Lenguaje corporal en 40 dias pdf

Lenguaje corporal en 40 dias jesus enrique rojas pdf. Lenguaje corporal en 40 días pdf.

What did you think of this book? How good is the downloaded file quality? I downloaded the book to evaluate its quality and assess the files. The book is organized into four parts: Part I: Correcting what you project. For years, you've been hiding your true personality behind an incorrect posture, weak tone, and timid gestures; it's time to project who you really are - your real value! Part II: Learning to read others. Men are naturally unexpressive, so learning to understand them can take a long time unless you learn to read their body language; this way, you'll discover that conquering a man is just a matter of understanding his mood and directing all your attraction towards him when the moment is right. Part III: Ten trials by fire. Not everything can be theory, and in these ten tests, you'll see what you're made of. Do you think you've learned it all already? If you can overcome these ten challenges, you'll have proven it to yourself once and for all. Part IV: Putting everything into practice. In the final part of "Body Language in 40 Days," you'll understand the implications of having this knowledge and, of course, using it responsibly. Note: The file will be sent to your email address during a 1-5 minute period. Conversion failed.
