WAY WAY - BREATHE

6 – 22 August 2025

In a world that relentlessly rushes forward we must remember to pause, reset and reconnect through the fundamental act of breathing—our most vital link to culture, wellbeing, and the sacred space within and around us. This exhibition explores the profound significance to breathe as a pathway to mindfulness, and a sanctuary for learning to slow down amidst the chaos.

Through immersive artworks, objects, rituals, and even contemplative spaces, *BREATHE* encourages us to reclaim time out—moments of stillness where healing and insight can unfold. It honours diverse cultural practices that require a time of focus while working with the hands which elevate breath as a sacred gift, a tool for spiritual awakening, and a mindful practice for modern life.
