

APPROACH TO ASSESSMENT

Storyshares LIFT integrates with existing school assessments, minimizing disruption and maximizing the use of already collected data. This approach is rooted in our commitment to responsive, teen-centered literacy interventions. While LIFT doesn't have its own summative assessment, it facilitates ongoing formative assessment through the use of artifacts of student learning (LIFT decoding and fluency workbooks), objective teacher observations, and progress monitoring. If there is a universal screener in place (e.g. NWEA MAP), we recommend going through this process.

Tiered Assessment Strategy

Recommended Assessments

- The Rapid Online Assessment of Reading (Stanford ROAR)
- Advanced Decoding Survey Plus (Really Great Reading)
- Intervention Placement Test (UFLI Foundations)

***These diagnostic screeners are all free and available digitally.*
