The Family and Friends Starter course is a comprehensive educational program that provides a strong foundation in language, phonics, and civic education for young learners. The package includes integrated print and digital resources, step-by-step phonics lessons, and testing materials to help teachers assess student progress. One-third of each unit focuses on skills training, building children's confidence in reading, writing, speaking, and understanding English through a step-by-step approach. Phonics lessons are also included, with one in six lessons dedicated to training children to recognize and produce English sounds. The civic education syllabus promotes good values and behavior, while the Testing and Evaluation Book helps teachers evaluate student progress. The course includes various resources such as the Class Book, Student Multi-ROM, Audio CDs, Workbook, Teacher's Book, and Teacher's Resource Pack. In addition, the Grammar Friends series provides a carefully graded grammar practice program for 6-12 year olds, making it an ideal supplement to any elementary general English course. This week, a court decision favored large corporations, resulting in over 500,000 books being removed from libraries. Despite this setback, we will continue to fight for the rights of all libraries and urge you to join us in this effort. Notably, less than 1% of our patrons donate, with an average contribution of just \$15.58. If our library has been helpful to you, please consider supporting it.
