

Ziptyft™ introduces the first truly minimally invasive approach to eyelid enhancement.

This revolutionary compression skin contouring (CoCo) technology transforms complex surgery into an elegant solution—restoring your natural vitality with minimal bruising and rapid recovery.

Elevate to the new—found confidence that comes from Ziptyft.

Lift Your Expectations

BB

My eyes were feeling tired and I was looking older, but I didn't want to have a big surgery with a lot of downtime. I am thrilled I had a Ziptyft treatment—I had very little bruising and looked good in a week!"

—Leslie M.

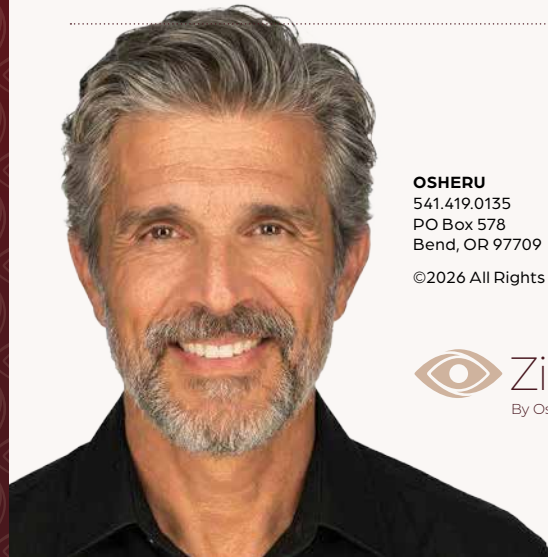

BB

After my Ziptyft, I look younger and more awake but very natural and not overdone—I look like myself, just younger!"

—Kayla O.
