

What is our Free **RSA Health Check**?

1

Introductory call

We will arrange a 20-30 minute virtual call with your customer.

2

RSA pre-sales team

The RSA Pre-Sales team will review the customer's current setup, including the version they have deployed, user count, deployed authenticators, and renewal dates.

3

Review future requirements

RSA will review how your customer is utilizing RSA today and their future identity requirements, including cloud environments, mobile device security, and passwordless capabilities.

4

Optimize RSA solutions

The RSA Health Check will provide recommendations on how to optimize your customer's deployment given their current and future needs.

5

RSA Health Check report

Your customer will receive a full report with your customer's results, along with any recommendations to review with your customer.

About RSA

The AI-powered RSA Unified Identity Platform protects the world's most secure organizations from today's and tomorrow's highest-risk cyberattacks. RSA provides the identity intelligence, authentication, access, governance, and lifecycle capabilities needed to prevent threats, secure access, and enable compliance. More than 9,000 security-first organizations trust RSA to manage more than 60 million identities across on-premises, hybrid, and multi-cloud environments.
