Get your hands on our free printable football squares PDF and spice up your next game day with some friendly competition! Football Squares is a simple yet exciting game that adds an extra layer of anticipation and fun to any sports event. Whether you're a die-hard fan or just looking for a good time, this super bowl squares template is guaranteed to be a crowd-pleaser. To get started, all you need is our free printable football squares PDF, a pen/pencil, and some enthusiastic participants ready to join in on the fun! You'll love how easy it is to set up - just print out the 10x10 chart with 100 empty squares from our free printable football squares PDF. Label the darker green row and column with numbers 0-9 or leave them blank for now if you plan on randomizing them later. You can also encourage people to buy multiple squares to help fill up the template. Assign a cost per square, and participants will contribute equally to create a prize pool for lucky winners. To assign the squares, you have a few options: randomly draw numbers, hold an auction-style bidding session, or let players choose their boxes by writing their initials in the grid. Once the squares are assigned, keep a close eye on the scoreboard during the game and use our super bowl squares template to track your progress. With our free printable football squares PDF, you'll be ready to start playing in no time! Looking forward to the final scores, make sure to note down the last digit of each team's score at the end of each quarter or the game, as this will help you identify the winners. To win, match the last digit of each team's score with the corresponding square on the super bowl squares template. For example, if the home team has a score of 24 and the away team has a score of 17, the square at the intersection of row 4 (home team) and column 7 (away team) is the winning square for that quarter. For each quarter or just the final score, winners are in for a treat. A percentage of the total prize pool can be allocated for each quarter's winner, with more significant portions going to the ultimate champion who correctly predicted the final score.
