SAMPLE REPORT
**AI IN THE MIDDLE EAST 2025: ADOPTION
TRENDS, READINESS, AND RISK LANDSCAPE**
PUBLICATION DATE: SEPTEMBER 2025

Sample Report

In 2024, Middle Eastern firms face strategic and operational barriers in AI deployment, with 34% struggling to select the right technologies and over a quarter citing talent gaps and unclear use cases

Middle East: Barriers to AI Development and Deployment, in % of Respondents, Oct-Dec 2024

Survey: The findings are based on a Deloitte survey conducted between October and December 2024 with 155 senior leaders across the UAE (62), Saudi Arabia (48), and Qatar (45). Respondents were senior executives from diverse industries, representing organizations with annual revenues over \$500 million; half reported quarterly revenues above \$1 billion. All reported daily or pilot use of AI or GenAI. Question: What, if anything, has most held your organization back in developing and deploying AI tools/applications?; Total does not add to 100%; Select up to three challenges.

Source: Deloitte, February 2025

Sample Report

Saudi Arabia establishes a three-pillar strategy to scale GenAI nationally through foundational enablement, infrastructure investment, and sector-specific deployment, in 2024.

Saudi Arabia: GenAI Readiness, Infrastructure Scale-Up, and Sector-Specific Application Rollout

Saudi Arabia Builds the Foundations for GenAI at National Scale

- Saudi Arabia is laying down the core infrastructure required to effectively develop, deploy, and scale generative AI across sectors, according to Oliver Wyman. The approach focuses on three building blocks, beginning with foundational elements designed to accelerate adoption. These initiatives aim to foster readiness for GenAI through national enablement strategies and supportive policies that form the bedrock of broader AI implementation.

Technology and Infrastructure as Strategic Pillars

- The second building block centers on building and maintaining robust technological infrastructure, as highlighted by Oliver Wyman. This component ensures the entire GenAI value chain, from compute capacity to secure data environments, is supported by a resilient, scalable ecosystem. Saudi Arabia's approach emphasizes the creation of a self-sufficient environment that enables innovation without dependence on external bottlenecks.

Application Deployment Across Business and Sector Functions

- Oliver Wyman notes that the third and final component focuses on deploying GenAI applications in practical and scalable ways. This includes both horizontal use cases, such as chatbots for customer service or decision-making support tools, and vertical applications tailored to specific industries. These might include learning technologies for education or financial tools for fraud detection and risk analysis.

Comprehensive Strategy Aligns with National AI Vision

- Together, these three components form a comprehensive framework to operationalize Saudi Arabia's GenAI ambitions, according to Oliver Wyman. The strategy reflects a deliberate move toward embedding GenAI into both the public and private sectors, ensuring productivity, personalization, and resilience are driven by domestic capabilities and long-term national planning.

RELIABLE

A LIST OF ADVANTAGES

- yStats.com provides secondary market research: By using various sources of information we ensure maximum reliability of all obtained data. As a result companies get a precise and unbiased impression of the market situation.
- Only reliable sources such as national and international statistical offices, industry and trade associations, business reports, business and company databases, journals, company registries and news portals are used as a basis for the analyses, statistical reports and forecasts.
- Our international employees research and filter all sources and translate relevant information into English. This ensures that the content of the original studies is correctly interpreted.
- yStats.com delivers all research results as PowerPoint files. All data can therefore be used directly for board presentations or be individually adapted.
- If required, yStats.com provides in-depth analysis for all research projects. Simply send us a request.

GENERAL METHODOLOGY OF MARKET RESEARCH REPORTS

Sample Report

Secondary Market Research

- The reports are compiled based on secondary market research. Secondary research is information gathered from previously published sources based on information and data acquired from national and international statistical offices, industry and trade associations, business reports, company databases, journals, company registries, news portals and many other reliable sources. By using various sources we ensure maximum accuracy for reported data. As a result, companies gain a precise and unbiased impression of the market situation.
- Cross referencing of data is conducted in order to ensure validity and reliability.
- The source of information and its release date are provided on every chart. It is possible that the information contained in one chart is derived from several sources. If this is the case, all sources are mentioned on the chart.
- The reports include mainly data from the last 12 months prior to the date of report publication. Exact publication dates are mentioned in every chart.

Definitions

- The reports take into account a broad definition of B2C E-Commerce, which might include mobile commerce. As definitions may vary among sources, exact definition used by the source (if available) is included at the bottom of the chart.

Chart Types

- Our reports include text charts, pie charts, bar charts, rankings, line graphs and tables. Every chart contains an Action Title, which summarizes the main idea/finding of the chart and a Subtitle, which provides necessary information about the country, the topic, units or measures of currency, and the applicable time period(s) to which the data refers. With respect to rankings, it is possible that the summation of all categories amounts to more than 100%. In this case, multiple answers were possible, which is noted at the bottom of the chart.

Report Structure

- Reports are comprised of the following elements, in the following order: Cover page, preface, legal notice, methodology, definitions, table of contents, management summary (summarizing main information contained in each section of report) and report content (divided into sections and chapters). When available, we also include forecasts in our report content. These forecasts are not our own; they are published by reliable sources. Within Global and Regional reports, we include all major developed and emerging markets, ranked in order of importance by using evaluative criteria such as sales figures.

Notes and Currency Values

- If available, additional information about the data collection, for example the time of survey and number of people surveyed, is provided in the form of a note. In some cases, the note (also) contains additional information needed to fully understand the contents of the respective data.
- When providing information about amounts of money, local currencies are most often used. When referencing currency values in the Action Title, the EUR values are also provided in brackets. The conversions are made using the average currency exchange rate for the respective time period. Should the currency figure be in the future, the average exchange rate of the past 12 months is used.

TABLE OF CONTENTS (1 OF 2)

Sample Report

1. **Key Takeaways**
2. **Management Summary**
3. **AI Adoption Landscape & Regional Patterns**
 - 3.1. **Regional Adoption Benchmarks**
 - Middle East: Organizational AI Adoption Speeds, in % of Respondents, Oct–Dec 2024
 - Middle East: AI Implementation Levels by Business Function, in % of Respondents, Oct–Dec 2024
 - GCC & Middle East: Companies' GenAI Adoption, in % of Respondents, October–November 2024
 - GCC: GenAI Adoption by Business Function, in % of Respondents, May 2024
 - GCC & Mid. East: Expectations for Profit Impact of GenAI, in % of Resp. Anticipating Net Increase, Oct–Nov 2024
 - GCC & Mid. East: Net Increase from GenAI Adop. Across Five Business Metrics, in % of Resp., Oct–Dec 2024
 - 3.2. **Seller Segmentation & Barriers**
 - Middle East: Barriers to AI Development and Deployment, in % of Respondents, Oct–Dec 2024
 - Saudi Arabia & UAE: Barriers to Accelerating GenAI Adoption, in % of Organizations, August 2024
 - Middle East: Challenges in Attracting AI Talent by Country, in % of Respondents, Oct–Dec 2024
 - Middle East: Linguistic Barriers, Cloud Gaps, Talent Cost Pressures, and Regulatory Challenges, July 2025
 - Middle East: Budget Overruns, Financial Planning Deficits, and AI Project Termination Risks, July 2025
 - Saudi Arabia & UAE: Data-Related Barriers Slowing AI Adoption in Finance, in % of Org., August 2024
 - Saudi Arabia & UAE: Data-Related Barriers Slowing AI Adoption in Retail & Wholesale, in % of Org., Aug. 2024
 - Saudi Arabia & UAE: Data-Related Barriers Slowing AI Adoption in Hospitality & Accommodation, in % of Org., August 2024
 - Saudi Arabia & UAE: Data-Related Barriers Slowing AI Adoption in Media, Entertainment & Gaming, in % of Org., August 2024
 - Saudi Arabia & UAE: Data-Related Barriers Slowing AI Adoption in Government, in % of Org., August 2024

TABLE OF CONTENTS (2 OF 2)

Sample Report

3.3. Regional Country Deep Dive

- Saudi Arabia: GenAI Readiness, Infrastructure Scale-Up, and Sector-Specific Application Rollout, July 2025
- Saudi Arabia: Leading GenAI Use Cases by Application Type, in % of Respondents, Oct-Dec 2024
- Saudi Arabia: GenAI Risks in Data, Labor, Society, Sovereignty, and AI Integrity, July 2025
- UAE: Leading GenAI Use Cases by Application Type, in % of Respondents, Oct-Dec 2024
- UAE: AI Integration Across Aviation, Retail, Financial Services, Logistics, and Telecommunications, July 2025
- UAE: AI-Driven Operational Scaling, Analytics Deployment, and Capability Development, July 2025
- UAE: AI Talent Development via Youth Initiatives, Workforce Reskilling, and Institutional Support, July 2025
- UAE: Strategic Partnerships, Scalable Infrastructure, and Innovation in National AI Landscape, July 2025
- UAE: Centennial 2071 Vision, Interagency AI Execution, and Adaptive Digital Regulation, July 2025
- Qatar: AI Market Value, in QAR billions, 2024e & 2030f
- Qatar: AI Investments, Localized Language Tools, Urban Tech Initiatives, and SME Support, July 2025
- Qatar: Leading GenAI Use Cases by Application Type, in % of Respondents, Oct-Dec 2024

4. Functional Use Cases & Economic Impact

4.1. E-Commerce Seller Operations

- Middle East: GenAI Efficiency, Cloud-Enabled Scalability, and Data Localization Compliance, July 2025
- Middle East: Top AI Applications in Daily Operational Use, in % of Respondents, Oct-Dec 2024

4.2. Payments & FinTech Use Cases

- MENA: AI-Driven Personalization, Risk Management, and National Investment in Financial Services, July 2025
- MENA: AI-Driven Personalization, Risk, Fraud Detection, and Compliance in Financial Services, July 2025
- Middle East: GenAI in Fraud Detection, Risk, Customer Engagement, and Financial Automation, July 2025
- Middle East: GenAI Automation, Service Gains, and Talent Gaps in Financial Sector Strategy, July 2025
- Saudi Arabia & UAE: Current & Future Gen AI Investment Plans by Business Function, in % of Org., Aug. 2024
- Saudi Arabia & UAE: Gen AI Investment Allocation, in % of Organizations, August 2024

TABLE OF CONTENTS (3 OF 3)

Sample Report

5. Risk Management, Trust & Security

5.1. Fraud & Threat Trends

- GCC: Top Risks of Generative AI Adoption, in % of Respondents, Aug–Sep 2024
- Middle East: AI-Related Operational Threat Levels by Country, in % of Respondents, Oct–Dec 2024

5.2. Detection Tools & Risk Models

- Middle East: AI-Powered Financial Threat Detection, TPRM Pilots, and Infrastructure Security, July 2025
- Middle East: AI Risk Management Measures, in % of Respondents, Oct–Dec 2024

5.3 Trust & Readiness

- Middle East: AI Preparedness Levels by Organizational Areas, in % of Respondents, Oct–Dec 2024
- Saudi Arabia & UAE: Availability Status of Responsible AI Policies, in % of Respondents, August 2024

5.4. Regulation & Compliance

- Middle East: AI Value Measurement Practices by Country, in % of Respondents, Oct–Dec 2024
- MENA: AI Regulation in Finance via Ethics Principles, Data Laws, and Innovation Sandboxes, July 2025

6. Competitive Landscape & Strategic AI Movement

6.1. Market Scale & Activity

- MENA: AI-Driven IT Spending Growth, in USD billions, 2024 & 2025f
- META: AI Spending and Growth Outlook, in USD Billions, 2024 & 2028f
- MENA: Projected GDP Share from AI vs. Other Sources, in % of Total GDP, 2030e

6.2. Strategic Moves by Key Players

- Middle East: GenAI Integration, Arabic LLM Growth, Sector Adoption, and Enterprise AI Strategy, July 2025
- Saudi Arabia & UAE: Most Strategic GenAI Technology Partners by Type, in % of Respondents, Aug 2024

TABLE OF CONTENTS (4 OF 10)

Sample Report**7. AI Governance, Regulation & Innovation Enablers****7.1. Public & Private Sector AI Initiatives**

- GCC: GenAI Economic Impact, Top Use Cases, Strategic Enablers, and Deployment Barriers, July 2025
- Saudi Arabia & UAE: Awareness of Key Government-Led AI Initiatives, in % of Respondents, Aug 2024

7.2. Regional AI Innovation Frameworks

- Middle East: Data Capability Enhancements for AI, in % of Respondents, Oct–Dec 2024
- GCC: AI Strategies, Infrastructure Development, and Capability Gaps by Maturity Segment, July 2025
- GCC: Country-Level AI Progress in Investment, Infrastructure, and Capability Building, July 2025
- Saudi Arabia & UAE: AI Investment Priorities by Value Chain Segment, in % of Respondents, Aug 2024
