

Hillview Wind Farm

Technical Assessments Survey

August 2025

ACE Power is developing a new clean energy hub near Uralla in New South Wales as part of its commitment to help Australia transition to a clean energy future.

We are asking neighbours to complete this survey to help us understand areas and features that are important to you. Information you provide will inform our technical assessments. Talking with us early provides the best opportunity to identify impacts and produce plans to avoid, mitigate and manage them.

Read our Hillview Wind Farm Community Information Booklet for more information on your upcoming technical assessment program.

About you

What is your residential postcode?

Can we contact you about your feedback?

Yes No

If yes, please provide your preferred contact information

Name

Contact number or email

Do you own or lease the property? (tick box)

Own

Lease

Other (please specify)

If you lease the property, can you please provide contact information of your property manager?

Land use

How is your land currently being used?

This could include residential, cropping, pasture/grazing, livestock production, tourism or commercial business.

What practices do you use on your property?

This could include irrigation, harvesting, aerial spraying or GPS technology

Landscape and visual impact assessment

Please identify any public scenic areas or viewpoints in the area that you would like us to know about?

Noise impact assessment

Are there any specific times of day or times of the year when noise is more noticeable or concerning to you?

Traffic impact and transport assessment

Are there roads or intersections you're concerned about during construction?

Which roads do you use regularly and what time of day?

Can you suggest any management measures that you think would be effective during construction ?

Ecology and biodiversity assessment

Are you aware of any areas of high value biodiversity on your property or in the area? Examples could include threatened or endangered flora or fauna

Have you observed any wildlife patterns that might be relevant to our studies?

Water

Are there any water sources in the area that are important to you or you think we should assess/know about?

Economic benefits

What potential economic benefits you would like to see delivered to the wider community ?

Are there any specific workforce opportunities this project could support?

Community benefits

What are the priority areas for community benefits that contribute a legacy impact?

Other benefits

Are there any other lasting community or economic benefits that would be suitable for the area?

Are you aware of examples in other communities that could be considered for this project?

Thank you for completing this survey

You can send your completed feedback form to

SUITE 402,
39 EAST ESPLANADE,
MANLY, NSW 2095
