Intellicheck Partners with Dock Optimizer to Help Prevent Fraudulent Freight Pickups

Partnership Integrates Intellicheck's Real-Time Identity Verification with Dock Optimizer Check-In for Shippers and Third-Party Logistics Providers

MELVILLE, NEW YORK – October 29, 2026 – Intellicheck, Inc. (Nasdaq: IDN), an industry-leading identity verification company delivering proprietary, on-demand digital and physical identity verification solutions, today announced a new partnership with Conmitto, Inc., the company behind Dock Optimizer, to help shippers and third-party logistics providers verify drivers before freight leaves the dock.

The partnership combines Intellicheck's one-of-a-kind identity verification technology, which incorporates proprietary analysis of hidden security data in DMV-issued ID barcodes, with Dock Optimizer's appointment scheduling, carrier coordination and driver check-in platform. The integration places the ID check inside the check-in process logistics teams already use, helping them identify fraudulent pickup attempts while keeping verification results tied to the carrier, driver and load.

"The paperwork for a pickup can look right even when the person collecting the freight is not who they claim to be," said Bryan Lewis, CEO of Intellicheck. "Our partnership with Dock Optimizer brings identity verification to the critical exchange point where freight is handed off, without requiring a separate process for the dock team. It also provides shippers a way to apply their identity verification requirements at third-party facilities, extending the reach of our technology into logistics."

During driver self check-in, Dock Optimizer displays a QR code that the driver scans with a phone before scanning the barcode on the back of their license. Intellicheck's technology verifies the ID, and the result and license details are saved to the appointment. The verification is completed nearly instantaneously and no app download is required. The integration also supports verification at the gate and in Dock Optimizer's Door Manager.

Shippers can apply ID requirements to their own appointments at third-party facilities that use Dock Optimizer, with verification running on the shipper's own Intellicheck account. Results, license details and timestamps remain on the appointment record in Dock Optimizer for three years to support chain-of-custody documentation, security investigations and compliance reviews.

"A fictitious pickup looks like any other pickup until the freight is gone. Intellicheck can tell a real ID from a fake one, and Dock Optimizer builds that verification into the check-in the dock already runs, at the moment the load changes hands," said Akash Agarwal, CEO of Conmitto, the company behind Dock Optimizer. "Shippers set the standard for their freight, and now that standard follows the load to every partner dock that runs Dock Optimizer."

About Dock Optimizer

Dock Optimizer is the freight network built around the dock appointment. Warehouses, shippers, carriers and brokers use one platform to schedule docks, check in and verify drivers, and move orders to loads, with every handoff recorded on the appointment. Carriers book free, with one simple link for every shipment and no apps or portals. Launched in 2022, Dock Optimizer is used by logistics providers, Tier-1 shippers and carriers including Hanzo Logistics, Kuehne+Nagel, J.B. Hunt, Phinia, Pfizer and Orgain. Dock Optimizer is built by Conmitto, Inc., based in Cupertino, California. Learn more at https://dockoptimizer.com/

About Intellicheck

Intellicheck (Nasdaq: IDN), the industry leader in identity verification management, prevents the use of unauthorized IDs to stop identity-based fraud. Intellicheck is the only SaaS-based validation and proofing service that uses a unique and proprietary analysis of DMV-issued IDs to create trusted, real-time customer identity verification experiences across a wide variety of sectors, both in-person and digitally. Intellicheck is processing identity transactions for almost half the adult population in the United States and Canada annually with state-of-the-art technology solutions that are providing a seamless, invisible ID verification experience while delivering 99.975% decisioning in under a second when a customer is using our tools to capture the document. For more information on Intellicheck, visit us on the web and follow us on LinkedIn, X, Facebook, and YouTube.

Safe Harbor Statement

Statements in this news release about Intellicheck's future expectations, including statements regarding the anticipated benefits of our partnerships and integrations with third-party platforms; the ability of our integrated solutions to help detect fraud, reduce risk and support customer verification and compliance workflows; the adoption of our solutions by customers through our partners' platforms; our ability to expand our channel partnership initiatives; the advantages of our products; future demand for our existing and future products and services; whether we will expand across key market verticals; and our growth strategy and ability to scale the business, and all other statements in this release other than statements of historical fact, are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995 (the "PSLRA").

This statement is included for the express purpose of availing Intellicheck, Inc. of the protections of the safe harbor provisions of the PSLRA.

These statements, which express management's current views concerning future events, trends, contingencies, or results, may use words such as "anticipate," "assume," "believe," "continue," "estimate," "expect," "forecast," "future," "guidance," "intend," "outlook," "plan," "potential," "predict," "project," "seek," "strategy," "target," "could," "may," "might," "should," "will," and "would," the negative of these terms, and similar expressions.

Actual results and ultimate corporate actions could differ materially from those expressed in or implied by forward-looking statements due to factors including customer concentration; a significant customer's vendor transition and multi-vendor architecture, including the pace, extent, and duration of the resulting volume reductions, whether any volumes are retained or restored, the economics of any retained or restored business, and our ability to recover or

replace affected revenue; our ability to establish and grow channel partnerships; our dependence on channel and technology partners for the performance, security and market adoption of their platforms; the rate at which new industries and verticals adopt identity verification; market acceptance and adoption of our SaaS offerings; competition, including from providers with greater resources; the rapid evolution of artificial intelligence, including the use of generative AI to create synthetic identities and deepfakes, and our ability to maintain technological advantages; cybersecurity incidents, data breaches, or service interruptions, including those affecting our partners' systems; changes in privacy, biometric, data protection, and AI laws and regulations; pending or future litigation and regulatory inquiries; our ability to attract and retain key personnel; macroeconomic and geopolitical conditions, including the effects of ongoing international conflicts on consumer sentiment and inflation; our ability to utilize net operating loss carry forwards, including limitations under Section 382 of the Internal Revenue Code; risks associated with being a smaller reporting and micro-cap company; and the other risks and uncertainties detailed from time to time in Intellicheck's filings with the Securities and Exchange Commission, including under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2025 and subsequent Quarterly Reports on Form 10-Q.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date of this release. Intellicheck undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law.
