POLYRACK: EmbedTEC-case now available as eNUC solution

Straubenhardt (Germany), April 25, 2016 – The POLYRACK TECH-GROUP now offers a multifunctional case solution for the form factor eNUC. It is based on the modular series EmbedTEC.

The EmbedTEC enclosure solution for the form factor eNUC (embedded Next Unit of Computing) consists of a visually appealing aluminium table top case (134 x 112 x 45mm). It comes with a changeable front I/O-Shield as well as a massive aluminium cover for the heat dissipation. The cover might as well be replaced by a heat sink to get a higher performance. Alternatively, perforated side panels or small fans can be used for a higher cooling performance. This new eNUC enclosure solution of the EmbedTEC family can either be used as a table top case or can be mounted on the wall with an adaptor, a Vesa-mounting fixture or with a top-hat rail in different alignments.
