

AHD-DSI

Dual Signal Inverter

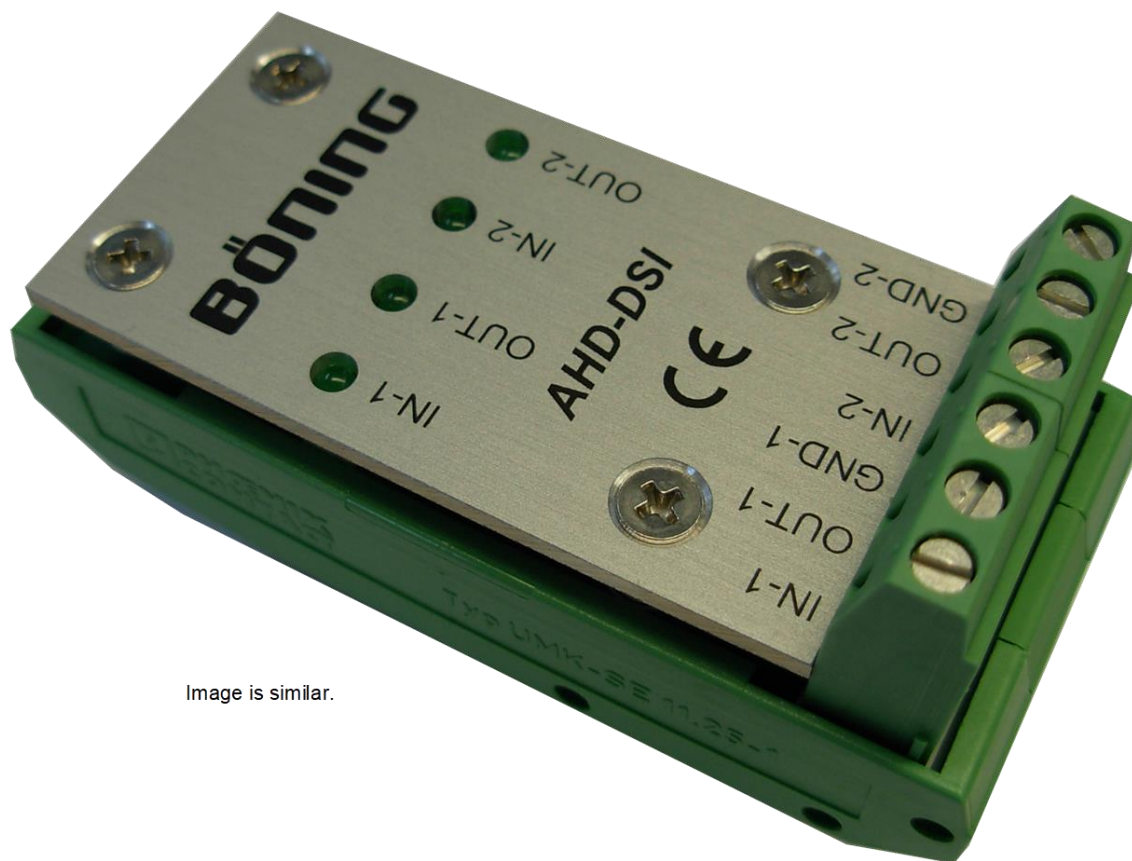

Image is similar.

- **Passive polarity inverter for serial signals**
- **Data traffic signaled with LEDs**

AHD-DSI inverts, for example for the connection of AHD 414 to AHD-SAS 15, the polarity of serial signals.

On device can be used to invert the polarity of two serial signals.

The data traffic is signaled with LEDs.

Technical data

Dimensions (mm)	33.5 x 77 x 49.6
Weight	Ca. 0.1 kg
Ambient temperature	-30°C...+70°C
Storage temperature	-50°C...+85°C
Protection class	IP 20
Interfaces	2 x seriell IN und OUT
Installation type	Directly on DIN rails TS 32 oder TS 35
Approvals	-
Item number	11399
