Savana Asset Management Welcomes Former Global X CEO Evan Metcalf as Executive Director

SYDNEY 27 OCTOBER 2025: Savana Asset Management is delighted to announce the appointment of Evan Metcalf, former CEO of Global X ETFs Australia, as Executive Director. Evan will play a pivotal role in driving funds under management for Savana's flagship listed fund (**ASX: SVNP**) and in preparing the launch of Savana's upcoming ETF suite.

Metcalf's appointment comes at a milestone moment for Savana. Since listing in November 2024, SVNP has delivered ~10% alpha against its benchmark, cementing evidence of the firm's unique investment edge.

"Evan's signing is a huge statement of intent," said John Atkinson, Founder and Director of Savana. "His experience building Global X into a leading ETF issuer will be invaluable as Savana scales from proven technology into global distribution."

"What Savana is building is truly next-generation," said Evan Metcalf. "The combination of algorithmic intelligence, data science, and disciplined portfolio construction positions Savana at the forefront of a new wave of active ETF innovation. I'm excited to help accelerate that vision and bring it to more investors."

Backed by Centerstone Capital, Riverbend Investments and other high-conviction investors, Savana's mission is to build the world's most advanced ETF platform - where scientific innovation meets technological precision to deliver a cutting-edge investment strategy engineered to outperform over time.

About Savana

Savana Asset Management is an Australian investment manager specialising in actively managed exchange-traded funds (ETFs). Its investment strategy is deployed through a proprietary technology platform that harnesses Collective Intelligence science and cutting-edge algorithmic design to construct high-conviction, data-driven portfolios. Savana launched its flagship ETF, the **Savana US Small Caps Active ETF (ASX: SVNP)**, in November 2024. The firm's long-term vision is to build a global platform of 20+ ETFs to lead the next generation of active asset management.
