

LearningSpace

A comprehensive solution
for simulation education

LearningSpace

**Vital center management solutions for
making healthcare safer**

A high-quality debriefing session following a simulated emergency scenario or clinical event is known to improve learning and retention. In any high-stakes scenario, participants may not remember all of their behaviors, decisions and interactions. Today, most simulation programs record scenarios to enhance debriefing and improve performance assessment. The use of audiovisual (AV) solutions is growing in clinical settings as well.

A COMPREHENSIVE SOLUTION FOR SIMULATION MANAGEMENT

Gain a 360-degree view of your simulation training environment, learner performance and educational outcomes.

LearningSpace is a proven center management solution for performance improvement in training environments, with effective video-driven performance assessment. Capture stunning HD recording in real time, allowing facilitators to debrief anytime and anywhere to improve technical and non-technical skills and facilitate self-reflection.

LearningSpace Advantages

Web-based

Record, annotate and assess in any room, on any device and from anywhere with no need for separate user licenses.

Eliminate downtime with remote system monitoring, troubleshooting, regular backups and software updates.

Plug-in free

LearningSpace is a complete, self-contained solution. There is no need to install additional third-party software or plug-ins to effectively use our video debriefing tools to capture data, assess learners or manage your center.

Secure

With state-of-the art web technology, LearningSpace helps you protect privacy and data. Ensure protection for your institution with centralized authentication for all users, password sign-on and encryption of all captured data and recording.

Scalable

With one scalable platform for healthcare education and universal hardware configurations, LearningSpace grows with your center without requiring replacement equipment. Simply add rooms, features, and even linked simulation centers as your program grows.

Best in Class – Help Site

A comprehensive database created to provide immediate assistance to LearningSpace users, whether looking for the answer to specific, pressing questions or just exploring the possibilities of LearningSpace to find new, time-saving shortcuts.

LearningSpace Software Options

LEARNINGSPEACE ESSENTIALS is a streamlined system with integrated curriculum and assessment Preloaded with Healthcare Academy curriculum.

Checklist and scenario authoring tools for real-time assessment. Use predesigned reports or customize your own with only the data you want.

LEARNINGSPEACE ENTERPRISE is a comprehensive audiovisual and center management solution. Advanced tools for automated recording, robust scheduling and reporting, assessment, inventory and OSCE testing. Manage both simulation and Standardized Patient training.

KEY FEATURES	ESSENTIALS	ENTERPRISE
Video annotation, live or post	✓	✓
Built-in intercom	✓	✓
Center monitoring	✓	✓
Simple video sharing	✓	✓
Record and debrief	✓	✓
Virtualized or cloud-based deployment available	✓	✓
Basic reporting	✓	✓
Student assessment	✓	✓
Calendar and scheduling	✓	✓
Preloaded learning modules/content	✓	✗
Scenario authoring	✓	✗
Send-to-screen content	✓	✓
Maestro simulator control	✓	✓
Video upload for faculty	✓	✓
Video upload for learners	✗	✓
Resource tracking	✗	✓
Inventory management	✗	✓
In-depth content building	✗	✓
Advanced/customizable reports	✗	✓
OSCE management (live & virtual)	✗	✓
Advanced scheduling	✗	✓
SP administration	✗	✓
Virtual room (integrated teleconferencing)	✗	✓

LearningSpace Hardware Options

LEARNINGSPEACE SINGLE ROOM SET UP

Our most affordable, full-featured, simulation recording solution ever.

LearningSpace One Box solution is an all-in-one hub for your simulation room that connects cameras, microphone and patient simulator or medical device to capture and store up to 1,000 hours of video.

Specifications

- Hardware server console
- Built-in HDMI display capture
- 1000 hours video storage
- Built-in audio input
- Hi-Fi simulator integration
- Supports every LearningSpace software platform (Essentials, Enterprise)

LEARNINGSPEACE MULTI-ROOM SET UP

Build a complete solution for your simulation building

LearningSpace offers a server-based system with a structured AV network that connects all cameras, microphones and simulators into one cooperative simulation environment that is scalable and can store up to 12,000 hours of HD video per server.

Specifications

- One server connects to 10 devices (camera, audio input, simulator or speakers)
- Scalable up to 300 video feeds
- Store 12,000 hours of HD video recording per server
- Virtualization of the software is also available
