Important information
These figures refer to the past. Past performance is not a reliable indicator of future results.
This document is a marketing communication. Before subscribing please read the prospectus, available upon request from Lancaster IM. The performance calculation shown is based on the GBP A share class. If the past performance is shown in a currency which differs from the currency of the country in which you reside, then you should be aware that your performance may increase or decrease as a result of currency fluctuations.

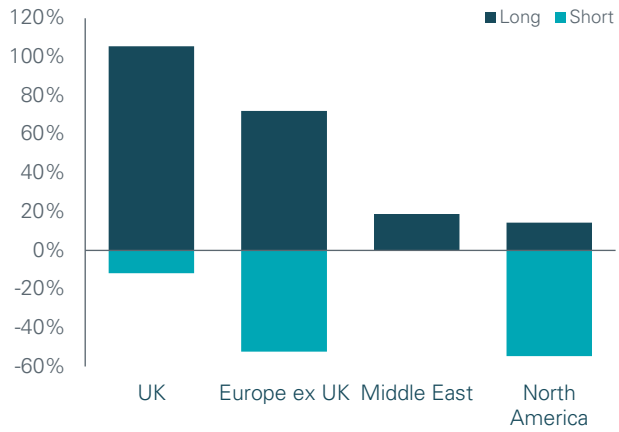
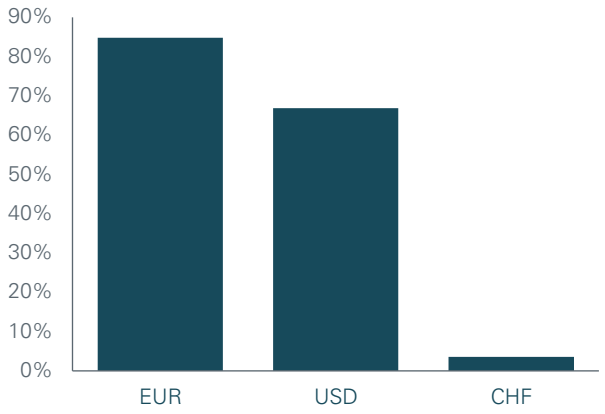
Equity exposure by sector

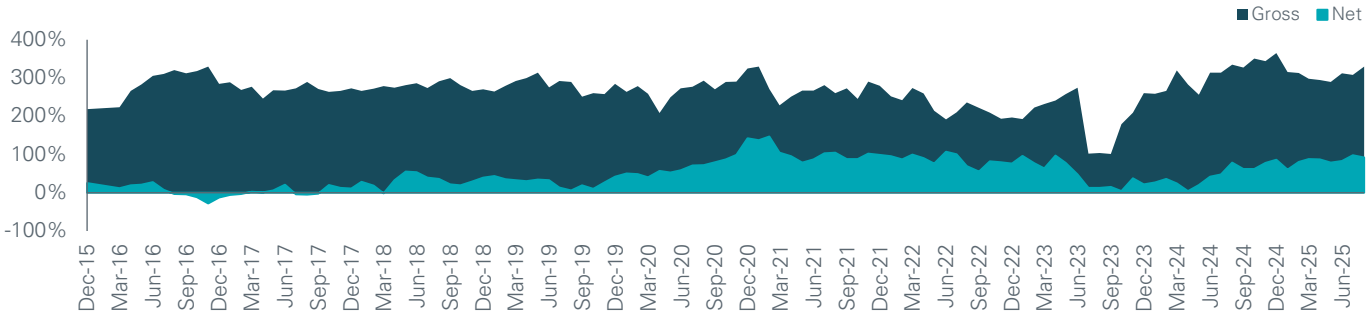
Equity exposure by geography



Portfolio non-base currency exposure



Equity exposure



Equity exposure includes all equity related instruments. Government Bond exposure can be provided on a ten-year adjusted basis. Currency exposure shows portfolio exposure to non-base currency >1% or < -1% of NAV. Equity exposure as classified by GICS. Commentary is provided on a quarterly basis. The fund was renamed from Brook Absolute Return Focus Fund to Lancaster Absolute Return Focus Fund in Q3-23 on the back of the Investment Management Agreement and the investment team transferring to Lancaster Investment Management LLP. All performance in GBP.

LANCASTER
INVESTMENT MANAGEMENT

Investment objective and policy

The Lancaster Absolute Return Focus Fund ('The Fund') aims to achieve a positive absolute return on a 12 month rolling basis independent of market conditions. Capital is at risk and there is no guarantee that a positive return will be delivered over any one or a number of 12 month periods. The Investment Manager seeks to achieve this objective through managing a portfolio of securities, bonds and currencies and related financial instruments.

Approach

This is a fundamentally driven equity long short strategy. It is concentrated, global in scope and built around three core principles; investing in fundamentally sound companies, disciplined short selling, and diversification. On the long side, the approach is valuation driven with a particular focus on sustainable free cash flow generation. On the short side the portfolio is stock-specific. The strategy harnesses the experience and judgement of James Hanbury, his investment team and the wider equity research resource at Lancaster Investment Management. While the team invest for the medium to long term, position sizing is dynamic to ensure the portfolio remains focused on highest conviction ideas. The Fund is built without formal reference to an index and typically contains 30-40 positions long and 20-30 positions short with a high concentration in the top 10 positions on each side.

Risk Considerations

The Fund is actively managed and has considerable latitude over its allocation both long and short equities and it may employ leverage and own sophisticated instruments such as futures and options. The Fund may hold a large weighting in a small number of investments and may therefore be subject to larger than normal swings in its value. The performance stream is likely to be volatile and the Fund is suitable only for investors who have a long time horizon (>5 years) and can tolerate high risk. Investors may not get back all the money invested and an investment in this Fund should only form part of an investor's total portfolio. Investors should discuss the suitability of this Fund with their professional adviser. The Fund's prospectus has detailed descriptions of the Fund's risks. Before investing, please refer to the fund prospectus before making any final investment decisions. You can get free copies from the Investment Manager at reporting@LancasterIM.co.uk
