

A high-angle, top-down photograph of a person sitting on a lush green lawn. The person's legs, wearing blue jeans and dark sneakers with white laces, are visible. A silver laptop is open on their lap, and their hands are positioned on the keyboard. The background is a dense field of green grass. The top of the image features a horizontal bar with three colored segments: green, dark blue, and light blue.

With the prevalence of non-vetted internet content, now it is more important than ever for researchers to have access to reliable scholarly, peer-reviewed information.

Academic Search Ultimate

Unparalleled Journal Content

With thousands of peer-reviewed journals, Academic Search Ultimate is the most valuable multidisciplinary full-text journal database in the world. Providing the top journals in each field of study, it meets the needs of all students, in every discipline. In addition, it provides Ahead of Print content from key publishers.

Academic Search Ultimate at a Glance:

- **3,800 +** active full-text, non-open access journals and magazines
- **3,300 +** active full-text, peer-reviewed, non-open access journals
- **1,290 +** active full-text, peer-reviewed, non-open access journals with no embargo
- **2,590 +** active full-text, non-open access journals indexed in Web of Science or Scopus
- **1,396 +** journals with searchable cited references

Subjects Covered:

- Anthropology
- Astronomy
- Biology
- Chemistry
- Engineering
- Ethnic and multicultural studies
- Geography
- Law
- Mathematics
- Pharmaceutical sciences
- Physics
- Psychology
- Religion and philosophy
- Science and technology
- Veterinary science
- Women's studies
- Zoology
- And more

APA PsycArticles®

Delve into the science of psychology and behavior with APA PsycArticles, the database of full-text peer-reviewed articles published by APA and affiliated journals. This essential collection from the foremost publisher in psychology provides access to the full spectrum of research in the field — from cutting-edge research from preeminent scholars to the historical underpinnings of the behavioral and social sciences. With current journal coverage and historical content dating back more than a century, APA PsycArticles is an indispensable resource for researchers, educators, clinicians, and students.

APA PsycArticles at a Glance:

- Bi-weekly updates
- Journals published by the APA, the Canadian Psychological Association, the Hogrefe Publishing Group, the Global Alliance for Behavioral Health and Social Justice, and more.
- More than 223,000 full-text articles from nearly 120 journals, each employing a meticulous peer-review process.
- Coverage for most journals dating back from Volume 1, Issue 1
- Articles in PDF or HTML formats for easy navigation and downloading
- Recent updates have been made to the APA Thesaurus of Psychological Index Terms® to enhance search and discoverability by providing more than 9,900 terms that reflect changes within the behavioral and social sciences

Subjects Covered:

- Addiction
- Applied Psychology
- Clinical Psychology
- Cognition and Memory
- Developmental Psychology
- Experimental Psychology
- Gender and Sexual Orientation
- Health Psychology
- Methodology
- Psychopharmacology
- Social Psychology
- Violence and Trauma

For more information:

APA PsycBooks®

Significant in scope and depth, APA PsycBooks offers the most current and only comprehensive collection of full-text scholarly and professional books published by APA. Providing a pathway through the evolution of psychological thought, APA PsycBooks gives students, researchers and educators access to high-quality, DRM-free publications in psychology and related fields.

APA PsycBooks at a Glance:

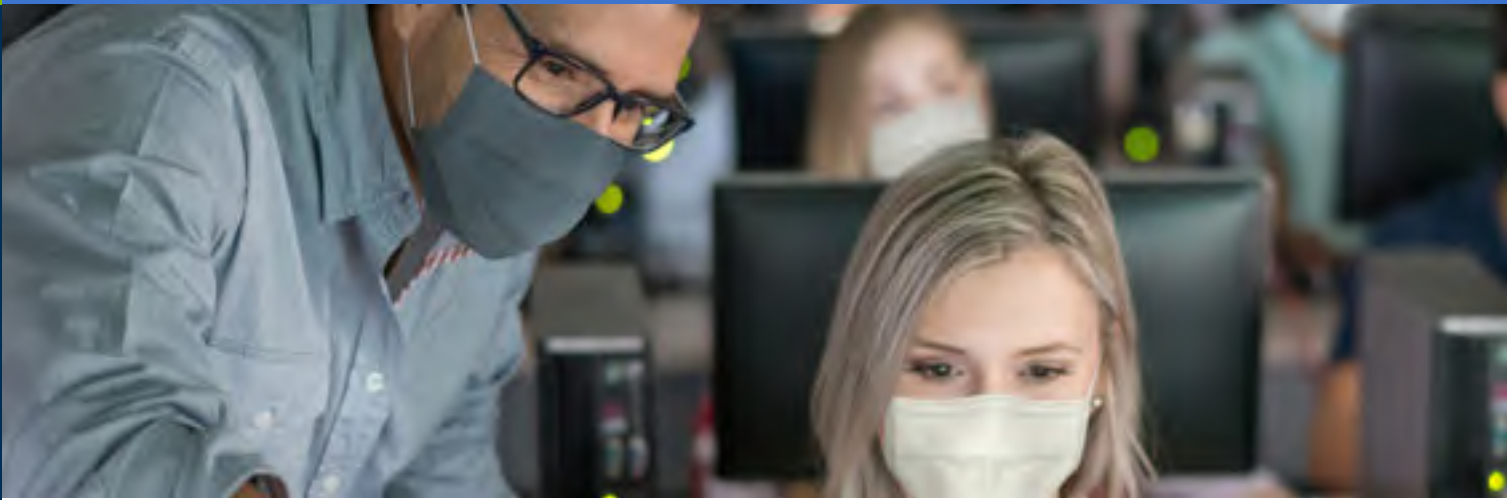

- Monthly updates
- More than 67,000 book chapters and more than 4,500 peer-reviewed books
- Recent and historical titles, with the earliest record from 1620
- The newest APA books as they are published
- The entire reference book series APA Handbooks in Psychology®
- Exclusive electronic release of APA/Oxford University Press Encyclopedia of Psychology

Subjects Covered:

- Behavior Disorders
- Cognitive Processes
- Developmental Psychology
- Educational Psychology
- Experimental and Comparative Psychology
- History and Systems
- Industrial and Organizational Psychology
- Mental Health Treatment and Prevention
- Neuroscience
- Personality Psychology
- Philosophy
- Psychotherapy and Counseling
- Religion
- Social Processes and Social Issues

For more information:

Centered on psychology and the behavioral and social sciences, the interdisciplinary content in APA PsycInfo makes it one of the most highly utilized databases by students, researchers, educators and practitioners worldwide, and an indispensable tool for the discovery of global scholarly research. With thousands of expertly indexed records added each week, this ever-expanding collection of behavioral and social science research, dissertations and scholarly literature abstracts offers a broad view of the field. With relevance to a host of related disciplines, including neuroscience, business, nursing, law and education, APA PsycInfo delivers results with remarkable precision and a dedication to scholarly and scientific excellence.

APA PsycInfo at a Glance:

- Weekly updates
- More than 5 million bibliographic records
- 2,200 indexed and abstracted peer-reviewed journals
- Coverage from 1596-present, with comprehensive coverage from the 1800s
- Authored and edited books and book chapters
- Dissertations selected from Dissertation Abstracts International (Sections A and B)
- Publications from more than 50 countries
- Journals published in 29 languages

For more information:

APA PsycTests®

This database is an authoritative source of structured information about tests of interest to a variety of fields. Produced by the American Psychological Association, it provides access to thousands of actual test instruments, most of which are available for immediate download and use in teaching and research.

APA PsycTests at a Glance:

- Monthly updates
- More than 61,000 records
- Research instruments available as PDF downloads or multimedia files
- Select measurements available in more than 40 languages
- Coverage spanning more than 100 years, with a strong emphasis on current research instruments
- Now includes new descriptive fields, including Methodology, Test Language, and Factors/Subscales, as well as a list of Source Citations for records with corresponding APA PsycInfo and APA PsycExtra records

For more information:

APA PsycTherapy®

APA's streaming video platform provides clinicians, counselors, instructors, and trainees the opportunity to sharpen their skills by observing candid, unscripted psychotherapy sessions featuring renowned therapists. This proven training method is an invaluable tool for learning and remaining abreast of the latest psychotherapy techniques.

APA PsycTherapy at a Glance:

- More than 560 videos showcasing therapeutic approaches in authentic therapy sessions
- More than 150 therapy approaches covered, and more than 300 topics
- Proven methods showcasing common obstacles faced during therapy sessions
- Helpful tools that allow users to create playlists and share video clips
- Expertly tagged metadata for easy navigation to specific therapeutic techniques
- Synchronized transcripts which allow users to search for precise moments in therapy
- APA PsycTherapy's Teaching Guide provides step-by-step exercises and suggested videos for the classroom and other training settings
- APA provides a toolkit of quick tutorials to help users:

Applied Science & Technology Source Ultimate

To give students the ultimate research experience, this database includes hundreds of full-text journals from leading citation indexes. It also includes hundreds of scholarly full-text journals cited in key subject indexes of essential science, technology and engineering journals to deliver the latest information about trends, advancements and innovations in the STEM discipline.

Subjects Covered:

- Aerospace
- Agricultural engineering
- Artificial intelligence
- Chemical engineering
- Computer science
- Energy resources
- Genetics
- Hydroponics
- Mechanical engineering
- Pharmacology
- Robotics
- Software development

Applied Science & Technology Source Ultimate at a Glance:

- **680 +** active full text, non-open access journals and magazines
- **530 +** active full text, peer-reviewed, non-open access journals
- **270 +** active full text, peer-reviewed, non-open access journals with no embargo
- **390 +** active full text, non-open access journals indexed in Web of Science or Scopus

- Government regulations
- History of economic thought
- Industrial organization
- International economics
- Macroeconomics
- Microeconomics
- Monetary theory
- Public economies
- And many more

For more information:

Education Source Ultimate

Education Source Ultimate is the world's largest and most comprehensive full-text research database designed for education students, researchers, professionals, and policymakers. Coverage of education studies spans all levels of education and includes educational specialties ranging from educational assessment and education ethics to educational technology, literacy, research methodology and more.

Education Source Ultimate at a Glance:

- 2,000 + active full-text journals and magazines
- 1,800 + active full-text, peer-reviewed journals
- 1,450 + active full-text, peer-reviewed journals with no embargo
- 5,000 + full-text education-related conference papers
- 400 + videos from SimpleK12 to provide practical online teacher training

Subjects Covered:

- Adult, career, and vocational education
- Assessment and evaluation
- Continuing education
- Disabilities and gifted education
- Educational management
- Elementary and early childhood education
- Higher education
- History of education
- Information and technology
- Language and linguistics
- Literacy standards
- Math education
- Multicultural/ethnic education
- Music education
- Reading and communication
- School administration
- Science education
- Special education
- Teacher evaluation
- Teachers and teacher education
- Teaching methods
- Urban education

For more information:

Engineering Source

Engineering Source is the premier database for professionals and researchers across all engineering disciplines, including biomedical, civil, electrical, mechanical, environmental and software. It includes hundreds of full-text engineering journals, magazines and trade publications, plus books, conference papers and more.

Subjects Covered:

- Aerospace
- Biomedical
- Civil
- Electrical
- Environmental
- Mechanical
- Software
- Structural
- And many more

Engineering Source at a Glance:

- 1,500 + full-text journals, magazines and trade publications
- 2,950 + indexed and abstracted publications
- Engineering-focused monographs, books, conference papers and proceedings

For more information:

Environment Complete

Environment Complete is a leading full-text database for environmental studies. It provides hundreds of top journals covering ecosystem ecology, energy, environmental policy, sustainability and other related subjects. Many of the journals included in this database are the most used journals in the discipline.

Environment Complete at a Glance:

- 830 + active full-text journals and magazines
- 730 + active full-text, peer-reviewed journals
- 410 + active full-text, peer-reviewed journals with no embargo
- 600 + active full-text journals not available in any version of Academic Search
- 750 + journals with searchable cited references
- 1,490 + active indexed and abstracted journals

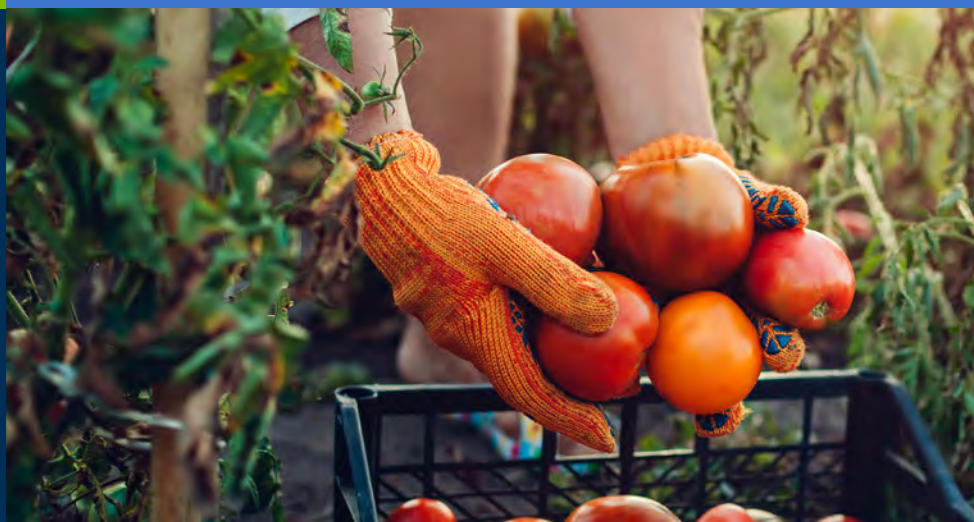

Subjects Covered:

- Ecosystem ecology
- Energy
- Environmental law
- Environmental policy
- Environmental technology
- Geography
- Marine and freshwater science
- Natural resources
- Pollution and waste management
- Renewable energy sources
- Social impact of the environment
- Urban planning

For more information:

Food Science Source

Food Science Source is an extensive full-text database designed to support the research needs of the food industry. It provides hundreds of full-text journals, monographs, magazines and trade publications, plus a wealth of food industry and market reports. Subjects include food processing, safety, service, shipping and innovation.

Food Science Source at a Glance:

- 750 + full-text journals, magazines and trade publications
- 910 + indexed and abstracted journals and magazines
- Quick access to critical information, including complete full text with images, tables, charts and other graphical content from many key titles
- Benchmarks and best practices, providing examples of food science-related practices and developments from a worldwide range of industry players

Subjects Covered:

- Agribusiness
- Biochemistry
- Biotechnology
- Consumer Behavior & Theory
- Epidemiology
- Exportation & Importation
- Food and Beverage Science
- Food Industry
- Food Packaging
- Food Processing
- Food Safety
- Food Service
- Food Shipping
- Food/Culinary Innovation
- Food-related Product Development
- Metabolism
- Microbiology
- Nutrition Science
- Plant Genetics
- Sustainable Development

For more information:

FSTA with Full Text

Subjects Covered:

- Biotechnology
- Food safety
- Omics technologies
- Pet foods
- Sport science
- Sustainability
- And many more

FSTA with Full Text is a specialized full-text database covering scientific and technological literature relating to food, beverages and nutrition. It is produced in collaboration with a team of experts within IFIS, a not-for-profit organization with an ongoing commitment to learning and development and a reputation for scientific integrity, accuracy and excellence.

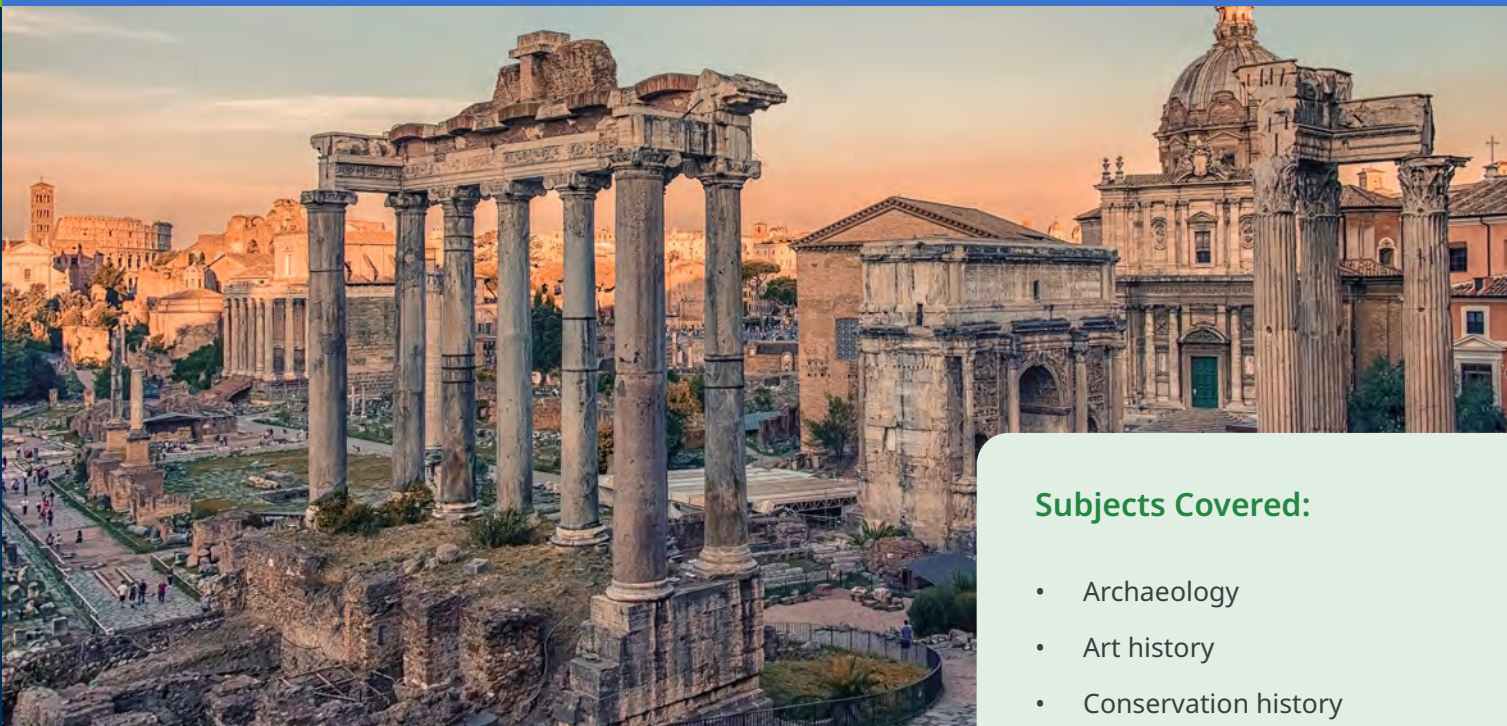

FSTA with Full Text at a Glance:

- 250 + active full-text journals
- 180 + active full-text journals with no embargo
- 190 + active full-text journals not available via any version of Academic Search
- 130 + active full-text journals with no embargo not available via any version of Academic Search

For more information:

Historical Abstracts with Full Text

Historical Abstracts with Full Text is the definitive full-text database covering world history (excluding the United States and Canada) and provides history scholars with an unmatched depth of historical and social science content. It provides access to hundreds of history journals and books and also allows researchers to search for content by time period.

Historical Abstracts with Full Text at a Glance:

- 490 + active full-text journals and magazines
- 470 + active full-text, peer-reviewed journals
- 350 + active full-text, peer-reviewed journals with no embargo
- 490 + journals with searchable cited references
- 1,700 + active indexed and abstracted journals
- 420 + active full-text journals not available in any version of Academic Search

Subjects Covered:

- Archaeology
- Art history
- Conservation history
- Cultural history
- Economic history

Library Technology & Discovery

Advanced technology solutions ensure that students, researchers, and faculty can access your library's materials easily, whether they are on campus or online.

EBSCO Discovery Service

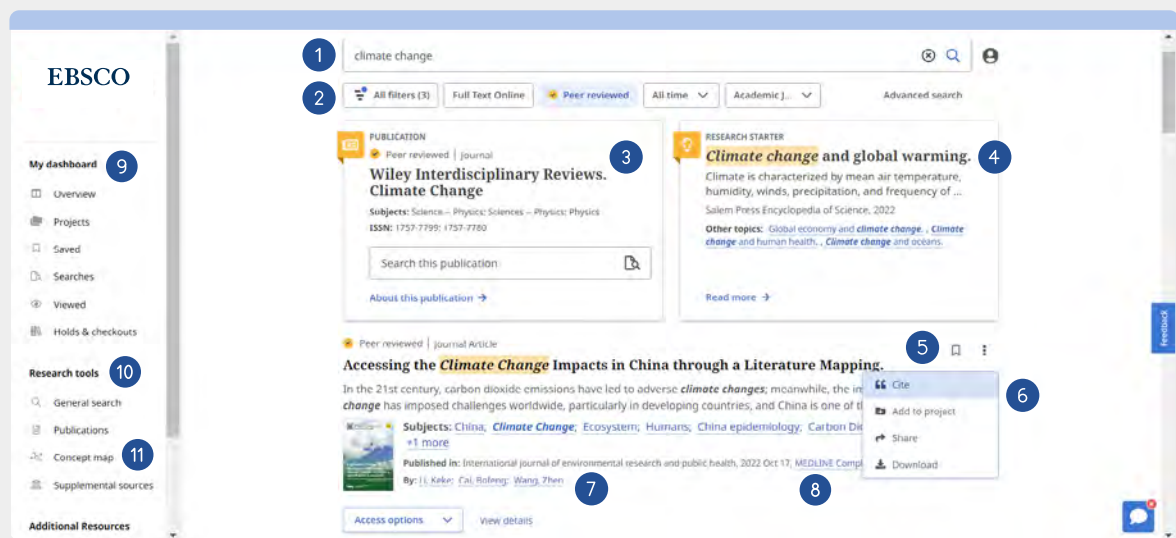

What is EBSCO Discovery Service?

EBSCO Discovery Service offers a unique search experience of everything the library offers including electronic resources, the library catalog, databases, e-journals, e-books, and more.

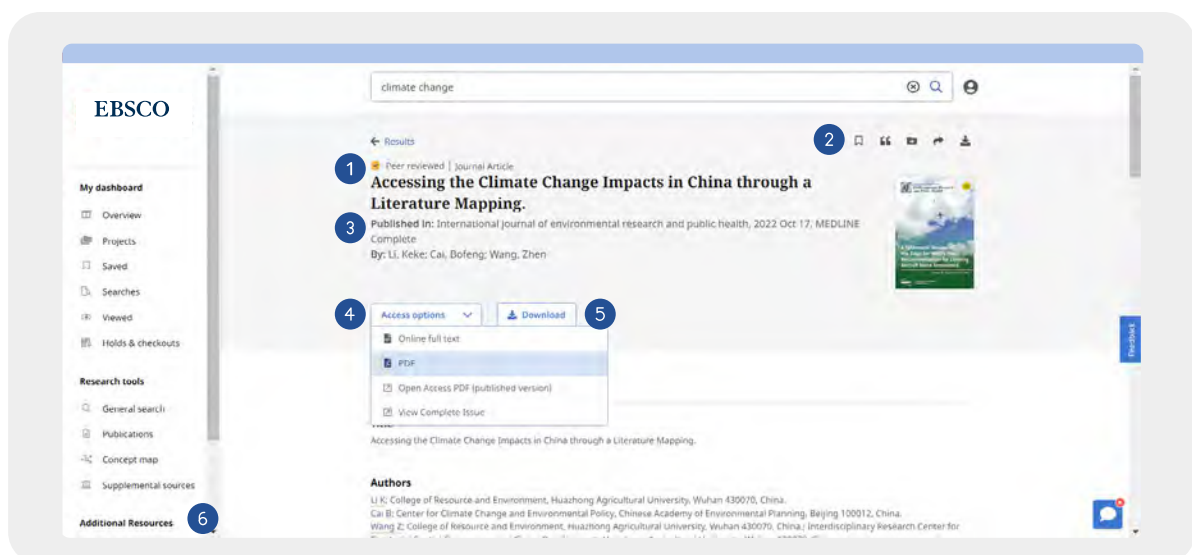

Start your research with EBSCO Discovery Service. Simply enter your keyword, topic, or citation into the single search box and see relevant results.

EBSCO Discovery Service allows you to:

- **Filter resources**
- **Save items or searches**
- **Access e-books**
- **Organize resources by project**
- **Enable advanced searching**
- **And more...**

- ① **Search Bar:** Enter your term or topic to search all the library offers
- ② **Quick Filters:** Refine a search without navigating away from results, this includes resources that have been peer-reviewed. Filters can be expanded to limit to type of resource, publisher, publication and more.
- ③ **Matching Publication:** Publications with titles that match your search. Ability to search directly in publication
- ④ **Research Starter:** Available for the most popular topics, Research Starter provides quick access to an overview article and links users to related information and detailed bibliographies.
- ⑤ **Save Item:** Save articles to your dashboard
- ⑥ **Export:** Ability to export the article through a variety of methods
- ⑦ **Related Subjects:** Explore related subjects through hyperlinks
- ⑧ **Hyperlinked Database:** Select link to conduct research in a specific database
- ⑨ **My Dashboard:** Login to save articles, view search history, review checkouts and holds and organize resources by project
- ⑩ **Research Tools:** Access journal publications and additional sources
- ⑪ **Concept Map:** A visual browse of subjects and related subjects

- ① **Peer Reviewed Indicator:** Indicates a peer-reviewed article
- ② **Article Export:** Save, cite, share or download article
- ③ **Publisher Information:** Denotes Journal Title, Date and Database (if applicable)
- ④ **Access Options:** Ability to view via PDF or other methods
- ⑤ **Download Option**
- ⑥ **Additional Information:** Includes title of article, authors, abstract, etc.

FOLIO is an open-source library services platform that includes core library management functionality and is built on a modern architecture to ensure continuous innovation. It supports the integration of applications from third-party providers and provides improved features and workflows versus legacy systems. The new model for building FOLIO is based on librarian input and collaboration

Built for innovation

By using an open-source microservices architecture, the FOLIO platform allows for the development and enhancement of apps by different teams from different libraries or service providers. The library and/or third-party developers can add new or enhanced functionality to existing apps such as circulation, acquisitions or cataloging, leveraging the EBSCO FOLIO framework.

Open throughout

The FOLIO platform is interoperable and includes APIs to support external functions providing the library more control over the systems and services that it will use now and in the future. APIs in FOLIO are open for use by service providers of the library's choosing.

Community-based

FOLIO is community-based, developed as an open source platform for and by librarians. Anyone can participate in the FOLIO community at a level of their choosing by simply following FOLIO updates, commenting on FOLIO developments, joining a Special Interest Group (SIG) to share functional expertise, contributing developers, or working with EBSCO for all your EBSCO FOLIO needs.

EBSCO FOLIO offers best-in-class implementation, hosting and support services for libraries who want to use the open-source platform but don't have the resources to do it on their own.

✓ **Implementation**

Our Implementation Consultants and Library Services Engineers take care of implementing the FOLIO LSP from readiness assessment to go-live. Our process covers data analysis, scripting and migration, workflow analysis, strategic and project planning, change management and organizational consulting and training. In addition, we integrate FOLIO with EBSCO services and third-party applications.

✓ **Hosting**

EBSCO hosts EBSCO FOLIO on Amazon Web Services (AWS) to deliver high availability and performance globally. We provide software updates and backups, monitoring and security. Our AWS-certified cloud engineers ensure a 'hardened' version of the FOLIO software by securing and improving the community-released code.

✓ **Support and Training**

EBSCO and its partners provide global and local support in your language and time zone. Our support services include ongoing testing and release procedures for new versions of the FOLIO software. You'll also gain access to a dedicated online community and customer forums. EBSCO offers a completely customizable training program tailored to the needs of your library.

✓ **Integrations and value-added functionality**

Our implementation services cover a multitude of third-party integrations and EBSCO value-added functionality. These may include acquisitions, circulations, collections, repositories and archival system, authentication, ordering platforms, discovery and more.

★ Industry Standards

FOLIO is based on industry standards such as OAI-PMH, SIP2, NCIP, Unicode and support for Shibboleth.

EBSCO goes beyond any vendor for hosting services. EBSCO hosts FOLIO on Amazon Web Service (AWS) which provides a robust and reliable infrastructure and provides a guaranteed uptime of 99.95%.

[EBSCO FOLIO is ISO 27001 compliant.](#) This certification ensures protection against network vulnerability and ensures that your data is secure.

[FOLIO Electronic Resource Management \(ERM\)](#)

Manage the entire lifecycle of your electronic resources in FOLIO with EBSCO FOLIO Electronic Resource Management (ERM). EBSCO FOLIO ERM integrates with the EBSCO Knowledge Base to remove manual entry and duplication of work.

A modern, time-saving platform

More usage

Link resolvers, discovery and your OPAC are automatically updated so your users can find and use your e-resources right away.

Less strain on staff

Automatic updating of access rights and permissions means less strain on reference and licensing staff.

Easier renewals

Instant analysis of usage, cost-per-use, year-over-year trends makes renewal decisions easier.

For more information:

BiblioGraph

Make library data portable and visible with BiblioGraph

EBSCO BiblioGraph enhances the portability, visibility, and value of your library's catalog. Users can now explore, use, and access your catalog from anywhere on the web. By leveraging BIBFRAME and Linked Data, BiblioGraph connects library resources within a graph, enriches resources with data from authoritative sources, and enables the publishing of library resources on any website.

Features:

- Transforms MARC catalogs to BIBFRAME for easy sharing on the web
- Share embeddable views of your data, like popular list and hot topics
- Statistics dashboard to view how people are accessing your catalog

For more information:

BiblioGraph

How BiblioGraph Works

Living lists

Curate lists of items such as e-books, print books, audio materials and other formats. Lists can be by and about authors, on any topic, time, place and more. Lists bring people directly into the catalog and are automatically updated as your catalog evolves.

Publish and share

Publish your catalog on the open web. Anyone can use your resources from websites or applications, and all links lead back to the library. Embed resources on websites, create custom lists to share for courses, reading groups and more. Also share your resources via email or social media.

Network connections

With BiblioGraph, your library joins a network that connects your enriched resources to thousands of other graphs. See what your library holds and what is missing from your catalog.

Embedded data

Embed and share living lists on any website including the Learning Management System, IR, department website, LibGuides, and many more. Embedded data describes what the library offers, creating new pathways into your collections.

For more information:

OpenAthens

Simplify access to your library's resources

OpenAthens provides modern single sign-on (SSO) technology and a better IP/Proxy experience. Offer easy online access to all library resources.

Benefits:

- Simplifies the user's journey
- Increases e-resource usage
- Remote access to resources
- Integrates with the directory IT already manages
- Allows easy management of authentication settings to subscriptions in one dashboard
- Usage reports help librarians make informed resource investments
- Share embeddable views of your data, like popular list and hot topics
- Statistics dashboard to view how people are accessing your catalog

For more information:

Stacks

The New Library Experience

Stacks makes it easy for academic libraries to design and build world-class library website experiences for students, alumni, faculty, and researchers by spending time focusing on curating the right content, resources, and services without needing to learn how to code or relying on outside teams to make updates.

Support Student Learning & Instruction

Stacks helps school libraries create appropriate experiences for students and faculty, ensuring access to relevant learning resources that contribute to student achievement.

Ease of Administration

No need for web-savvy staff! Stacks provides user-friendly drag-and-drop layouts and tools designed by librarians for librarians, making administration tasks a breeze and experiences engaging for your users.

Accessible & Responsive

Stacks takes care of the accessibility and responsiveness of the content you create. Our platform is designed to support both by default, ensuring an inclusive experience for all users.

Integrations Made Easy

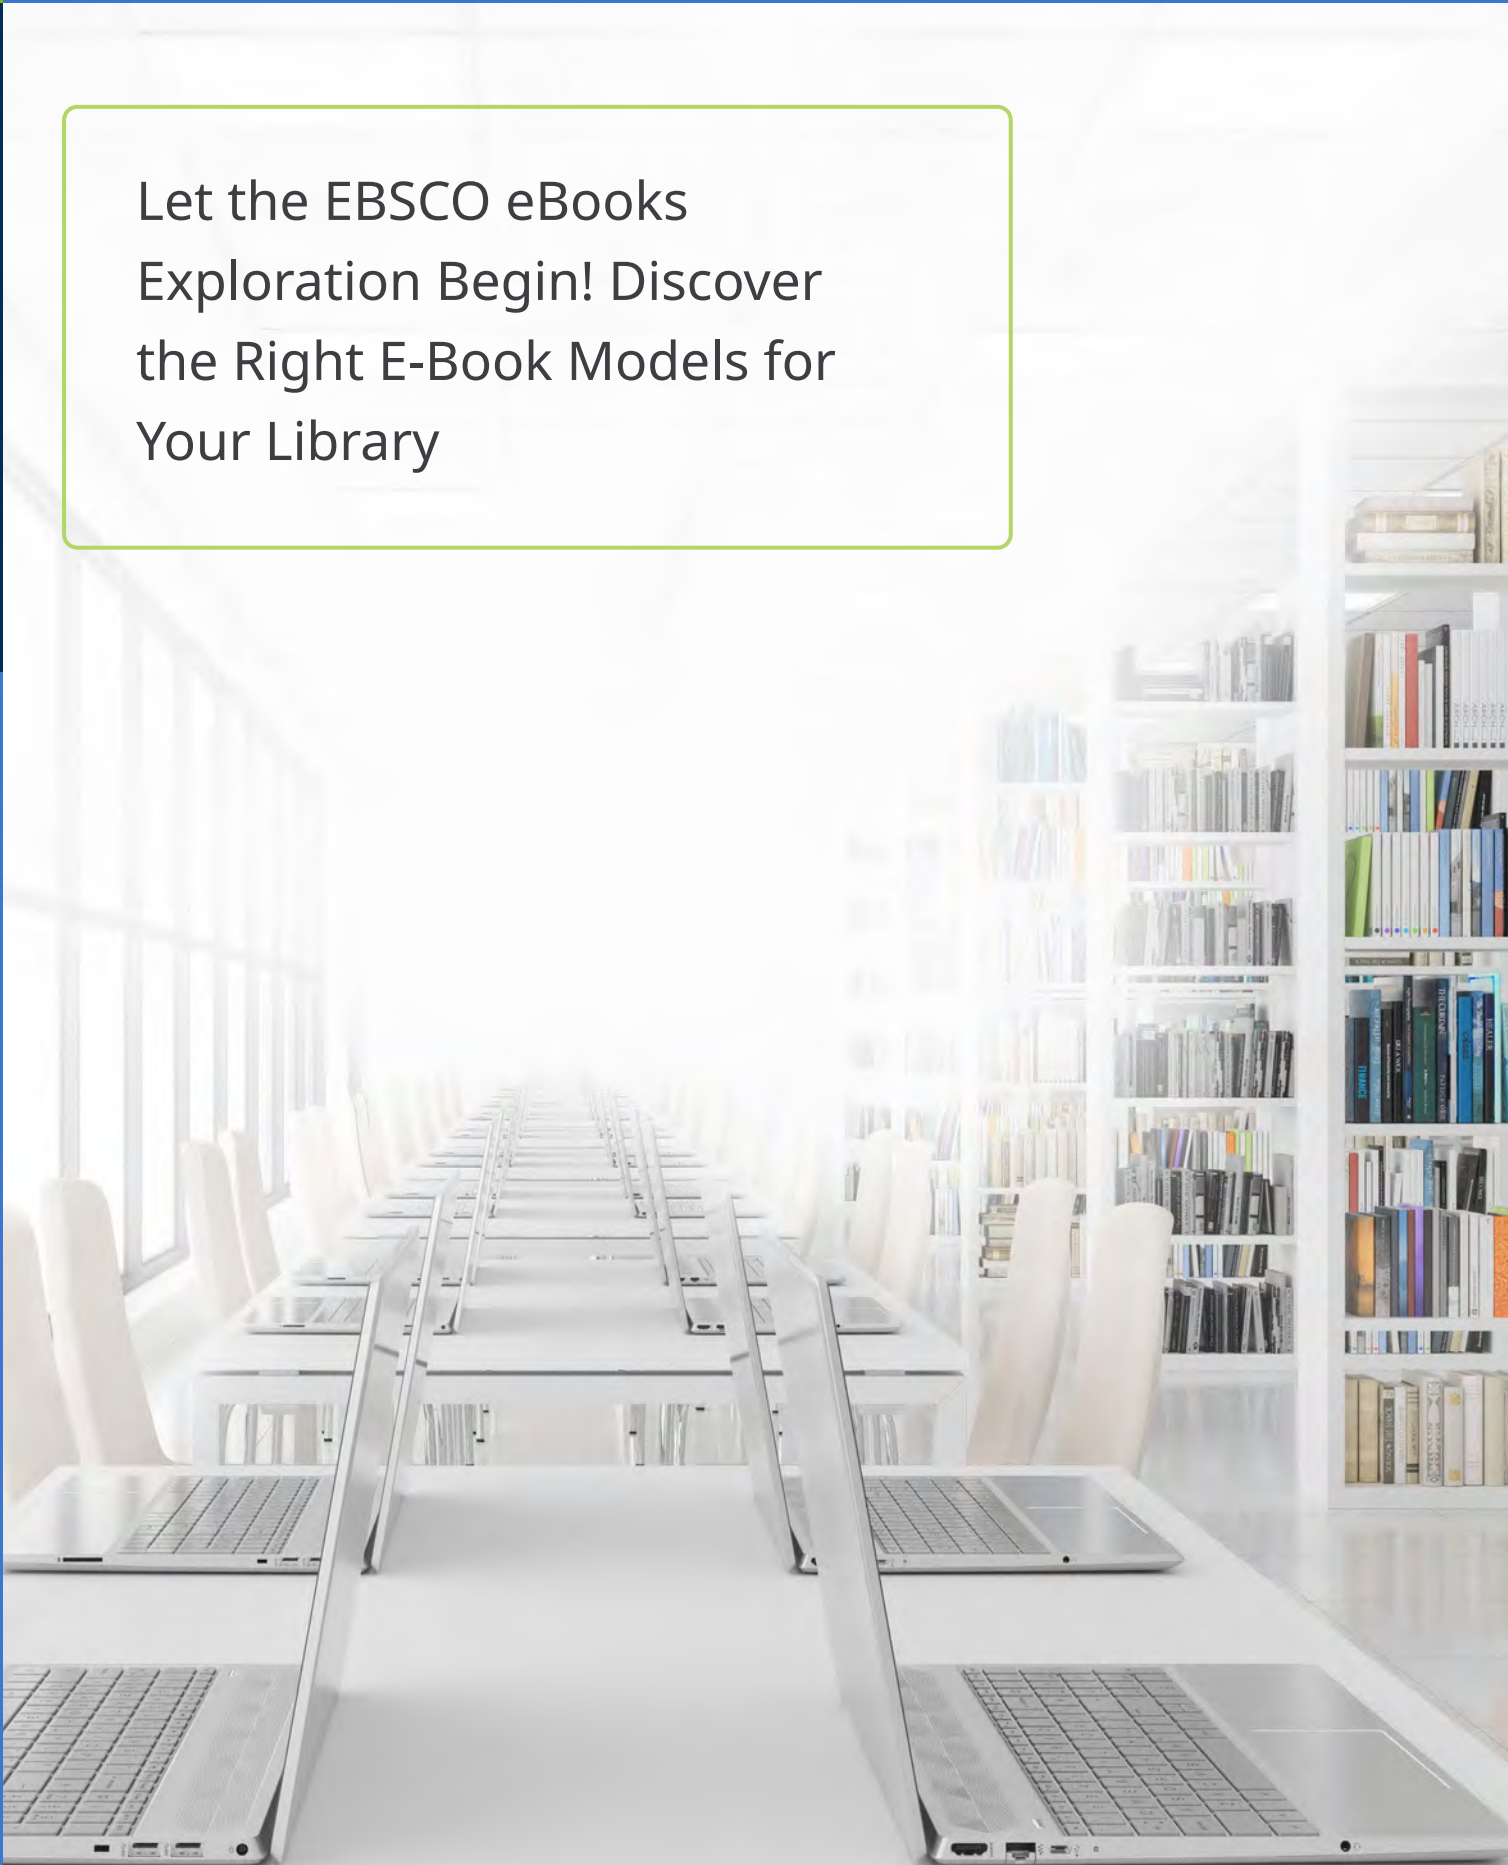

Connect all your library's content and technology effortlessly. Stacks offers pre-built integrations with major Integrated Library Systems (ILSs) and numerous content providers, including your favorite e-book and magazine vendors. Take advantage of these connections without requiring special technical expertise.

eBooks Featured Collections

Popular Path to E-Book Ownership of Complete Collections

Purchase as complete collections or title-by-title. [See Ordering Options](#)

When the demand for access to a large quantity of e-books across a wide-range of topics is high, a perpetual collection is a smart choice. These sizeable e-book collections are suitable for institutions looking to select from and own hundreds of e-book options in categories such as award winners, new releases and DRM-free titles.

Considerations:

- Access model availability is determined by e-book publishers
- E-book ownership ensures your library has access to titles in perpetuity. For broader access to a wide range of titles across disciplines, consider [Subscription Options](#)
- Acquire as complete collections or browse title-by-title in EBSCOhost® *Collection Manager* (ECM) - [See Ordering Options](#)
- Featured collections are also available in GOBI® - [See Ordering Options](#)

Benefits of Featured Collections:

- Large collections of e-books across many topics curated by collection development librarians
- Guarantee access with this purchase-once-and-own-forever option
- High-quality e-book collections that include frontlist titles whenever possible
- Browse dozens of DRM-free e-book collections with unlimited user access

Popular Featured Collections:

- Antiracist Reading
- COVID-19 Collection
- Climate Change
- Diversity in the Workplace
- Doody's Special Topics - Telehealth
- DRM-Free - Diversity, Inclusion and Social Justice
- Homeschooling Resources
- K-8 African American History
- Multicultural Studies

eBooks Subject Sets

Reliable Passage to Ownership of Frontlist, Subject-Specific E-Books

Purchase as complete collections or title-by-title. [See Ordering Options](#)

With thousands of best-of and bestsellers lists available, it can be hard to select e-books that meet the needs of your entire library in a timely fashion. Subject sets offer libraries reputable collections that can be quickly viewed, easily purchased and accessible to students in minutes, while assuring quality coverage of important subject areas.

Considerations:

- New sets are released twice per year in August and February – [sign up](#) for the newsletter ECM Advisor for updates.
- Access model availability is determined by e-book publishers
- Acquire subject sets in EBSCOhost Collection Manager (ECM) - [See Ordering Options](#)
- Subject sets are also available as Spotlight Lists in GOBI - [See Ordering Options](#)

Benefits of Featured Collections:

- New and popular e-books on high-interest topics
- Highly curated collections assembled by EBSCO librarians
- Each set contains e-books published within the past two years with no duplication among current or past subject sets

Popular Subject Sets:

- American Contemporary Issues
- Accessibility & Disability Studies
- Education
- Emergency Management
- Energy & Green Technologies
- Epidemiology
- Fine Arts & Music
- Leadership & Management
- Library Science
- Public Health
- Urban Studies

eBooks Custom Collections

A Trail Crafted to Fit Your Library's Unique Needs

Looking for a unique e-book collection? Let EBSCO's dedicated team of collection development librarians help you create a custom collection of e-books to satisfy your library's distinctive e-book requirements. Give us your criteria, and our collection development experts will curate a collection of e-books for your library to consider.

Considerations:

- Access model availability is determined by e-book publishers
- EBSCO custom collections can only be requested through an [EBSCO representative](#)

Benefits of EBSCO eBooks Custom Collections:

- Unique collections of e-books curated specifically for your library by EBSCO collection development experts
- Choose from any combination of access models, from perpetual to DDA to Concurrent Access
- Drill down into niche topics that fit the unique research needs of your library users

Types of Custom Collections:

EBSCO recognizes the importance of aligning e-book collections to your library's goals and initiatives. Here are some examples of custom collections:

- Agribusiness
- Biblical Studies
- Global Supply Chain
- Inspiring Women
- Marriage and Family Therapy
- Medical Technology
- Nursing Examination Prep
- Oncology Nursing
- Pastoral Ministry
- Petroleum Engineering
- Tourism Marketing

eBooks DDA (Demand-Driven Acquisition)

Build a Pathway for Guaranteed Usage

Preserve your library's budget while maintaining control over the collection development process with the EBSCO Demand-Driven Acquisition (DDA) program.

How does it work? Create DDA title lists for your library on EBSCOhost Collection Manager (ECM) using specific criteria, and then expose the bibliographic records to end users without purchasing the titles. A title on the DDA list is triggered for purchase when a user directly accesses the title, guaranteeing that only those titles with meaningful use are purchased.

Considerations:

- Best used as a complement to your library's collection and not as a substitute for purchased or leased books
- Access model availability is determined by e-book publishers
- DDA collections are a convenient self-service option that can be managed through ECM and GOBI.

Benefits of EBSCO eBooks Custom Collections:

- Easy option to maintain control over the acquisition of specific EBSCO eBooks
- Develop a collection of e-books with guaranteed usage based on research needs of your library's audience
- Users can easily discover titles by browsing or searching your library's e-book collection

Types of DDAs:

- For purchase
- For short-term loan (STL)
- For a designated number of STLs, followed by a purchase
- A combination of purchase and STL
