## A message from our founder

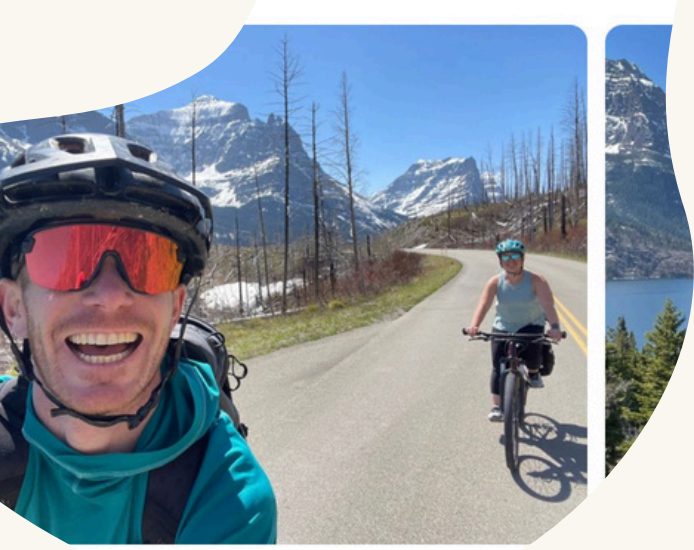

My mom's terminal diagnosis of FTD came in the most inhumane way – through a letter in the mail. Preceding my grandmother's diagnosis by just a few months; the weight of that hopeless feeling still sits with me 15 yrs later. But now countered with the HOPEFUL feeling of promising research, community and action. I will not stop until structured access to care and a cure are here. **Thank you for MOVING forward with me.**

## Move to make a difference

MoveFTT began in the height of the pandemic; as a way to help each of us focus on positive wellness while creating a collective voice for our loved ones that have lost theirs'. We begin together, we finish together, we make a difference – together.

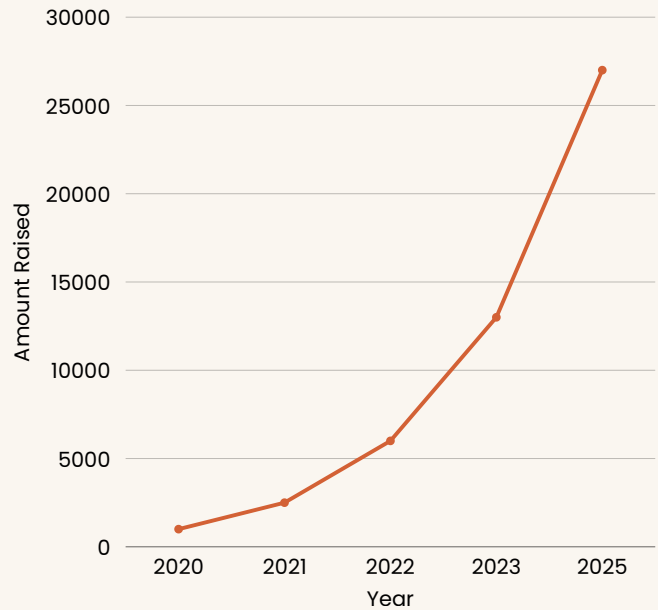

Read on to take a look back on this season's challenge and look forward to what difference YOU have made.

## FUNDS RAISED

# 27,100

### OUR MISSION:

- Lift the Caregivers
- Lift the Stigma
- Lift each other

### WE BELIEVE:

FTD, ALS, ALZ's and other neurodegenerative diseases deserve the same access to care, compassion and urgency as other terminal illnesses.

**Together, we supported and toughed the lives of over 1,500 individuals**

## ✦ IMPACT

## ✦ DETAILS
