## BY UPGRADING TO JOSAM CAM-ALIGNER YOU WILL GET:

- Modern, ergonomic and user-friendly measuring technology covering today's vehicles.
- Fast and simple measuring procedures which increase your productivity on wheel alignment compared to a conventional non-digital system.
- Robust industrial design and in-built calibration functions to keep your equipment maintenance at a minimum cost.
- A clear and guided software interface, reducing your operator dependency.
- Increased opportunities to sell wheel alignment services.

# UPGRADE AND INCREASE YOUR TURNOVER

Cam-aligner is a quick and modern system that will enable you to diagnose a vehicle in matter of minutes. This gives you the opportunity to increase your turnover as many vehicles are subject to being adjusted.

Diagnosis could also create spin-off activities such as sales of suspension related spare parts (bushings, tie rods, ball joints, bearings etc.).
