirements ", said Mr. Rapp. "We have conceived the catalogue as a clear guidance tool. It exhibits the wide range of services and products at our group of companies." Examples of customized solutions demonstrate how the standard products can be uniquely branded to customer specifications.

The new main catalogue of the POLYRACK TECH-GROUP can be obtained in four languages (German, English, French and Russian). Interested parties

may request their copy on the POLYRACK-website www.polyrack.com, by telephone at +49(0)7082 /7919-0 or by e-mail at sales@polyrack.com. On-line developers can also receive individual brochures for each of the eight service sectors in the form of a PDF document for download on www.polyrack.com <http://www.polyrack.com/de/download.html>.

###

About POLYRACK TECH-GROUP (www.polyrack.com)

The POLYRACK TECH-GROUP develops and manufactures high quality standard cases and customer-specific enclosure solutions. Thanks to a broad range of technologies in the mechanical manufacturing, systems engineering / electronics, plastics and surface finishing, POLYRACK offers electronic packaging for every need. The service offering extends from consulting in the conception phase, development, manufacturing and assembly right through to logistic solutions and sourcing services.

The company group comprises the POLYRACK Electronic-Aufbausysteme GmbH (Electronic Packaging and Systems Technology), RAPP Kunststofftechnik GmbH (Plastics Technology), RAPP Oberflächenbearbeitung GmbH (Surface Treatment) and subsidiaries in Switzerland, Belgium, America and China. The daughter company econ solutions GmbH is responsible for the development and distribution of the energy monitoring system "econ".

The owner-managed company has 340 employees and achieved a turnover of 42 million euros in the group in fiscal year 2013.
