7. ****Retainer Delivery Options:****

- * Upon receiving your new set of retainers, you have two convenient delivery options.

In-Person Pickup (recommended):**

* In-person pickup is available during regular office hours, and our team will be happy to assist you. This allows for personalized fitting, ensuring optimal comfort and effectiveness.

* Please bring your old retainer to the appointment (if applicable).

* If participants choose in-person pickup and do not come to collect the retainer after reasonable attempts have been made to schedule a pick up, the retainer will be discarded after 90 days, and there will be no refund.

* **Mailed Delivery:** *** If you are unable to pick up your retainers in person, an alternative option is available for delivery by mail. Patients opting for mailed delivery are responsible for ensuring that their mailing address is current in our records. Brazos Valley Pediatric Dentistry is not responsible for lost or misdirected mail due to outdated addresses. Once you have received retainers if you can please take picture with retainers on and send to **832.934.4299** for our records.

8. Retainer Fit: **

* Your new retainer is crafted based on the scan obtained during the removal of braces appointment, making it a precise replica of your previous retainer. As such, the new retainer should fit similarly to the old one, perhaps slightly tighter for the first few days.

* If your current retainer is not fitting correctly, please notify us. Failure to notify us of any fit issues will result in the creation of a new retainer that will not fit properly. Unfortunately, there will be no refund in such cases. There are many factors beyond our control that can cause ill-fitting retainers, most common being:

* Non-compliance, the patient is not wearing retainers as instructed.

* Large restorations: such as a new crowns and/or fillings.

* In either case, a new scan or potentially new treatment must be obtained before fabricating a new retainer.

9. Patient Relapse: **

* If the patient has gone too long without a retainer, the teeth may have shifted resulting in an incorrect fit of the retainer. In these instances, retreatment may be necessary, and we would be happy to discuss different options for retreatment at a discounted cost from the original treatment fee.

Please let us know if you have any questions about these terms and conditions.
