

Storyshares Literacy Board Game

Materials:

Board game template, two dice, two game pieces, word recording sheet, pencil

Directions:

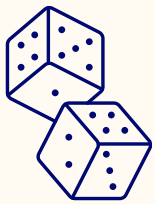

Roll the die and read the word on the spot or the directions on the space. Then, write down the word on your recording sheet. First player to reach the end of the board wins the game!

A note for teachers

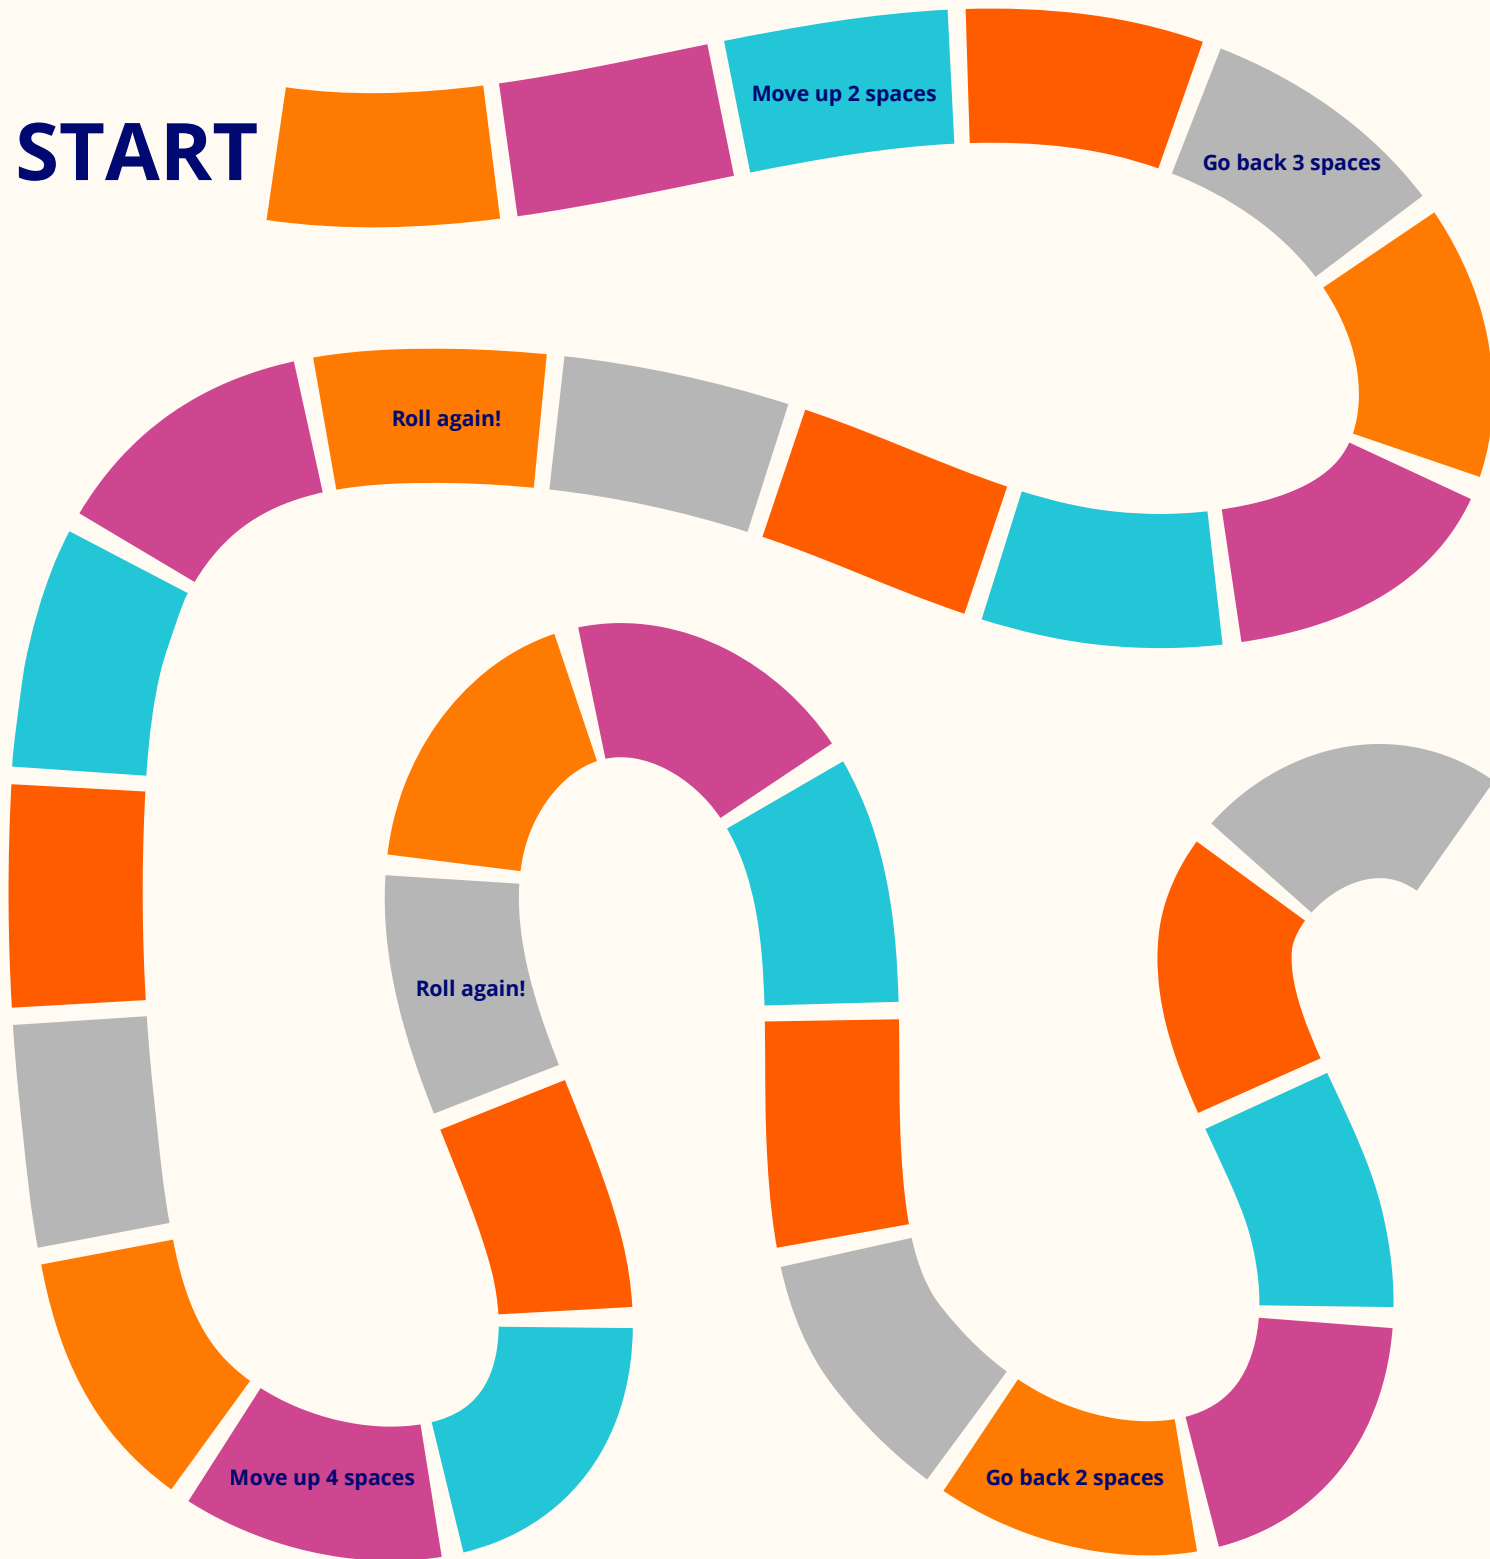

Edit the board game template with words that support specific literacy skill development. For example, make all the words irregular words or words that have a specific vowel team pattern. You could also use the board game template for vocabulary skill development. Students can practice their encoding and spelling skills as they write down each word they land on.
