

The Spokane Youth Symphony

Established in 1949, the Spokane Youth Symphony has been at the forefront of orchestral education for the youth of the Inland Northwest for more than 75 years. Our mission is not just to teach music but to provide an environment where young musicians can grow, collaborate, and excel. Through weekly rehearsals, chamber music experiences, and specialized sectionals led by professional coaches, we ensure that our students are not only prepared for concerts but also for a lifelong journey in music. As we uphold our commitment to excellence and nurture the budding love for music, we instill pride and lifelong skills in our young musicians. We rely on the generous support of our community to continue this legacy of musical enrichment. Your sponsorship will help us shape the orchestras of tomorrow.

2025-2026 Season

The Spokane Youth Symphony's Commitment

Nurturing Talent, Building Futures

Nurturing young musicians for nearly 76 years, the Spokane Youth Symphony's mission is to provide exemplary orchestral education and performance opportunities for the youth of the Inland Northwest. We invite you to join us on our journey to inspire, educate, and empower the young musicians of our community. The Spokane Youth Symphony is comprised of four orchestras, each conducted by a professional musician. The student age range in our program is 8 to 18 years old and there are over 230 students enrolled for this year in our program. The SYS is open to all students to audition, and our performers come from all areas and backgrounds of our Spokane region.

Join us for our 76th season!

SYS concerts are held at The Fox Theater. Concerts this season will take place on November 16th, January 25th, March 15th, and May 17th. Your generous support helps us carry out our important mission. A gift in the form of a general donation, or as a concert sponsor for our 2025-2026 concert season, would be significant to making our organization, its education, its student mentorship, its tuition assistance, its instruments, and its performances possible. Please see the enclosed sponsorship proposal for our partnership opportunities.
