

NAVCA and ACRE have produced this resource as part of a project supporting the VCFSE sector and forming unitary and strategic authorities to work together through devolution and local government reorganisation.

The table below summarises the headline priority outcomes set out in the Local Outcomes Framework. You can see the full information [here](#).

The Framework represents a move towards outcomes based performance, aligning national and local government behind shared goals rather than activity-based reporting. It is designed to improve transparency, simplify funding relationships, and support a more coherent approach across public services. The framework will run until 2028-29 and uses existing published data.

Priority Area	Headline Outcome
Housing supply	Build the homes the country needs so that everyone has access to a home they can afford.
Housing quality and safety	Everyone has access to a decent, safe, secure, and affordable home.
Homelessness and rough sleeping	Prevent and reduce homelessness and rough sleeping.

Priority Area	Headline Outcome
Multiple disadvantage	Improve the lives of adults experiencing multiple disadvantages.
Best start in life	Improve early child development and health through improved family support and high-quality early education to give children in every part of the country the best start in life.
Every child achieving and thriving	Support all children and young people to achieve and thrive in school, at home and in their communities.
Keeping children safe / children’s social care	Keep children safe in secure and loving homes; help more families to thrive together.
Health and wellbeing	People live healthier lives for longer and health inequalities are reduced.

Priority Area	Headline Outcome
Adult social care – quality	People who draw on care and support, and their carers, experience high quality adult social care provided by a skilled workforce.
Adult social care – independence, choice and control	People who draw on care and support are supported to promote their independence, where possible, and have choice and control over their support.
Adult social care – neighbourhood health integration	People who draw on care and support experience joined-up health and social care services at a neighbourhood level.
Neighbourhoods	People feel safe and included in their community and satisfied with their local area as a place to live. *includes metrics from the <a href="#">Community Life Survey</a> on volunteering, influence on local decisions and cohesion.

Priority Area	Headline Outcome
Environment, circular economy and climate change	Support healthier, more resilient natural and built environment, including responding to the risks and impact of climate change to the benefit of communities.
Transport and local infrastructure	Communities are better connected with healthier, safer, and greener transport that meets the needs of all users and drives growth.
Economic prosperity and regeneration – contextual outcome	Foster local economic growth and prosperity.
Child poverty – contextual outcome	Reduce and alleviate child poverty to improve children’s lives and life chances.
