LOCATE LIVE PLASTIC GAS & WATER LINES WITH NO BLOW BY

LOCATE LIVE GAS & WATER LINES

Jameson Live Tracer™ rodder units were developed to trace live gas mains as well as gas and water service lines.

Incorporating a stuffing box (included), the Live Tracer™ rod can be inserted into line without blow-by up to 125 psi.

A signal transmitter is connected to the rod to energize the internal copper wire, radiating a signal to the surface to be traced with a receiver in a continuous path.

One person can perform tracing with minimal or no excavation.

- No Blow-By While Feeding Rod Into Live Line Up To 125 PSI
- Less Disruption To Roads And Landscapes
- Minimal Pavement Breakage, Excavation And Restoration

NEW EZ-REEL™

Jameson Live Tracer™ Traceable Rodders are the most durable in the market, but we know job sites can be extremely tough.

Using our repair kits, customers are often able to splice rod or repair end-fittings to keep their rodders in service.

However, on occasion it may be necessary to replace the entire spool of rod due to more severe damage. Removal, disposal and rod replacement can be a difficult and time-consuming task.

Responding to customer feedback, Jameson introduced EZ-REEL™ pre-loaded replacement reels which help improve speed and safety of replacing damaged rod material.

DUCT HUNTER™ TRACEABLE RODDERS

The Duct Hunter is a continuous fiberglass duct rodder with a copper wire embedded in the rod core.

Connecting a signal transmitter to the rod energizes the wire, allowing the user to trace the continuous path of the pipe with a receiver.

Works with any non-conductive pipe, such as PE, PVC, concrete, clay or tile.

BUDDY® CONDUIT RODDERS

Since 1980, Jameson's Buddy® System of rodders and fish tapes has evolved to become the most comprehensive in the industry. The round, flexible rod slides easily over wires in occupied conduit, offering exceptional bending strength for maneuvering tight turns. Whether installing short run electrical wire or running long distance copper or fiber optic cable, Jameson has a Buddy® to handle the job for you.
