PROFILE

I am an experienced Location Marshal and media production graduate with a full, clean UK driving licence (25+). Having supported a wide range of fast paced shoots, I'm now ready to step up into the Location Assistant role. I bring hands on knowledge of set logistics, crowd and traffic management, location setups, welfare, and all responsibilities that come with maintaining and running a set.

With a strong work ethic, adaptability, and a solid foundation in production, I'm eager to contribute to HETV and feature film teams in a dedicated Locations capacity.
