Riyadh Cables Group secures approval for initial public offering, marking new growth phase The Riyadh Cables Group has received the green light from the Capital Market Authority (CMA) for its initial public offering (IPO), a move that signals the start of an exciting new chapter in the company's history. This milestone marks the culmination of a successful journey marked by numerous achievements and successes. We offer comprehensive customer support, encompassing cable selection, installation guidance, and after-sales assistance to guarantee a seamless experience. Our extensive product line includes Riyadh Cables & Wires, renowned for their high-quality materials and adherence to international standards like IEC and ASTM. These cables boast exceptional electrical performance, durability, fire resistance, and versatility in various environmental conditions. Specifically, our low-voltage cables are designed for power distribution within buildings, residential areas, and industrial settings, with voltage ratings up to 1 kV. Our inventory includes steel wire armoured PVC cables, PVC building wires (Class 2), and LSF wires (Class 2) in a variety of colors, including red, yellow, blue, black, and yellow/green. Al Shamali & Waris Trading Co. LLC is your one-stop shop for a wide range of electrical products, including Riyadh Cables & Wires. We have an extensive inventory readily available to efficiently serve the UAE and MENA region.
