

HELPING PEOPLE HELP THEMSELVES

Rooted. Resilient. Rising.

Meet Pablo, the third graduate of ProJeCt's Class of 2026.

When Pablo first walked through our doors, he set himself a bold challenge: earn his GED® in six months. He knew it wouldn't be easy. But with determination, late nights of studying, and the unwavering encouragement of his family, Pablo not only reached his goal, he shattered it. In just three months, he proudly held his diploma.

For Pablo, a diploma is more than a piece of paper. It's proof that barriers can be broken, and lives can rise stronger after setbacks.

As he shared with the guests at Harvest Heroes, "Nothing makes you wiser, stronger, or more resilient than falling down and finding the courage to rise again."

This is what your support makes possible.

Like many nonprofits across Pennsylvania, ProJeCt faces uncertainty in government funding. Yet, our mission has never wavered. Every day we teach, feed, and guide our families towards stability and success.

In times like these, community support matters more than ever.

When you give to ProJeCt, you do more than fund classes and tutoring. You help people take **root** in their community to build lives strengthened by **resilience** that **rise** beyond barriers. You fuel moments of triumph, courage, and transformation.

As 2026 begins, we invite you to be part of this movement.

Your gift today ensures more students, like Pablo, can walk through our doors with hope and walk out with diplomas, education, food, emergency assistance, confidence, and opportunity.

Please, make your gift before December 31.

Together, we can celebrate more graduations, more breakthroughs, and more lives changed.

Sincerely,

Kimberly Checkaye

P.S. Every dollar you give before the year's end enables ProJeCt to start strong and empowers more of our neighbors, like Pablo, to achieve their dreams. Many employers offer matching gifts, doubling your impact when it matters most.
