

Sport-Cruiser Dominance

The Benda LFC700 elevates every ride with aggressive engineering, futuristic styling, and raw inline-four power. Its 84-horsepower engine, KYB suspension, and precision Brembo brakes work together to deliver a ride that feels both refined and ferocious. A single-sided swingarm and massive 310mm rear tire create a commanding presence that turns heads at any speed, while multiple riding modes and a full-color TFT display tailor the experience to your style. Built to stand out and built to perform, the LFC700 embodies "Throttle Up, Rule Down" in every mile.

01 Fierce, Futuristic Design

Aggressive geometry and sculpted bodywork give the LFC700 a bold, futuristic silhouette with a commanding road presence.

02 Advanced Rider Cockpit

A bright 5-inch TFT display delivers clear ride information, while backlit controls create a clean and modern cockpit.

03 Sharp Headlight, Turbine Intake

An unconventional headlight layout and turbine-inspired intake highlight the LFC700's bold, mechanically futuristic identity.

04 Brembo Braking Precision

Dual Brembo calipers with 320 mm discs provide strong, precise braking, supported by ABS and traction control for added stability.

05 Signature Exhaust Note

A striking exhaust system amplifies the deep, resonant tone of the inline-four, enhancing the bike's performance character.

06 Massive Rear Tire

A massive 310 mm rear tire creates a muscular stance and a wide, stable footprint that reinforces the bike's aggressive style.

07 Premium KYB Suspension

KYB suspension with a 43 mm inverted fork and adjustable rear monoshock provides smooth damping and confident control.

08 Low Seat, Easy Ergonomics

A comfortable 695 mm seat height and relaxed ergonomics make the LFC700 a practical everyday ride without losing attitude.

09 Full Aluminum Frame

A rigid aluminum alloy frame offers a lightweight, responsive foundation that sharpens agility and overall handling.

10 Inline-Four Power

A high-revving 676.9 cc inline-four engine delivers smooth, exhilarating power rarely seen in a cruiser.

Ride with confidence and control. The Benda LFC700 is engineered for riders who demand power, comfort, and cutting-edge capability. A balanced seating position and ergonomic design keep long rides effortless, while Brembo braking with ABS ensures steady, reliable stopping in any condition. The full-color TFT display keeps vital information clear at a glance, and adjustable riding modes let you adapt the bike's performance to the road ahead. With its bold design, high-quality materials, and performance-driven features, the LFC700 transforms every journey into a commanding, exhilarating escape.
