

TEACHING TEENS TO READ - OVERVIEW

Module 1: Introduction

Receive an overview of the next nine modules and understand the unique needs of teen striving readers.

Module 2: Building a Culture of Reading

Create a positive and engaging classroom environment. Motivate reluctant readers. Leverage technology to enhance reading experiences.

Module 3: Pre-Reading Activities

Learn how to activate students' prior knowledge, set a purpose for reading, and build vocabulary.

Module 4: High-Frequency Words

Discover effective strategies for teaching high-frequency words and learn how they fit into phonics instruction.

Module 5: Previewing Vocabulary

Leverage morphology and knowledge-building strategies to support older striving readers with language acquisition.

Module 6: Fluency Strategies

Learn how to implement fluency strategies that students can use to improve their prosody, accuracy, and rate when reading connected text.

Module 7: Comprehension Strategies

Discover comprehension strategies and instructional routines to improve students' metacognition and knowledge-building and that you can use with any text today.

Module 8: Decoding Strategies

Learn how to differentiate phonics instruction for older students by focusing on syllable division and morphology.

Module 9: Text-Based Writing

Practice differentiating writing instruction for striving readers and writers by using different scaffolded approaches to written responses to reading.

Module 10: Strategic Independent Reading

Transform independent reading periods into strategic reading periods by creating a differentiated classroom library, literature circles to build comprehension skills, and conferring with students to meet their unique literacy needs.
