

NextGen End-to-End Quantum-Secure Messaging & Collaboration Platform

Communicate, Control and Collaborate Confidently

QVerse from QNu Labs is India's first quantum-safe messaging platform. It is 100% conceptualised, designed and built in India for global enterprises, organisations and government entities that demand real resistance against both current cyber threats and quantum-enabled attacks.

Be future-proof with QVerse, an untappable and unbreakable quantum-secure messaging solution.

Industry - Agnostic

NIST - Compliant

Easily Integrable

Battle - Tested

Market - Leading

Consent-based security:

Secure every message, supporting Intellectual Property Rights.

Why QVerse?

Forward secrecy:

Messages cannot be forwarded, maintaining secrecy and data integrity.

100% Safe:

Data resides 100% on your server (not on external cloud & servers).

Control-based file sharing:

Control who gets access to confidential documents.

File-size limiter:

Set predefined size limits and restrict specific file types to ensure compliance.

Remote wiping of data:

Completely wipe off data remotely in unfavourable situations.

High utilitarian value:

Send 1-to-1, group & broadcast messages.

Time to live:

Set a timer and the messages disappear automatically.

No screenshots or screen recordings:

Your files. Your rules.

Granular & containerised file-sharing controls:

Get advanced file-sharing controls.

Compatibility:

QVerse is compatible with all devices.

Audio & video calling:

Experience untappable audio & video calling with high-quality connections.

Vault your sensitive data:

Long-press & save any sensitive information, such as OTPs or passwords.

All-in-one:

Get all the advanced messaging features, with quantum-safe encryption.

Applications & Use Cases

Organisational data integrity

Consumer data privacy

Drug discovery & clinical trials confidentiality

Research data secrecy

Employee communication protection

Sensitive & confidential information securing

Insider threat prevention

Financial data resilience

Strategy & product launch information safeguarding

Military operation security

Espionage mitigation

Intellectual property shielding

Customer identity maintenance

Data breach avoidance

For any industry or organisation that collaborates and communicates, QVerse offers a future-safe messaging solution.
