

## **NAVCA Cyber Security Resources**

This resource pack has been created by NAVCA to follow on from our Train the Trainer scheme in partnership with the National Cyber Security Centre.

### **Purpose**

The posters are a condensed version of some of the most essential aspects of Cyber Security awareness, including a comprehensive checklist, what to do in the event of a cyber attack, how cyber attacks can affect charities, and an introduction to Artificial Intelligence. They also include information about two of NCSC's amplification partners, Charity Digital and Cyber Essentials. The aim is for these resources to help raise awareness of key Cyber Security topics, relevant to charities of all sizes.

### **How to Use**

These resources have two main purposes, to be printed and put up in charity workspaces and to be shared more widely online.

### **Things to Consider**

Whilst considering your organisation's Cyber Security position, use these resources as a guide, and access additional support through the NCSC website where you'll find further information.
