

Sustainable Purchasing Policy

Bondalti¹ is aware of the importance of sustainability for the growth of its activity, and as such, formalizes its ethical, social, and environmental concerns through the adoption of the best international practices in this field.

Commitment

Bondalti subscribes to the principles of Responsible Care[®] of CEFIC (The European Chemical Industry Council) and the Charter of Principles of BCSD Portugal (Business Council for Sustainable Development), which it considers good practices in guiding sustainable purchases.

This Purchasing Policy establishes Bondalti's principles of action:

¹ All Bondalti Group companies are included, namely Bondalti Capital, S.A., Bondalti Chemicals, S.A., Bondalti Cantábria, S.A., Elnosa - Electroquímica del Noroeste, S.A.

1. Acting in compliance with current legislation and regulations and with the internal governance procedures applicable to its activity;
2. Adoption of Bondalti's Code of Ethics and its availability to Suppliers, committing to refrain from any fraudulent or illegal practices and promoting a practice of transparency and respect for Human Rights ([click on the link](#));
3. Availability to Suppliers of the General Purchase Conditions for the supply of products and/or service ([click on the link](#));
4. Availability to Suppliers of internal safety standards at the time of contracting;
5. Definition of purchasing requirements in line with best practices, to promote Social Responsibility, Environmental Responsibility, and Circular Economy;
6. Encouragement of continuous improvement and innovation for the development of new solutions/more sustainable market opportunities;
7. Promotion of the socio-economic development of the Local Community where it operates;
8. Conducting Supplier Evaluations, according to the criticality of the type of supply, and disclosure of the respective criteria;
9. Analysis and qualification of suppliers, prioritizing in the selection process those who provide evidence of commitments in the areas of Ethics, Social Responsibility, and Environmental Sustainability.
10. Provision of appropriate consultation and communication channels.

Bondalti is committed to ensuring the means and structures necessary to promote the implementation and compliance with this Policy.
