## Performance

To keep out the wind and rain we use our patented high performance, multifunctional weatherseals.

The airtight seal this creates helps to maintain your comfort inside your home. The Flush Sash dual seal is exceptionally watertight, with the added benefit of concealing any hardware. Any water that has found its way inside is quickly evacuated due to the intelligently designed integral drainage gutter.

## Insulation

With its core designed around Heritage Sculptured Sash, the insulating properties of Flush Sash are even more impressive.

A double glazed window with a U-value of just 1.2 epitomises this market leading product.

Looking at colour samples will help you finalise your colour choice, and whether you are opting for a smooth or woodgrain finish. Also think about whether you would like the inside of your windows to be the same colour as the outside or whether to opt for white or oak inside to blend in with your internal decor.

Your Deceuninck Registered Installer will arrange a site survey at a mutually convenient time. This will allow for precise measurements to be taken as well as allowing you to confirm your choice of style and design to ensure that your bespoke windows are made to your satisfaction. Please take the time to ask any questions at this point and to make sure you are happy with the final design.

### Processing your order

Your Deceuninck Registered Installer will keep in touch with you and let you know as soon as possible when your installation date will be.
